OIL FIELD LAID LOW.

Tremendous Loss in Indian Territory.

Hundreds of Steel Tanks and Derricks Are Destroyed by the Storm.

Path Sixty Miles Long Swept Clean and Many Towns Are Struck.

Three Persons Known to Be Dead and Many Others Are Injured.

[BY DIRECT WIRE TO THE TIMES.]

MUSKOGEE (I. T.) June 26.—[Exclusive Dispatch.] A tornado followed by a cloudburst swept the entire mid-continent oil field this morning. Three men are known to have been killed, and the property loss is enormous. The dead are Frank Roper and two unidentified men working on the Glenn Pool fields.

The storm extended from Cleveland, Okla., on the west to Chouteau, I.T., on the east, and from Arkansas City on the north to Muskogee on the south. Houses were destroyed and great damage was done in small towns. Hundreds of oil derricks and tanks are wrecked.

At the Keefer, the heart of the Glenn Pool, 150 derricks have been counted in the ruins. At Turley there are 54 wrecked, and practically all of the oil derricks in the Osage Nation are down.

The tornado was a straight norther, and the wind reached a tremendous velocity. The loss in the oil fields will probably be two million dollars.

Telephone and telegraph wires are down and details are hard to get. It is feared the death list will grow.

THREE MEN KILLED.

OIL FIELDS DESOLATED.

[BY THE ASSOCIATED PRESS—P.M.]

TULSA (I. T. June 26.—A tornado with a path sixty miles long swept through the Indian Territory oil fields this morning killing three men and causing property loss estimated at from $1,000,000 to $2,000,000. The dead:

FRANK ROPER.

Two unknown.

All were oil field workmen and were killed by falling rigs.

The storm came from the north. It traveled due south until it struck a hill just north of Tulsa, when it struck off southeast through Tulsa and Red Fork, from Red Fork shooting south through the heart of the Glenn oil fields.

STEEL TANKS BLOWN DOWN.

The loss of life occurred in the Glenn field, where also was the greatest property destruction. Huge steel tanks were blown down, 100 derricks were demolished, rigs and tanks were destroyed by lightning, the camp of the Gulf Pipe Line Company was ruined and the village of Kiefer, adjoining the Glenn oil field suffered great destruction.

Red Fork and the Red Fork oil field and Jenks at the north limit of Glenn oil field are scenes of wreck and ruin.

Battlesfield reports large property loss and several people injured. Several houses were demolished in Collinsville. The Bird Creek and Skiatook oil fields were riddled. In Tulsa several buildings were unroofed and blown from their foundations and several persons were injured by falling timbers.

REPORTS AT DALLAS.

DAMAGE IS TREMENDOUS.

[BY DIRECT WIRE TO THE TIMES.]

DALLAS (Tex.) June 26.—[Exclusive Dispatch.] Reports reaching Dallas this evening state that extensive damage was done at Mounds, Keefer, Jenks and all over the Glennpool oil district of Oklahoma by a tornado which swept down from the north.

At Tulsa the damage was heavy. Several persons were injured by falling débris, but no fatalities have been reported. Houses were unroofed, windows broken and trees twisted and broken off. A terrific rain followed the tornado. Telegraph and telephone wires are down and the details are meager.

Several lives are reported to have been lost around Bedford, Sapulpa and southward, in the oil fields. Many derricks were blown down and the oil property loss will be large.

DIAMOND FOR WHISKY.

Los Angeles Man Charged With Stealing Borrowed Ring and Pawning It in a Saloon.

[BY DIRECT WIRE TO THE TIMES.]

GOLDFIELD (Nev.) June 26.—[Exclusive Dispatch.] Col. James R. Collins is under arrest, accused of stealing a $500 diamond ring from D. W. Moody, of the Moody Brokerage Company. Collins came from Los Angeles and advertised his desire to lend money on mining securities. At one time he was a banker in Los Angeles, held a seat on the Stock Exchange, and was head of the North American Trust Company. He bore letters from prominent capitalists of the Southern California metropolis.

Capt. Moody loaned him the diamond, and it appears that the California colonel pawned it at a saloon. Whisky and gambling are said to be at the bottom of the trouble.

WAKEFIELD APPOINTED.

OYSTER BAY (N. Y.) June 26.—President Roosevelt today appointed Lyman Wakefield to be register of the land office at Phoenix, Ariz.

The President approved the application for the retirement with the rank of rear-admiral, of Capt. William H. Reeder, U.S.N.

GIRLS DANCE IN CHURCH.

Number on Programme at School Commencement Exercises Causes Decided Stir.

[BY DIRECT WIRE TO THE TIMES.]

HACKENBACK (N. J.) June 26.—[Exclusive Dispatch.] At the commencement exercises of the Hackensack Grammar Schools, held in the Reformed Church last evening, the most innocent-looking number of the programme is today the most talked about.

The members of the Board of Education are endeavoring to find out who "got up" the number. It was entitled "Song and Drill" by the girls' choir. In reality it was a reproduction of "Bessie and Her Little Teddy Bear," which has dragged its risque way across the boards in New York for several weeks. Before the exercises began two of the women teachers are said to have argued in favor of cutting out the number.

The schoolgirls "made eyes" when they reached that part of the song that said they were "wise," and they executed a dance where the pulpit is located. The performance was encored. Several women members of the church left the exercises when the dancing began.

SOCIETY GIRL WEDS MEXICAN.

BRIDE'S PARENTS FAIL TO ATTEND CEREMONY.

Daughter of Millionaire Brewer of St. Louis Overrides Family Objections and Marries Dashing and Handsome Officer of Army of the Southern Republic.

[BY DIRECT WIRE TO THE TIMES.]

ST. LOUIS (Mo.) June 26.—[Exclusive Dispatch.] Miss Caroline E. Tinker, daughter of Zach W. Tinker, millionaire brewer and one-time candidate for Mayor, was married at the Moser Hotel today to Manuel Garcia Lugo, captain of artillery in the Mexican army. Justice Riechmann performed the ceremony and Don C. Summers, Assistant Circuit Attorney, was the only witness.

The bride's parents were not taken into the confidence of the couple. Capt. Lugo and his wife went from the Moser to the Grand Avenue Hotel to remain there until their departure tonight for Jamestown, with the Mexican National Band.

Mr. Tinker has just returned from New York, where he stated he had been negotiating with George Gould's agents for the purchase of Georgian Court, the Gould's country seat at Lakewood, N. J.

Capt. Lugo is one of Mexico's commissioners to the Jamestown Exposition. He accompanied the band on its journey here from San Luis Potosi, Mex. Miss Tinker and the Mexican officer met during the St. Louis World's Fair. The acquaintance was renewed last winter while the Tinker family was traveling in Mexico.

Mr. and Mrs. Tinker endeavored to dissuade their daughter from her purpose, of which they then learned, to marry Capt. Lugo and they urged delay in the hope that she would become interested in an American suitor.

The bridegroom is a dashing and handsome soldier of the pure Castilian type, and a member of one of the leading families of Mexico. Miss Tinker is regarded as one of the most beautiful society young woman in the city. Miss Tinker's step is said to have been taken, if not against parental objection, at least in defiance of parental counsel for delay.

FAMOUS MINE IS BURNING.

MEN IN MINNIE HEALY FLEE FOR THEIR LIVES.

Many of Them Are Partially Overcome While Being Hoisted to Surface—Work Is Temporarily Suspended in One of the Heinze Copper Properties.

[BY DIRECT WIRE TO THE TIMES.]

BUTTE (Mont.) June 26.—[Exclusive Dispatch.] Fire in the big Minnie Healy copper mine, of Heinze-Amalgamated strife fame, now owned by the Butte Coalition Company, which broke out yesterday between the 600 and 800 levels, drove more than 300 miners to flight.

A number of men were partially overcome and they were with difficulty saved from falling down the shaft as they were being hoisted to the surface. The stifling sulphur fumes emitted from the fire precluded all possibility of operating the mine today and work has been suspended pending the fighting of the fire. The fumes became so prevalent that it was necessary to call off one shift of 200 men in the Leonard mine, one of the adjoining big mines of the Amalgamated Copper Company.

Bulkheads are being constructed and it is thought further spread of the flames will be prevented. This has been done in the case of the St. Lawrence mine, further up the hill, which has been burning in one portion for the past thirteen years.

EARNINGS ARE LARGE.

BOSTON, June 26.—[Exclusive Dispatch.] Atchison, Topeka and Santa Fé reports today May operations as follows: Gross earnings, $8,390,517; expenses, $5,478,978; net, $2,914,539; taxes and rentals, $220,615; income from operations, $2,694,224. Eleven months' gross, $83,826,814; expenses, $53,943,923; net, $31,882,891; taxes and rentals, $2,226,818; net income from operations, $29,546,072. May gross increase, $1,352,610, and net increase, $668,750.

BOOMING TAFT.

OMAHA (Neb.) June 26.—[Exclusive Dispatch.] "Taft is growing stronger all over the country every day, and it seems that nothing can prevent his nomination and election."

The above letter was received today by Frank Shotwell, secretary of the Nebraska Taft League. It was written by A. L. Vorys of Columbus, O. Mr. Vorys, who is Secretary Taft's political manager, asks Mr. Shotwell to continue the work of organizing the State for Taft and tells him the Taft work is booming all over the country.

WITNESSES ENDEAVOR TO SHIELD HAYWOOD.

[BY THE ASSOCIATED PRESS—P.M.]

BOISE (Idaho) June 26.—William F. Davis of Goldfield, Nev., one of the most important witnesses for the defense of William D. Haywood, accused of the murder of Frank Steunenberg, was called to the stand at noon today, and his cross-examination had not been completed when court adjourned this evening.

Harry Orchard testified that Davis led and commanded the mob that destroyed the Bunker Hill and Sullivan mill in 1899, inspired, as the agent of Haywood and Moyer, the Vindicator explosion and the train wrecking plot at Cripple Creek, and was an accomplice in the Independence station crime.

On direct examination by Clarence Darrow, Davis went over the story of his working life, including the pathetic account of the death of his wife and babe at Cripple Creek, at which he wept, and he made a positive denial of every statement of Orchard that involved him or his associates in any form of crime. He denied that he was even a member of the union when the Bunker Hill and Sullivan mill was blown up, and at the conclusion of his general story he swore that at Cripple Creek during the strike, Orchard told him of the Hercules mine affair and threatened to kill Steunenberg.

The cross-examination of Davis by Senator Borah was severe and searching, and it was chiefly devoted, as far as it proceeded, to the Bunker Hill and Sullivan affair, and the circumstances under which Orchard made the threat against Steunenberg. Davis asserted that he remained at Gem the day the Bunker Hill mill was blown up, and while he said he saw the train in charge of the masked mob arrive and depart from Gem, he could not name any one on the train except the engineer, Hutton. He said there was no excitement, and he made no inquiry about the mob. He said that he remained in hiding after the mill was blown up because he did not want to be deported or thrown into the "bull pen," and that he changed his name when he departed for Butte shortly afterward, because he feared the mine owners' blacklist, made up from a petition that the employés of the Bunker Hill had sent to Gov. McConnell, protesting against the unsafety of the mine. Borah showed that the petition had been presented six years before, and that Butte was a Federation camp, where the blacklist was ineffective. Passing to the threat Orchard made against Steunenberg, the witness was unable to recall what any one else had said on that occasion except the words of Orchard.

Davis returns to the stand tomorrow morning.

Mrs. Lottie Day of Denver testified that in 1904 Orchard told her about the loss of the Hercules interest, and with it the chance to "support the only women he ever really loved," and that he said he would kill Steunenberg for the wrong done him; and John D. Elliott, an old soldier, swore that Orchard told him on a train in Idaho in the fall of 1905 that he was in the employ of the mine owners and that there was a plot against the Federation and its leaders. Cross-examination showed the fact that Elliott had been twice an inmate of an insane asylum, with a mind unbalanced by family troubles.

John M. O'Neill, editor of the Miners' Magazine, was the only other witness during the day. He testified that Orchard came to his office early in 1905, and asked for the addresses of Gov. Peabody and Gen. Sherman Bell, whom he said should be "bumped off." O'Neill said he referred Orchard to a city directory. The State used the cross-examination of O'Neill to make it clear that the magazine was the official organ of the Federation, and expressed its views, and he read to the jury some sneering articles about the death of Steunenberg. O'Neill also said that he had seen Orchard at Federation headquarters several times, and that Steve Adams and Mrs. Adams had also been there.

COLORADO WOMAN APPEARS AS WITNESS.

[BY THE ASSOCIATED PRESS—A.M.]

BOISE (Idaho) June 26.—In the Haywood trial today the first witness was Mrs. Lottie Day, who knew Harry Orchard at the Belmont rooming house in Denver under the name of J. Dempsey. Mrs. Day said she met Orchard just prior to the convention of the Western Federation of Miners in 1904. Once, while she was talking to Orchard, Haywood and a man named McDonald, who was also connected with the federation, came in. Orchard introduced her to Haywood and then went away with him. Mrs. Day said she was first summoned to Boise by the State, but was sent back to Denver two weeks ago. The witness related a conversation with Orchard when the latter told her that poverty had separated him from the one woman he loved, and that Steunenberg was responsible for his being poor, and that he would get even with him if it was the last act of his life.

"Didn't he say 'that — Steunenberg'" asked Mr. Darrow.

"No, sir, I'm sure he did not swear

(Continued on Fifth Page.)

PANIC IN THUGDOM.

Secrets Are Known to Prosecutors.

If Laid Before Grand Jury, Revelations May Shake Unionism to Core.

Cornelius Is Terror-stricken by Knowledge That His Guilt Is Exposed.

Details of Conspiracy to Attack Cars in Hands of the Police.

[BY DIRECT WIRE TO THE TIMES.]

SAN FRANCISCO, June 26.—[Exclusive Dispatch.] A terrific row has broken out in the grand jury. Witnesses waiting to testify have heard them loudly quarreling. The cause of the row is said to be the investigation of the union outrages against street cars.

Some of the jurors demand that the charges be carried straight to the head officers of the union. Mr. Hearst's trained man, Langdon, is said to be unwilling, for political reasons, to do this. He, and the faction of the grand jury controlled by the prosecution, want to call it off with the perfunctory indictment of the half-dozen or so paid thugs caught in the act of attacking a Chutes car. Three of these men were indicted yesterday, and more indictments were returned today.

SECRETS ARE KNOWN.

Cornelius is in a state of chattering terror. He and the other union men now realise that some person in their very innermost councils is a detective, and that every one of their criminal secrets is known. Unless Langdon decides to smother this evidence at the demand of the Examiner and the unions, there will be revelations that will shake unionism to its very core.

In every big strike the union leaders have played the same game that Cornelius has tried to play. They have a secret gang of armed thugs to make trouble. Publicly they "denounce violence," offer rewards for the arrest of lawbreakers and beg their men to "preserve public peace." But this time it didn't work.

Almost the entire inside of the conspiracy is in the hands of the police.

In all previous cases where arrests were made Cornelius and Bowling have let out a great roar that it was "all a plot of the United Railroads." Tonight, they haven't the nerve to assert the innocence of the men arrested for the Chutes car outrage. Instead, Cornelius says that they "were enticed into the violence by enemies of the union."

COURT COULDN'T SEE JOKE.

Daniel J. White, the striking carman, who laid a stick of dynamite in front of a Haight street car, was before Justice Wells for preliminary examination today. He said he meant it just as a joke. Although it certainly would have been excruciatingly funny to have seen women passengers blown to pieces, the court seemed to be deficient in humor. White was held to answer in the Superior Court.

The cases of W. G. Burton, John McDonald and Charles F. Cordes, all prominent officers of the Carmen's Union, who "short-circuited" a high power wire on May 22, came before Judge Weller today. Their attorneys made a desperate fight to kill the charges on technical points, but the case was taken under advisement.

HEARST PLEADS FOR HARRIMAN.

DOESN'T WANT ANY ELECTION FRAUDS INQUIRY.

Is Believed to Have Agreed to Call Off Langdon from Any Prosecution of Southern Pacific Officials for Palpable Reasons—Sadly Interferes With Heney's Plans.

[BY DIRECT WIRE TO THE TIMES.]

SAN FRANCISCO, June 26.—[Exclusive Dispatch.] That Hearst is in San Francisco for the purpose of protecting the Southern Pacific officials from indictment by the grand jury is the stout claim of the politicians of this city. It is claimed that Hearst has agreed to call off Langdon, his District Attorney, from any prosecution of Herrin and Harriman.

It is not so much that he loves Harriman, although they have an anti-Roosevelt alliance, but it is because Hearst is not in favor of grand jury indictments for crooked political work. Too close to home. Several of the men on his own paper, including his city editor, have been charged before Heney's grand jury with election frauds. These charges have never been denied by the Examiner. For two days after the publication of the sworn accusations, the paper kept silent. The third day after Heney had been persuaded by frantic Hearst men to smother the charges, an editorial appeared in which the Examiner said: "How ridiculous to think the Examiner would do such a thing." But there was no denial that the Examiner man did, in fact, commit these frauds.

Something has certainly happened to the Herrin-Harriman investigation. It was Heney's stated ambition to destroy the terrible Southern Pacific octopus in whose clutches this State has struggled for years. But what's become of it? Men who are close to the prosecution say that Spreckels, victim of the

NICOLAI DE RAYLAN, the man-woman, and his "wife."

grand bunco game, occasionally makes plaintive inquiry as to when they are going to get to the "big ones."

Langdon is, of course, the only person in the prosecution with actual authority. And he belongs absolutely to Hearst who "ran him" for Governor on the absurd Independence League ticket, the Independence League being made up of some reporters detailed for that purpose. The Independence League in Los Angeles, for instance, consisted of the Examiner's police reporter and the man who drove Langdon's hack.

Politicians of this city claim that Hearst intends staying here, either in person or by proxy, for the purpose of insisting that no hostile action be directed against Harriman. Heney, in other matters a brave man, seems to be scared to death of Hearst. He almost got down on his knees to implore the editor of the Bulletin to withdraw his charges relative to the alleged election frauds of the Hearst men.

DELMAS MEETS COBB.

Spectators in Court Highly Entertained by Clash of Personalities of Opposing Counsel.

[BY THE ASSOCIATED PRESS—P.M.]

SAN FRANCISCO, June 26.—D. M. Delmas, a veteran of the bar, and Charles W. Cabb, the youthful law partner of Assist. Dist.-Atty. Heney, were pitted against each other today in arguments for and against the motion to set aside certain of the bribery indictments against Vice-President Louis Glass of the Pacific States Telephone and Telegraph Company, and the frequent tilts exchanged between the polished director of the Thaw defense and his boyish but capable antagonist, kept the two hundred spectators in the pews of the Temple Israel on the edge of eagerness all afternoon.

The famed punctiliousness of the one was never more in evidence; the bluntness of the other served seemingly as a foil. To Mr. Delmas, Mr. Cobb was "my youthful and learned adversary;" to Mr. Cobb, Mr. Delmas was sharply and accusatorily "you." The audience enjoyed it, but Judge Lawlor now and then called a stop.

The greater part of the afternoon was consumed in examining Foreman B. P. Oliver of the grand jury as to the voting and returning of those two indictments which charge Mr. Glass with the crime of bribing Supervisors Furrey and Sanderson to vote against the granting of a competitive franchise to the Home Telephone Company of San Francisco.

It developed that on the 21st of March the grand jury voted to indict Louis Glass eleven times for bribing eleven Supervisors, but only nine of these were returned into court on March 23. The two withheld were the Furrey and Sanderson indictments, which Heney instructed Foreman Oliver to withhold and place for safe keeping in the grand jury strong box. In making out the eleven true bills the Furrey indictment was signed and voted, but the Sanderson indictment was not. On May 24, two months later, Mr. Heney gave Mr. Oliver two "true bills" to be substituted for the Furrey and Sanderson indictments, saying the District Attorney's office had found it advisable to "make a change in the phraseology;" and on the same day these substitutes were by the grand jury lodged against Glass in court.

It was to determine whether these substitute indictments had been duly voted by the board of inquiry, and whether the Sanderson one was founded on testimony given by Sanderson himself in the interim of March 21-May 24, that the foreman was examined at much length by the defense. The attempt to elicit this information provoked Cobb to accuse Delmas of seeking to discover grand jury secrets and require the witness to violate his oath to protect these secrets.

It developed from Mr. Oliver's answers that Sanderson's testimony was given six days after the grand jury had voted to find eleven true bills against Glass, and that his confession, given with tears coursing down his cheeks—he is slowly dying of consumption—formed no part of the evidence on which the indictments were based.

"Will you kindly state," asked Delmas, "what subject was under investigation when Mr. Sanderson appeared

(Continued on Fourth Page.)

REVEALED AT LAST.

Nicolai de Raylan's Secret Known.

Diary of Russian Woman Who Masqueraded as a Man Eighteen Years.

Began Career of Deception in Effort to Blackmail Her Own Mother.

Fooled Procurator of Holy Synod Who Often Stood Sponsor for Her.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, June 26.—[Exclusive Dispatch.] The life secret of Nicolai de Rayian, for years secretary of the Russian Consulate at Chicago, who, after masquerading as a man for eighteen years, was found after her death to have been a woman, was revealed today.

The story, never before published, contained her reason for starting out on a career of deception that proved her one of the most accomplished actresses in the world, and disclosing Russian scandal that has been hidden for years, is contained in her diary and correspondence.

It is a story almost without parallel for amazing features, showing the pluck, resourcefulness and cleverness of the woman, who began with an elaborate and daring scheme to blackmail her mother and force from her the secret of her own parentage and her mother's suddenly acquired fortune, and who then found it necessary to go through life for eighteen years disguised as a man, and "making good" the bluff under all circumstances, even when her sex was disputed.

BLACKMAILS MOTHER.

Summarized, the diary reveals that: Nicolai de Rayian's real name was Taletsky. Her Christian name is unknown. She started on her remarkable blackmail by mother in Russia. It became necessary to continue her disguise, because she was sought for years by the Russian police.

The compelling motive of De Rayian's entire career was an effort to prove that her mother had been masquerading her as a girl when in reality she claimed she was a boy.

She had her inspiration in two statutes of Russia—one of which makes it a crime punishable by imprisonment for any one to gain entrance by any means for a boy into a girl's school. The other was the law regulating compulsory military service, which made it a serious crime for a mother to hide the sex of a male child.

M. Pobiedonosteff sought her for years through the secret police of Russia to prevent a scandal he having sworn after an interview that Nicolai was a man.

She made love to almost every woman she became acquainted with, and previous to her two marriages in Chicago, she became engaged to several women.

Her second "wife," Anna de Raylan, knew the life secret of "Nicolai," and received $15 a week over and above living expenses throughout the term of marriage, for a mysterious purpose.

DECEIVES PROCURATOR.

Linked inseparably with early chapters of her story is the name of M. Constantini Petrovitch Pobiedonosteff, Procurator of the Holy Synod, who for years was the dominating figure of Russia in many fields of activity. The Procurator was deceived by Nicolai, as she dubbed herself upon assuming masculine disguise, and after a private interview, M. Pobiedonosteff, who was a careful man, stood sponsor for her and swore she was a man.

Nicolai even started criminal proceedings against her mother, and, when she fled before the final medical examination necessary to the trial, M. Pobiedonosteff found himself in an embarrassing position, which he hushed up suddenly to avoid a scandal.

The diary and letters revealing this astounding story and solving the mystery that baffled Chicago investigators and emissaries of the Russian government, were discovered by a young Chicago lawyer, Michael Feinberg.

Most of the documents and all of the diary are in the Russian language. Feinberg's connection with the case at first was purely official, and he was sent to Phoenix, Ariz., to prove the sex of De Rayian, to controvert the claim of Nicolai's "widow" to the estate.

SCOTTY'S MINE REAL.

Former Partner of Death Valley Miner, Says Claim Is at Windy Gap.

[BY DIRECT WIRE TO THE TIMES.]

GOLDFIELD (Nev.) June 26.—[Exclusive Dispatch.] Slim MacDonald, once a partner of Death Valley Scotty, is in Goldfield. He says the fabled mine is no myth, that it is at Windy Gap, sixty miles southeast of Rhyolite, is as big as all out-doors, and a veritable quarry of rock that runs from $10.-000 to $75,000 per ton.

MacDonald says there are no hostile Indians in that section. There are some aborigines living nearby, but they seem to care nothing about the mine if they know anything of it. At any rate, they show no symptoms of belligerency.

ANARCHIST CAST OUT.

WASHINGTON, June 26.—[Exclusive Dispatch.] Direct representations from the Italian Embassy in Washington have been made to the State Department against Orestes Ferrara, secretary of the Cuban delegation to The Hague Peace Conference, on the ground that he is a militant anarchist, with a jail sentence standing against him in Italy.

As a result of the protest Ferrara has resigned his job and Gov. Magoon, provisional executive of Cuba, has got himself in a box. Ferrara is a recognized Liberal leader and is supporting Gomez for the Presidency.

POLITICAL.

TAFT CONFESSES HIS CANDIDACY.

Admission Is Made at Yale Alumni Banquet.

Relates Anecdote Which Fits Knox's Case, Too.

Shows Respect for Chances of Pennsylvanian.

[BY DIRECT WIRE TO THE TIMES.]

NEW HAVEN (Ct.) June 26.—[Exclusive Dispatch.] William H. Taft, Secretary of War, confessed this afternoon in a funny anecdote, his candidacy for the nomination for the Presidency and showed that he regards with respect the candidacy of Senator Knox, who sat near him at the Yale alumni banquet. Twelve hundred Yale graduates arose and sang "Everybody takes his hat off to Taft."

After saying concerning gifts to Yale that "Before you die, see Stokes," ought to be a motto for every Yale man who has any money—reference being to the Rev. Anson Phelps Stokes, Jr., secretary of the university—Mr. Taft talked of his own aspirations. He also complimented Senator Knox on his address of yesterday. He then said:

"Senator Knox and I are in much the same situation as that old Kentucky mountaineer who came down to Frankfort when the State elected a Republican Governor. The old fellow had voted the party ticket many years with no results, but this time he thought his chance had come. He put up at a fine hotel and waited and then dropped into a cheap boarding-house and later patronized lunch counters. When his funds gave out, he saddled his old mare and started for home. He chanced to pass the hotel, and when some of the loungers on the veranda laughed at him he told them his hopes and his disappointments.

"I came here to see if I could not help the government, and though I've heard of the office seeking man I have not seen any. But if you fellows see any office seeking the man just tell 'em that you saw Jim Stokes on his old mare on the Alexandria turnpike and he was going damned slow."

"I don't think my friend Knox quite understands how much has been done for him. There are other gentlemen in this country who may well complain, for they possibly occupy the same position that Knox and I do with respect to the slowness of our progress. The truth is that what is a good deal of handicap to them was removed from brother Knox today when he was made a Yale man."

REAL ISSUE RAISED.

Federal Regulation of Commerce Expected to Be Greatest Question Before Congress.

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON, June 26.—[Exclusive Dispatch.] In the opinion of Washingtonians, Senator Philander C. Knox of Pennsylvania, in his speech on the Federal power to regulate commerce to the graduating class of the Yale Law School, has hit squarely on the head the greatest issue which will come up before Congress next winter, and will be the principal bone of contention before the Resolutions Committee of the two big national conventions next year.

While expressing thorough sympathy with the attitude of the national administration in its endeavor to control interstate commerce, Senator Knox's speech is regarded as a protest against that centralization of Federal regulatory power which has been advocated by President Roosevelt and Senator Beveridge of Indiana and to a degree by Secretary Root.

It is admitted here by political leaders in all Presidential camps that Senator Knox's speech will find a response in many States, and that he has made the most powerful legal argument yet heard against centralization of regulatory power in the Federal government.

OIL CONSUMERS ARE SWINDLED.

STANDARD COMPANY USES CANS OF SMALL SIZE.

Investigation by Inspector of Weights and Measures in Indianapolis Shows That Five-Gallon Receptacles Are Short Three Pints. Manager Is Arrested.

[BY DIRECT WIRE TO THE TIMES.]

INDIANAPOLIS (Ind.) June 26.—[Exclusive Dispatch.] City Inspector of Weights and Measures Wulfson, on complaint of patrons, measured five gallons of oil left by a Standard Oil Company driver at a residence a few days ago, and found the amount short three pints. The driver was arrested, and when the Standard's local manager called to bail out the driver, he, too, was arrested.

The city then demanded that the 80,000 cans used by the Standard for delivering oil and gasoline should be measured and be labeled with the city's guarantee of honest measure, but the company contends that its products are measured by machinery and that the measures at the plant only should be submitted to the test. The charge of the city is 5 cents for each gallon can, 10 cents for each two-gallon can, and so on, and the Standard declines to pay. Arrests of all drivers using cans without the city's stamp will be made.

NEW TRIPLE ALLIANCE.

MILAN (Italy) June 26.—The Secolo today came out in support of the new triple alliance, that of Great Britain, France and Spain, which the paper refers to as the "nucleus of the future United States of Europe" and then severely criticises Italy for clinging to Germany.

TORPEDO BOAT STRIKES MINE.

ST. PETERSBURG, June 26.—During the maneuvers today the torpedo boat Ubedimiliny struck and exploded a mine. The damage was slight, owing to the deterioration of the mine.

THOMAS F. WALSH.

MINER PROVES HIS HONESTY

THOMAS F. WALSH DECLINES TO DOUBLE FORTUNE.

Declares He Will Not Work Rich Mine Adjoining Claim Which He Recently Sold for $10,000,000 Because Operations Would Spoil Property of Others.

[BY DIRECT WIRE TO THE TIMES.]

DENVER (Colo.) June 25.—[Exclusive Dispatch.] Thomas F. Walsh could double his present large fortune without an effort, if he were not only honest within the letter of the law, but its spirit.

Walsh today returned to his magnificent Colorado home and was asked among other things as to the work he would undertake in Colorado, particularly in a mining way, and as to what he proposed to do with the Hidden Treasure. This is an enormously rich mine in the Ouray district, immediately adjacent to the Camp Bird, which he sold for $10,000,000. In reply he said:

"I shall do nothing to turn out the wealth in the Treasure. There is a vast fortune there, but while I own the prior water rights you must remember this: I sold the Camp Bird to a syndicate, and if I should open up the other property to its full capacity, to gather in the fortune lying there, it would ruin the Camp Bird mine. I sold the Camp Bird in good faith, and a merely technical legal right would not in my opinion justify me in developing the other property at the expense of the people to whom I made the sale of the Camp Bird."

SEEK RELIEF FROM MISRULE.

PEOPLE OF OLD GEORGIA APPEAL TO THE HAGUE.

They Send to Peace Conference Memorial Declaring That Russia Adopted Policy of Ruthless Maltreatment and Spoliation in Former Independent Kingdom.

[BY DIRECT WIRE TO THE TIMES.]

THE HAGUE, June 26.—[Exclusive Dispatch.] The calm waters of the peace conference were somewhat disturbed today when there was placed in the hands of the delegates, including M. Nelidoff, a dramatic and passionate appeal to the world on behalf of the 2,500,000 people of the old kingdom of Georgia.

The petition recites what is said to be systematic violation by Russia of its treaties with Georgia together with the ruthless maltreatment and spoliation of the Georgian people in respect both to public and private interests and rights.

"Our language has been banished," runs the appeal, "and our military system has been destroyed and replaced by a Russian obligatory service, which takes out young men into the severe northern climates, where 47 per cent. of them perish. Economically the country has been overthrown.

"All the Georgian national lands have been appropriated by the Russian government and declared imperial property. Every reform granted Russia has been denied to Georgia. Although Russia enforces the contention that Georgia is a Russion province under its aegis, our country is in a state of siege. The military and the Cossacks slay and rob the people, causing thousands to flee from the cities to the mountains, where great numbers of the youngest die from exposure.

Thus wronged and denied the right of a collective petition to the Douma and the Czar, the Georgian nation lays its case before the delegates to The Hague conference, and through them before the civilized world."

ROBBERS USE BOMB.

Several People Are Killed in Successful Assault Upon Bank's Treasure Wagon.

[BY THE ASSOCIATED PRESS—A.M.]

TIFLIS (Russia) June 26.—A bomb was exploded today in Erivan Square in the center of the city, while the place was thronged with people. The object of the bomb throwing was an attack on the treasury. A wagon containing $125,000 escorted by Cossacks had reached Erivan Square when the bomb exploded. Two employés of the Imperial Bank were killed. The number of other victims have not been as yet ascertained. The bags containing the money disappeared and no trace of them has been found.

GOVERNOR OF HAWAII.

Chief Justice William F. Frear Cables Acceptance of New Office Beginning in August.

[BY THE ASSOCIATED PRESS—A.M.]

OYSTER BAY (N. Y.) June 26.—President Roosevelt today formally appointed Judge William F. Frear to be Governor of Hawaii to take office the middle of August.

JUDGE FREAR ACCEPTED.

[BY THE ASSOCIATED PRESS—A.M.]

HONOLULU, June 26.—Chief Justice William F. Frear has cabled President Roosevelt his acceptance of the Governorship of Hawaiian Territory beginning in August next.

STOP TO FIGHT ONE ANOTHER.

French Vineyardists Wrangle Among Themselves.

Many of Them Denounce Albert as Traitor.

"Redeemer" Accused of Selling Out for Petty Sum.

[BY DIRECT WIRE TO THE TIMES.]

NARBONNE, June 26.—Marcellin Albert's confession that he received 100 francs from Premier Clemenceau for railway fare back to the south after the interview between them, seems to have destroyed his prestige among the rebellious wine growers.

He was a hero yesterday, but now he is roundly abused as a traitor, who sold out the movement for $20. At least, Narbonne already has repudiated him as a renegade, and the people threatened this morning that if he does not surrender himself a prisoner immediately, the wine growers will take him by force to the Montpelier Prison.

For the moment the Argeles committee remains faithful, but many of Albert's adherents even there are wavering. Fearing that the Narbonne committee might make an attempt to abduct the "Redeemer," to land him in jail, his sympathizers are guarding his house in Argeles. That village is greatly incensed at Narbonne's attitude, and there is a possibility of a serious conflict between the sections for and against the little black-bearded champion of the vine, the main question being sidetracked temporarily.

Everything is quiet throughout the three rebel departments today, but the mob, though inactive, is defiant and the danger of a fresh outbreak is in everybody's mind.

TROOPS ARE UNRULY.

INSUBORDINATION GROWS.

[BY THE ASSOCIATED PRESS—A.M.]

PARIS, June 26.—The government is quite as much concerned about the insubordination manifested among troops as to the attitude of the wine growers, for, in spite of the efforts to minimize, the new incidents showing the lack of discipline in the army are occurring daily.

The government seems to have awakened to the necessity of dealing sternly with the demoralization engendered by the socialistic anti-military propaganda, and the press comment is against the decision of the government to exile the mutineers of the Seventeenth Infantry and postpone indefinitely the bill providing for the abolition of courts-martial in time of peace.

The position of the Cabinet was increasingly difficult, and M. Clemenceau's sole object seems to be to weather the storm until the summer vacation of Parliament affords a breathing spell.

MESSAGES SLOW, SAY OPERATORS.

CLAIM MADE THAT WORK IS FAR BEHIND.

It Is Intimated That Many Telegrams Filed in Los Angeles Are Sent North by Mail—Managers Report an Increase in Their Working Forces.

[BY THE ASSOCIATED PRESS—P.M.]

SAN FRANCISCO, June 26.—The Press Committee of the striking operators gave out the following statement tonight:

"At midnight Tuesday the following report was received at union headquarters, showing where and how San Francisco telegrams for the East are being handled.

"'San Francisco office had 570 messages on hand seventeen hours behind; Denver, 356, twenty hours behind; Los Angeles, 580, twenty-four hours old; Salt Lake, 175 behind, nineteen hours old; Portland, 346, twenty-four hours old; Seattle, 480 behind, twenty-four hours old. A total of 2201 San Francisco telegrams in transit between San Francisco and the East by easy stages.

"'At oLs Angeles Saturday night last 1000 messages for San Francisco disappeared from the operating room. It is presumed they were shipped by train to Oakland, where they would arrive in time for delivery early Monday morning. The fact that Denver, Salt Lake, Los Angeles, Portland and Seattle are relaying Coast business is significant. Under normal conditions San Francisco works direct with Chicago, New York and other large eastern cities. Since the strike occurred business has been routed in any and all directions from the East to San Francisco, the practice of the telegraph companies being to get business as near the "storm center" as possible and then, if "communication has not been restored," send it into San Francisco by train.'"

A possible step toward a settlement was made yesterday when the striking operators appointed a conference committee of seven members, including President Small, with a view of opening negotiations with the Western Union and Postal Telegraph companies. Although, the powers of the committee were not announced following its appointment, it is thought the committee will be clothed with authority to arrange a basis for the settlement of the strike. One function of the body will be to place the demands of the strikers before the heads of the companies.

The operators declare that the companies are seriously crippled and must ultimately yield to the demands for a 25 per cent. increase in wages. It was conceded generally yesterday that the strike was likely to continue for several weeks and the possibility of extending the strike zone was also admitted.

Officials of both companies declared yesterday that they were handling expeditiously all the business that came to them. Both claimed gains in their staff of operators.

President Small now threatens to call out the Chicago telegraphers.

Times Pictures in Portfolio.

Copies of the art pictures already distributed free with the Sunday Times, together with those to be put out in the future, will within a few weeks be put up in portfolio form and offered for sale in their entirety. Not less than twenty-six reproductions will comprise the portfolio, and a suitable cover will inclose the entire series of beautiful Southern California views. Advance orders taken. Postpaid for 0

NINE THUGS INDICTED.

Grand Jury Charges Three Men With Throwing Bricks and Six With Conspiracy to Riot.

[BY THE ASSOCIATED PRESS—P.M.]

SAN FRANCISCO, June 26.—The grand jury today returned four indictments charging the following nine persons with crimes of violence in connection with the present street car strike: John William Hays, Barney Olsen, Charles Laughle, John Mitzen, Rudolph Schmidt, George Peterson, J. C. Kyle, J. H. Burns and J. Murray McDonald.

The first-named three are accused of assault with a deadly weapon—throwing bricks through car windows; the last six are charged with conspiracy to riot. Most of the indicted persons are members of labor unions.

These are the first indictments to be returned in connection with the street car strike since the determination, recently announced, to deal with such disorders through the medium of the judge instead of trusting to the police courts.

BEATEN BY STRIKER.

LOS ANGELES MAN HURT.

[BY DIRECT WIRE TO THE TIMES.]

SAN FRANCISCO, June 26.—[Exclusive Dispatch.] M. Langley of Los Angeles, employed by the United Railroads, was severely beaten early this morning by a union teamster, and now lies at the Central Emergency Hospital in a serious condition.

At an early hour this morning Langley engaged a room in an apartment house at Buchanan and McAllister streets. As he entered the room he noticed that he had a room-mate. The two entered into a conversation, in the course of which Langley confided to his room-mate that he was a strike breaker. Instantly there was a scuffle, and when it subsided Langley's face was a mass of bruises, his jaw dislocated and both eyes swollen. The teamster escaped.

CONCILIATORS THROUGH.

COMMITTEE IS DISSOLVED.

[BY THE ASSOCIATED PRESS—A.M.]

SAN FRANCISCO, June 26.—With the settlement of the iron trades and the laundry workers' strikes to its credit, the conciliation committee has decided to wind up its affairs. It will make a final report to the Civic League on Thursday night and will leave the settlement of the car and telephone controversies to other agencies.

Word was received from the committee yesterday that Secretary Straus would reach San Francisco on July 22, and would remain here four days. Secretaries Garfield and Metcalf are expected at the same time.

CLEAR REFUGEE CAMPS.

PARK COMMISSION'S ORDER.

[BY THE ASSOCIATED PRESS—A.M.]

SAN FRANCISCO, June 26.—The Executive Committee of the relief corporation has been directed to clear all the refugee camps by August 17 as a result of the firm stand taken by the Park Commission. Circulars will be printed in half a dozen different languages, setting forth that the refugees must move.

A member of the Real Estate Board will be called into conference with the relief corporation and the Park Commission to devise means of caring for refugees who are dependent.

There are now 17,504 persons living in the thirteen refugee camps. They occupy 5438 cottages and several barracks and apartment houses.

SCHMITZ'S CASES UP.

FOUR TO BE SET FOR TRIAL.

[BY THE ASSOCIATED PRESS—A.M.]

SAN FRANCISCO, June 26.—Eugene E. Schmitz, convicted of extorting money from Joseph Malfanti, will appear before Superior Judge Dunne for sentence tomorrow and at the same time four other extortion cases against the former Mayor will come up to be set for trial.

Dist.-Atty. Langdon announced this morning that he will proceed to trial immediately upon one of the extortion charges, although which case will be taken up first he is unwilling to state at this time.

Dinan's Petition Denied.

SAN FRANCISCO, June 26.—Application to have declared insufficient the accusation made by the grand jury against Chief of Police Dinan was denied yesterday by Judge Seawell, and Friday morning at 10 o'clock was the day and hour set by the court for pleading.

STRAUS TO COME WEST.

Secretary to Take Trip for Purpose of Studying Asiatic Immigration Problem.

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON, June 26.—[Exclusive Dispatch.] For the special purpose of familiarizing himself with the problems of Japanese and Chinese immigration, Secretary Straus will leave Washington next Saturday for a two months' trip to the Pacific Coast and Hawaii. He will first go to Montreal, Quebec, thence to Seattle and San Francisco, and finally to Honolulu.

The immigration features of the new treaty with Japan will devolve largely upon Secretary Straus in the negotiations, and he desires to be personally informed of the situation. As Secretary Metcalf will visit his California home in July, the President will be well advised by members of his Cabinet as to the situation on the Pacific Coast.

FLOODS ARE FATAL.

Considerable Loss of Life Results from High Water Thoughout Montana.

[BY THE ASSOCIATED PRESS—P.M.]

BUTTE (Mont.) June 26.—Advices to the Miner from throughout the State tell of considerable loss of life as the result of high water and swollen streams. Continuous rains have raised the streams to the height seldom witnessed at this time of year.

The 7-year-old son of Bert Snyder was drowned while at play along the bank of a stream near Forsythe. At Miles City yesterday a cloudburst drowned an unknown woman and seventy horses. An unknown man is reported drowned near Glasgow.

Word from Great Falls tells of the drowning near Augusta of Mrs. J. C. Furman, her two little sons and Laura Williams, 10 years old in Simms Creek. Only one body, that of Mrs. Furman has been recovered.

PITH OF NEWS FROM THE MIDDLE WEST.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, June 26.—[Exclusive Dispatch.] Chicago for at least a few days is to be treated to real summer weather. It will not be too warm, and it will not be too cold. It will be just right, according to Prof. Cox. It is evident, he declares, that the hot wave has been broken for a time and that fresh winds from the lake will keep Chicago's temperature at a normal point and stop a great deal of the suffering. Maximum today was 72 deg., minimum 59 deg. Middle West temperatures:

WEATHER FORECASTERS SCARCE

A crisis impends in the United States Weather Bureal Service. Fifty men are needed at once. Only one answered the call to duty today at the Federal building to take the examination showing that he was qualified as a weather forecaster. Pointing at this hero as he bent over his examination papers, Forecaster Cox said to the newspaper men who had been summoned to witness the sad state of affairs existing in the high tower: "See, there is the result of a campaign of vilification and abuse. Only one man has the courage to come up and qualify for a $2500 a year job."

BROTHERS FIGHT FOR ESTATE.

[BY DIRECT WIRE TO THE TIMES.]

PILIET (Ill.) June 26.—[Exclusive Dispatch.] With two brothers accusing a third of virtually stealing their aunt's estate, valued at $300,000, the battle for the property of the late Cornelia A. Miller began in the Probate Court here today. Charles Fis, the accused, was the favorite nephew of Mrs. Miller. His brothers charge that he forged the name of their aunt to deeds for property in Illinois and California, signed over to himself securities worth $200,000 and deliberately induced the aged woman, while mentally incapable, to give him power of attorney.

SUICIDES WITH DYNAMITE.

[BY DIRECT WIRE TO THE TIMES.]

MONROE (Mich.) June 26.—[Exclusive Dispatch.] After his wife had refused to live with him on account of his drinking, George Kummer, a quarryman here, walked to the barn at the rear of his wife's house, and blew himself to pieces with a stick of dynamite today. He had carried the dynamite in his hand from the quarry. All that was left of him after the explosion was one leg.

FOLLOWS HUSBAND'S EXAMPLE.

[BY DIRECT WIRE TO THE TIMES.]

FORMOSA (Kan.) June 26.—[Exclusive Dispatch.] Mrs. Peter Johnson today cut the throats of her two children and her own. Her husband, a wealthy stock and grain dealer, killed himself three weeks ago by drinking carbolic acid and the woman has been acting strangely since. The children may recover, but she will die.

WOMAN WORRIES LINEMEN.

[BY DIRECT WIRE TO THE TIMES.]

PEORIA (Ill.) June 26.—[Exclusive Dispatch.] A woman in a posthole today effectually blocked the efforts of a gang of telephone linemen to place a pole in front of her house. Not until the police were notified did the woman budge, and then it was with the assistance of a rope which the buecoats fastened around her waist. The woman was Mrs. David Goldberg of No. 522 South Adams street.

GEN. LOGAN'S BROTHER DIES.

[BY DIRECT WIRE TO THE TIMES.]

MURPHYSBORO (Ill.) June 26.—[Exclusive Dispatch.] Thomas M. Logan, aged 80 years, dropped dead at his home here this evening. He was a brother of Gen. John A. Logan.

Ely Mines Company Is First to Be Absorbed.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, June 26.—[Exclusive Dispatch.] The Consolidated Copper Company has just been formed under Delaware laws with a capital of $50,000,000, divided into 10,000,000 shares of the par value of $5.

The first company to be absorbed will be the Ely Mines Company of Nevada in which the public has but a small interest. The company controls a large territory in the Ely district and has outstanding but 125,000 shares, par $5. This stock will be exchanged for that of the Consolidated Copper Company on the basis of three shares of Consolidated for each share of Ely mines. The other companies will be taken over later on.

The real interests behind this combine were not divulged in the incorporation papers, but it is understood that they include James Phillips, Jr., William B. Thompson, of Hayden, Stone & Co., W. Hinkle Smith of the Nevada Consolidated Company, and the Guggenheims, and that this company will eventually be a holding company to take over the shares of the Nevada Consolidated, Cumberland-Ely, Utah Copper Company, Ely Mines Company and other properties in which those above mentioned are interested.

The four companies have outstanding 1,000,000 shares of stock which are now selling in the market for $45,000,000. Early in last year's boom these same shares had a market value of $50,000,000.

It is figured that these companies will, in 1907 or 1909, have a copper production of 150,000,000 pounds.

WORKMEN FALL FIFTY FEET.

TWO ARE FATALLY AND OTHERS BADLY INJURED.

Scaffold on New Building on Fourth Street, San Francisco, Collapses Without Warning, Throwing Laborers to the Pavement Below—One Dies on Way to Hospital.

[BY THE ASSOCIATED PRESS—A.M.]

SAN FRANCISCO, June 26.—Six men fell over fifty feet this morning from a swinging scaffold on a building in course of erection at No. 49 Fourth street. All were badly injured, and Frank Bennett died on his way to the Receiving Hospital. John Riley is dying. Fractures of all his ribs, fracture of skull and internal injuries.

The other injured are: John Steele, fracture of head, contusions of face, and internal injuries; Bert Odell, fractured wounds of the scalp, injury to the arm; Joseph Buckley, abrasions of the head.

The building, which is owned by Mrs. Mary Bailey of Berkeley, has nearly reached the third story. A framework of steel had been raised around the building, and on this the men, bricklayers and hod-carriers, were working. The direct cause of the accident was the weight of a few extra pounds of brick brought up by one of the victims. A heavy crack in the timbers was the first warning, and then at once the whole structure gave way.

Among the mass of flying lumber the men fell. Five of them struck the ground and lay bleeding there, but one of them plunged into the basement fifteen feet lower.

The rear of the crumbling scaffold fell, but the other workmen in the neighborhood, seeing the danger gone, but quickly returned immediately to the rescue of their companions, who were immediately taken to the hospital.

DIES IN ASYLUM.

CAPT. STARR PASSES AWAY.

[BY THE ASSOCIATED PRESS—P.M.]

ALAMEDA, June 26.—Capt. A. W. Starr, founder of the Starr mills, died today in the Napa asylum, where he was one of the prominent men of the State. During the past excitement he lost much of his property. He had been at the State asylum several years. Death was caused by heart failure.

SLOPE BRIEFS.

Improvement Bonds Carry.

SAN JOSE, June 26.—Bonds for $55,000 to repair the City Hall and $36,000 for fire department repairs and equipment were passed by the voters here today. The issue of $25,000 for Alum Rock Park improvements was also defeated.

Dr. Jacobs's Body Cremated.

SAN FRANCISCO, June 26.—The body of Julius Jacobs, late Subtreasurer of the United States in this city, was held today from the residence of his brother-in-law, M. Adler, on Clay street. There was a large attendance of many prominent business men. The body was cremated at the Cypress Lawn cemetery.

Folk Has Platform.

Tennessee Governor Gives His Ideas as to Declarations Democracy Should Make.

[BY DIRECT WIRE TO THE TIMES.]

MEMPHIS (Tenn.) June 26.—[Exclusive Dispatch.] Gov. Joseph W. Folk, who is here en route from Brownsville, Tex., where he had attended the funeral of his sister, to Oklahoma City, where he speaks before a Chautauqua assemblage tomorrow, said in an interview here today:

"I would like to see the Democratic party of positive, aggressive principles, not merely the part of opposition to things suggested or done by the other class. If I were asked today to frame a platform I should have it read: Free tariff for revenue only, for the benefit of the people against the trusts and not for the trusts, but for the people against the people; for an income tax and an inheritance tax, for the regulation of railroads and other public utilities—that is, government ownership; for home rule, that is, government of the States for self-government in all matters not delegated to the general government."

"The strength of the republic rests in the ideas of government and in the formation of the re-

VADA MINES ORM COMBINE.

idated Copper Com- ny Is Incorporated.

g Trust Organizes Un- r Laws of Delaware.

Mines Company Is First to Be Absorbed.

[BY DIRECT WIRE TO THE TIMES.]
RENO, June 26.—[Exclusive Dispatch.] The Consolidated Copper Company has just been formed under the laws with a capital of $50,000,000, divided into 10,000,000 shares of the par value of $5.

The first company to be absorbed is the Ely Mines Company of Nevada in which the public has but little interest. The company controls large territory in the Ely district and has outsanding but 125,000 shares, par $5. This stock will be exchanged for that of the Consolidated Copper Company on the basis of three shares of Consolidated for each share of Ely Mines. The other companies will be taken over later on.

The interests behind this combination are not divulged in the incorporation papers, but it is understood that Colonels James Phillips, Jr., William Thompson, of Hayden, Stone & Co., Winkle Smith of the New York Consolidated Company, and the Guggenheims, and that this company will ultimately be a holding company to own the shares of the Nevada companies, Cumberland-Ely, Utah Copper Company, Ely Mines Company and other properties in which those gentlemen are interested.

The four companies have outsanding 1,000,000 shares of stock which are now quoted in the market for $43,000,000, and last year's boom these same stocks had a market value of $80,000,000.

It is figured that these companies will earn in 1907 or 1909, have a copper production of 150,000,000 pounds.

ORKMEN FALL FIFTY FEET.

ONE FATALLY AND OTHERS BADLY INJURED.

Building on Fourth Francisco, Collapses Morning, Throwing Laborers to Pavement Below—One Dies on Way to Hospital.

[BY DIRECT WIRE TO THE ASSOCIATED PRESS—A.M.]
SAN FRANCISCO, June 26.—Six men fell over fifty feet this morning from a building on Fourth street, in course of erection at No. 49 Fourth street. Three were badly injured, and Thomas Hyndt died on his way to the Receiving Hospital. John Riley is dying from fractures of all his ribs, fractured skull and internal injuries. The other injured are: John Steele, cut on head, contusions of face, and internal injuries; Bert Odell, cut on wounds of the scalp, injury to back; Joseph Buckley, abrasions of head.

The building, which is owned by Mrs. Mary Hyndt of Berkeley, has nearly reached the third story. A framework of timber had been raised around the building, and on this the men, bricklayers and hod-carriers, were working. It is the cause of the accident was the collapse of a few extra pounds of weight up by one of the victims. The timber in the timbers was the straw that broke and then at once the whole structure gave way.

Hundreds of the mass of flying lumber the danger zone. Five of them struck the ground and lay bleeding there, but the rest jumped into the basement, fifteen feet lower.

Some of the crumbling scaffold and other workmen in the neighborhood escaped the danger zone, but formed immediately to the rescue of companions, who were imbedded and taken to the hospital.

DIES IN ASYLUM.

MRS. STARR PASSES AWAY.

[BY ASSOCIATED PRESS—P.M.]
SAN DIEGO, June 26.—Capt. A. W. Starr, founder of the Starr mills, died today in the Napa asylum. He was one of the prominent men of the State. During the time he lost much of his fortune had been at the State asylum several years. Death was from heart failure.

SLOPE BRIEFS.

Bonds Carry.

SAN DIEGO, June 26.—Bonds for $55,000 for the City Hall and $95,000 for improvement repairs and equipment were passed by the voters here today. The issue of $35,000 for Alum Rock improvements was defeated.

Body Cremated.

SAN FRANCISCO, June 26.—The body of Julius Jacobs, late Subtreasurer of the United States in this city, was cremated today from the residence of his son-in-law, M. Adler, on Clay street. There was a large attendance of many prominent business men. The body was cremated at the Odd Fellows' cemetery.

WAS LOADED WITH DEATH.

Infernal Machine Found in Store Blows Immense Hole When Exploded.

BAKERSFIELD, June 26.—While taking stock in the store of the Bakersfield Hardware Company yesterday, an infernal machine was discovered on one of the shelves. It was a box seven inches long, 2½ inches deep and 3 inches wide. Wires were run to the box from Wall street through the basement. A machine was enclosed in the box packed tightly with gelatine and guncotton.

Tonight Joseph Frye and Earl Hathaway carried the box to the bluffs beyond Kern City and attached a fifty-foot fuse and the explosion that followed was felt throughout Bakersfield and rattled windows.

An immense hole was made in the ground where the infernal machine was ignited. Had the miscreant succeeded in his work, a half block of buildings on Chester avenue, the main street, would have been shattered.

R. J. White and Everett St. Clair of the company, know of no enemies and are at a loss to explain the outrage.

public, that is, an indissoluble union of independent and sovereign States."

The Governor evaded the question of his candidacy for the Democratic Presidential nomination.

JUDGE FAVORS POOLROOMS.

Decision Rendered That Texas Law Does Not Cover Betting Commission Business.

[BY DIRECT WIRE TO THE TIMES.]
DALLAS (Tex.) June 26.—[Exclusive Dispatch.] The poolroom men of Dallas again have their rooms wide open and are doing business on horse racing the same as before the renewal of the war by the city and county authorities. The five men arrested and ordered to jail last Friday and who appealed on habeas corpus writs to District Criminal Judge Nelms, were discharged today. Judge Nelms, in an opinion of three thousand words, declares that the new anti-gambling laws passed at the last session of the State Legislature do not in his judgment, cover poolrooms, and that the poolroom managers are guilty of no law violations in conducting business on the commission plan. It does not look, in view of this decision, that the city and county authorities can proceed further in their efforts to suppress poolrooms.

Among those who received honorary degrees from Williams College at Williamston, Mass., was Henry M. Alden, editor of Harper's Magazine, Doctor of Laws.

FACTS ABOUT FLOUR.

Made White by Leaving Out the Part Which Helps Digest.

Modern methods of milling separate the parts of the wheat berry that contain the diastatic element, and furnish only the white flour made up almost entirely of starch.

One of the principle elements needed to digest this starch has been left out in the process, and therefore the person who eats much white bread is almost sure to have intestinal troubles, for the starch does not digest properly and must, of necessity, decay, and cause all sorts of trouble.

Grape-Nuts food, on the contrary, is made up of the entire wheat and barley, and the processes of digestion as shown in the human body, are followed as exactly as possible, in a mechanical way, by the use of moisture, time and warmth. No chemicals or other ingredients are used, but simple methods scientifically arranged.

In this way the starch of the grain is transformed into grape-sugar, and the Grape-Nuts food, which appears in a granular form, shows on the outside of the little granules, glittering specks of this grape-sugar, which is not put on to the food from the outside, but is the result of the change of the starch into grape-sugar, which works out to the surface, very much as the sap of the hickory or maple tree will frequently show in the shape of white sugar on the sawed-off ends of logs.

A handful of Grape-Nuts held to the light will show the little glittering particles of grape-sugar. It is naturally and scientifically predigested, therefore the food agrees with the weakest stomach. It must not be used in large quantities at one meal, for it is concentrated, and overfeeding of even the choicest food is not advisable.

Being perfectly cooked at the factory, the food can be served instantly with cream or good milk. There is a definite, distinct and undeniable gain in nervous energy and vitality when Grape-Nuts food is used. "There's a Reason."

RAILROAD RECORD.

PASS HOLDERS ARE WORRIED.

Startling Exhibit Is Planned by Missouri Roads.

Free Transportation List to Be Prepared.

Politicians Are Exercised by New Move.

[BY DIRECT WIRE TO THE TIMES.]

ST. LOUIS (Mo.) June 26.—[Exclusive Dispatch.] One of the startling exhibits in the 2-cent railroad-fare litigation will be complete records by every Missouri railroad of all persons, including State and city politicians, who have received free transportation.

Railroad officials assert that they are morally bound to distribute many free tickets, and that these cut down passenger revenues. With the regular rate reduced from 3 to 2 cents a mile, the legal representatives will argue that the railroads are doubly handicapped in their efforts to make a profit on their investments.

Several political leaders, apprised of the railroads' intention to make public their names in connection with the "free-pass exhibit," have been urging their railroad associates not to embarrass them. It developed from a legislative investigation several years ago that during one political campaign transportation valued at $500,000 was given away in Missouri.

In a seven days' trial of the 2-cent rate law, which went into effect June 19, Missouri roads have shown no decrease of business. An official of the Wabash Railroad Company said today that the first three days' sales at Union station indicated a heavy increase over the volume of business handled during the corresponding period a year ago.

FRAUD IS CHARGED.

Suit Is Brought to Compel Union Pacific to Restore Large Amount of Coal Lands.

[BY DIRECT WIRE TO THE TIMES.]

CHEYENNE (Wyo.) June 26.—[Exclusive Dispatch.] If the allegation in a bill of equity already filed can be proved, President Roosevelt will be vindicated in the stand he has taken on the public coal land question, the Harriman system will stand convicted of fraudulently obtaining possession of about $2,000,000 worth of government coal lands, and the fear of the law will be instilled into the hearts of corporation land grabbers whom Secretary Garfield referred to at the recent public lands convention here.

The bill alleges that the Union Pacific Railroad Company and the Union Pacific Coal Company fraudulently acquired, in Southwestern Wyoming, 5000 acres of coal land, valued at $2,000,000. It prays that the patents granted on this land be vacated and an accounting be made to the government of all coal taken therefrom. It further asks an injunction restraining the Union Pacific from taking or mining coal from that property during the progress of the suit.

Dyer O. Clark, a brother of Senator Clark, is at the head of the Union Pacific Coal Company. Clark's agents are charged with inducing hundreds of hobos to swear to filings and then relinquish them to the company at $5 to $10 for each quarter section.

HARRIMAN MAKES LOAN.

Million Dollars Put Up to Prevent Chicago and Alton from Passing Dividend.

[BY THE ASSOCIATED PRESS—A.M.]

CHICAGO, June 26.—A dispatch to the Tribune from Washington says:

Edward H. Harriman has adopted a new attitude toward the Chicago & Alton Railroad, different from the predatory policy which members of the Interstate Commerce Commission alleged he observed toward that property.

Authoritative information has reached here that in order to prevent the passing of a dividend recently on Chicago & Alton, Harriman made a loan of $1,000,000 to that line, to be used for improvements. It has been the history of the road under the dual arrangement between Harriman and the Rock Island system that in the years it was controlled by the latter it made money, while this was not the case in alternate years.

At the last meeting of the parties to the agreement in New York it was announced by representatives of the Rock Island that the surplus aggregated $1,400,000, but as the road needed improvements it would waive the dividend and use the money for additional equipment, repairs, etc. Harriman instantly objected, insisting that the dividend should be issued. To practical financiers who listened to him it was evident it was against the interests of the president of the Union Pacific to permit the passing of the dividend because of the criticism that would follow.

However, the representatives of the Rock Island were in control and Harriman, after thinking a few moments, proposed to make a personal loan of $1,000,000 at 5 per cent, to be paid in 1915 if the board would declare dividends. The proposition was accepted. The board insisted that the proposal should be made in writing, and the railroad magnate was compelled to send for the general counsel of his road who drew up the necessary papers.

RAILROADS IN DOUBT.

Question of Free Transportation of Ministers Is Made Subject of Inquiry.

[BY THE ASSOCIATED PRESS—A.M.]

CHICAGO, June 26.—Railroads in the West are in a quandary as to whom they may issue free transportation without coming in contact with some State or national law. Under existing laws passed by the several States regulating free transportation, a minister may travel in one State free and in another must pay full fare, whereas under the United States statutes he may travel through both States on a pass.

After considering the proposition from all standpoints, the executives of the western railroads have called on the legal departments for copies of all State laws and the interstate law, and they will promulgate instructions based on the best in all the laws governing free transportation.

The executives of the western railroads decided yesterday to comply with all the State laws providing for the 2-cent per mile passenger rate, and the passenger men were instructed to put the rates into effect as soon as the laws become effective.

In the matter of interstate rates, the passenger departments have been instructed to put through rates into effect as soon after July 1 as possible, basing the rates on the laws in the various Western States.

INTERRUPTED MARRIAGE.

During Ceremony Groom Receives Message That His House Is Burning Up.

During the progress of the marriage of Carl Arnold and Miss Edith Long, at the home of Emil Baumann, No. 1915 San Pablo street, last night, a telephone message was received telling Arnold that an overheated gas burner had set fire to his home. It is believed that Arnold left the gas heater burning in his bathroom at No. 2920 East Main street. After the ceremony Mr. and Mrs. Arnold and the guests visited the ruins of the young couple's intended home. Most of the household goods were saved. It is estimated that the entire loss was about $2500, which is covered by insurance.

MONO ROAD PLANNED.

Necessary Capital Obtained to Build Line Between Newark and Jersey City.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, June 26.—[Exclusive Dispatch.] Formal announcement was made today of a proposal to build a four-track elevated Mono railroad between Newark and Jersey City. The necessary capital has been obtained to finance the undertaking, which, it is predicted by Rapid Transit Commissioner John H. Starin, will prove the forerunner of radical changes in railroading.

It is the announced purpose to make the mono railroad an ideal interurban system, as well as the cheapest for the public and the speediest.

The system is that invented by Howard H. Tunis, a civil engineer of Baltimore. The car is forty-seven feet long and six feet wide and pointed at both ends to diminish wind resistance. It is mounted on two trucks of two tandem wheels each, which are flanged on each side. The single-rail car is held securely in an upright position by what is called the equilibrium device at the top.

Supported above the car by iron vents on each side of the track are two small "L" shaped rails about thirty inches apart. On these rails run ball-bearing guide wheels attached to the ends of X-shaped tridents which surmount a strong ladder-like trolley pole arrangement at each end of the car. The ball-bearing guide wheels also conduct the electric power from the two L-shaped rails to the motor. This device, in addition to insuring absolutely correct equilibrium, does away, it is claimed, with the present insufficient trolley pole and the deadly third rail. The cost of constructing a four-track system will be about $75,000 per mile, and a speed of 100 miles an hour or even greater is promised.

TERMINAL IS CHOSEN.

Santa Fe Officials Select Site for Depot Mile from Center of Searchlight.

[BY THE ASSOCIATED PRESS—P.M.]

SEARCHLIGHT (Nev.) June 26.—Advices from General Manager Wells has settled the question of the location of the Santa Fé depot. It will be on the Boulder claim, which is part of the terminal townsite.

This means that the merchants of Searchlight must haul freight a mile to town and a row has been raised in consequence, which may mean the attempt to get the Salt Lake Railroad to enter Oldtown. While the Santa Fé officials claim the site is a most practicable one, many allege that F. J. Abbott, owner of the terminal townsite, is back of the scheme and it is considered a great victory for the promoter.

Material is now en route for a big concrete depot, and large warehouses to be built immediately. It has been announced that as soon as the depot site was settled great building operations would start. A two-story hotel and other buildings are to be erected immediately. Accumulated ore from the mines will have use of immense bins for storage until shipped. General Manager Wells gave out the statement that the Santa Fé would be extended to Nob Hill, sixteen miles north, as soon as the ore tonnage increased sufficiently to warrant construction.

FIRE IN WHOLESALE DISTRICT.

Early Morning Blaze on North Los Angeles Street Damages Stocks of Two Companies.

Fire was discovered at 1 o'clock this morning in the building occupied by the Earl Cowan Company (formerly the Gillman Company), wholesale dealers in teas, coffees and spices, No. 151 North Los Angeles street. The fire started between the ceiling and the roof of the two-story brick building and soon burst through the rear, for a time endangering the large stores of the L. M. Davenport Company, Nos. 147-49, and the Harper-Reynolds Company, Nos. 153-55.

A portion of the second floor of the building is occupied by Baum's cigar factory. The damage to the building is not serious, but the water may have seriously damaged some of the stock of the two concerns. The owners were unable to estimate the loss this morning, saying it would take a daylight survey of the place for them to determine to what extent their stocks had been damaged.

DEATH OF PIONEER.

William M. Buffum of This City Passes to the Great Beyond, Hastened by Great Grief.

William M. Buffum died at his home, No. 144 West Twelfth street, yesterday, of diabetes, at the age of 75 years.

The deceased came to this city first in 1850 and became a leading merchant. After some years he went to Prescott, Ariz., and combined merchandise with mining, but twenty years ago he returned to this city and has lived here ever since, being connected with the Clark and Sherman interests.

About a year ago his only son, Asa M. Buffum, was accidentally shot while out hunting, and from that time the health of the father has gradually failed. His death yesterday leaves his widow alone in the world, but she has many warm friends.

Mr. Buffum was a native of Salem, Mass., a man of great liberality and warm friendship, and a prominent Mason. The remains are at the funeral parlors of Bresee Bros., but arrangements for burial have not yet been made.

SITUATION IS MENACING.

Nicaragua Is Massing Troops at Point Cosequiné.

Zelaya's Forces Also Appear on Honduran Coast.

American Ministers Report to Washington.

[BY THE ASSOCIATED PRESS—P.M.]

WASHINGTON, June 26.—State Department cablegrams indicate a continuance of threatening conditions in Central America. American Minister Merry reports from San Salvador that the Nicaraguan government is massing troops at Point Cosequine. This place is upon the Northern Pacific border of Nicaragua on the Gulf of Fonseca and directly opposite the Salvadorean coast, which appears to be the storm center at this moment.

American Minister Lee reports from Guatamala City, that Nicaragua forces have appeared upon the northern coast of Honduras. The forts on this coast were recently occupied by the Nicaraguans as an incident to the establishment of the provincial government, but it was understood that President Zelaya had ordered the withdrawal of all the Nicaraguan troops from Honduras.

Minister Merry also reported on the case of the American citizens, George and Edward Moissant who have been imprisoned at Salvador upon charges of complicity in the last attempt at revolution. The Minister states that the property of the Americans appears to be in danger by the action of the Salvadorean troops. He has mailed a detailed report of the case to the State Department, which is expected to reach Washington in a day or so. Meanwhile, the State Department, has, through the Navy Department, cabled instructions to the commander of the gunboat Yorktown at La Union, Salvador to make independent investigation.

TABASCO MAN IS IN TROUBLE.

CHARGED WITH SWEARING TO FALSE STATEMENT.

Lieutenant of Rough Riders and Recently Appointed Civil Service Commissioner Is Said by Rival Concern to Have Made Trade-mark Claim That He Cannot Prove.

[BY DIRECT WIRE TO THE TIMES.]

NEW IBERIA (La.) June 26.—[Exclusive Dispatch.] John A. McIlhenny, lieutenant of the Rough Riders and recently appointed United States civil service commissioner by President Roosevelt, is accused of making a false statement in an affidavit to secure a trade-mark for the word "tabasco," which sauce has been manufactured by his family on Avery's Island since 1868, as was revealed by the filing of a suit today by a rival concern for $30,000 damages.

The concern is the New Iberia Extract of Tabasco Pepper Company, which has a plant here, and it alleges that the McIlhennys had their agents send circular letters all over this country and Canada, threatening to prosecute any one selling any tabasco sauce not manufactured and sold by the McIlhenny concern, despite the fact that the patent on tabasco sauce had expired twenty years ago; that a suit had been filed against a Galveston concern for using the word tabasco, and that the court decided that the McIlhennys did not have the exclusive right to it; that in making affidavit for the registration of the trade-mark "tabasco" in February, 1905, John A. McIlhenny said that the word had been, to the best of his knowledge and belief, exclusively used by his concern since 1868.

OIL CASE IS PUSHED.

United States District Judge Landis Refuses to Grant Standard Company New Trial.

[BY THE ASSOCIATED PRESS—A.M.]

CHICAGO, June 26.—Judge Landis, in the United States District Court, today refused a new trial to the Standard Oil Company, recently convicted of making shipments at illegal rates between Whiting, Ind., and East St. Louis.

After the denial of the motion asking a new trial, Attorney John S. Miller for the oil company entered a motion in arrest of judgment. This was promptly overruled. Mr. Miller then asked the court to select a particular count in the indictment on which to base the final judgment of the court. This also was denied by Judge Landis.

The court then announced that he was desirous of obtaining information regarding the financial resources of the Standard Oil Company, and he ordered J. H. Howard, former auditor of the Chicago & Alton Railroad, to take the stand.

The attorneys for the oil company objected, but the court insisted. Judge Landis, however, was unable to obtain from Mr. Howard much information regarding the finances of the oil company. After briefly examining two clerks of the Chicago & Eastern Illinois Railroad concerning oil tariffs of the Alton road, the court ordered subpoenas issued, returnable July 6, for the president and secretary of the Standard Oil Company of Indiana, officers of the Union Tank Line, and officers and directors of the companies holding the stock of these two concerns.

N.E.A. RATES FIXED.

CHICAGO, June 26.—[Exclusive Dispatch.] All obstacles have been overcome in connection with reduced rates for the National Educational Association's convention to be held in Los Angeles beginning July 8. The official declaration of the Interstate Commerce Commission that the conditions and arrangements of the Transcontinental Passenger Association are now satisfactory has cleared away the last objection to the rates, and they will be in effect in all sections of the country.

Some of the associations have not taken official action to ratify the rates, but lines which are members of these associations have announced their intention of taking individual action, and this practically amounts to the same thing, as it gives the teachers the benefit of the reduced rates.

Tickets are now on sale at the reduced rate, which is $62.50 for the round trip from Chicago. The sale of tickets at this rate will continue until July 5, which will give the teachers ample time to reach Los Angeles after the closing of the schools here. The final return limit is September 15.

PANIC IN THUGDOM.

(Continued from First Page.)

before the grand jury, on the afternoon of March 27?"

This was vigorously objected to by the prosecution, spoken for by both Cobb and Heney, Judge Lawlor instructed Foreman Oliver to answer.

"I cannot remember. I have not the slightest recollection," he said. Finally, he declared that there was nothing before the grand jury at that time.

"Is it possible," demanded Delmas, "that you administered to Mr. Sanderson the oath to tell the truth, the whole truth, and nothing but the truth, concerning the matters now pending before this body when there were no matters pending?"

"I simply administered the oath which the law prescribes shall be administered to all witnesses before the grand jury," replied Oliver. "The District Attorney had informed us that Supervisor Sanderson had come in from the country and was waiting to testify; and we had him come in."

Delmas wanted to know if Oliver could recall any one thing that Sanderson said in his testimony. Over the objection of the State he answered: "Only one thing can I recall, and that I am not at liberty to repeat to you. But it did not concern Mr. Glass. I can't remember anything else that Sanderson said because—well, because he came into the grand jury room that day and just babbled and babbled."

"What do you mean by 'babbled?' Do you mean that his words were unintelligible?" Delmas asked.

"No, I just mean he babbled. I understood what he said at that time, but I can't recall any of it now. He talked up and down, and up and down, and you couldn't stop him. Some questions were put to him by Mr. Heney and several members of the jury."

"What were those questions?"

"I don't remember."

"Do you mean that they babbled, too?" Delmas asked, a shade of sarcasm in his voice.

"No," said the foreman, controlling an evident inclination to answer sharply, "they have always spoken intelligently to me. But I do not remember what questions they asked that day."

This is a beautiful line of pique, duck, chip, Milan and leghorn hats; trimmed especially for this sale in our own work room. All new, fresh merchandise; dainty models trimmed with flowers, ribbons, wings, chiffon and other seasonable material. Styles that you want for mid-summer wear. Regular values up to $6.50. All at one Clean Sweep price today at $2.98.

$1.50 White Parasols 89c

Today we put out 50 more of our white parasols with either lace or embroidery insertions or embroidered edge at 89c. They are extra values at $1.50, but for a big Clean Sweep price we say 89c.

ANY TELL OF LONG DEBAUCH.

Witnesses Say Judge Loving Was a Drunkard.

Spree Lasted for Years, Testifies Sheriff.

Attempt to Show Slayer of Estes Unbalanced.

BY THE ASSOCIATED PRESS—A. M.]

LYNCHBURG (Va.) June 26.—At the opening of court today in the trial of Judge Loving for the killing of Col. Estes, the defendant looked well. Seated with him were his counsel, his brother, W. G. and Henry Swanson, brothers of Gov. Swanson, who sit upon the prosecution's side. Mrs. Swanson is a sister of Estes and her husband is taking an active part in defending the members of the family of the dead man.

The Board of Amherst county, which known Judge Loving for years, testified as to the defendant being an excessive drinker and that he appeared at times from delirium tremens. The witness stated that the habits of Judge Loving had commenced his disposition and that he started drinking he was kind and agreeable, though in later years had become unreasonable and irritable.

The Board stated that he knew Judge Loving was continuously for four years while in Amherst county.

Harrison of Amherst, formerly a deputy, testified along the same lines as the Board as to the excessive drinking and the change it had brought about in Loving. The witness described Loving worshiped his daughter Elizabeth.

Charles L. Emmens, a brain specialist of Washington, testified. He answered hypothetical questions as to Judge Loving, his dispositions, various troubles, etc. Commenting on the information given him by his son-in-law, Harry Sneed, and his daughter's story, his opinion was asked as to the status of a man who had undergone these experiences. The reply was that he was "demented."

Dr. Emmens said that he made an examination of Judge Loving which in part corroborated his opinion.

TO SHIELD HAYWOOD.

(Continued from First Page.)

like that. I think he said 'that devil of a Steunenberg.'"

Mrs. Day said that one day when Orchard was telling her about his gambling exploits, he said he always kept a little money put away; that when he made a raise he put some money away with Pettibone and drew out as he needed it.

On cross-examination Mrs. Day said she now conducts a rooming house in Cripple Creek, but lives most of the time in Denver. She was introduced to Orchard by Pettibone, whom she had known for two years prior to 1904. She knew him quite well and he often visited her. Mrs. Day said she did not know Orchard under any other name than Dempsey. She did not see Orchard on the witness stand and recognized him as Dempsey by a photograph. When Haywood came to the Belmont the day she was talking with Orchard, Mrs. Day declared Haywood said he wished to see Orchard. The two men went into Dempsey's room. The witness said she often had seen Dempsey and Pettibone together, but Pettibone never came to Dempsey's room, so far as she knew.

Mrs. Day said Orchard declared he would have been a millionaire if it had not been for the "decision of Gov. Steunenberg." The witness said that when she was summoned by the State and made a written statement she did not relate the conversation with Orchard in regard to Steunenberg.

"Why did not you?" asked Mr. Hawley.

"Because I wasn't asked about it."

STIRS UP ROW.

The prosecution announced that it might desire to further cross-examine the witness later and thereby precipitated a lively fight, during which Attorney Richardson declared that notwithstanding any order of the court on the subject the defense proposed to pay off its witnesses and send them home as fast as they left the stand. If the prosecution desired their presence further, he declared, the State could issue subpoenas and keep the witnesses at the expense of the people.

"If counsel send these witnesses home they will be doing what they have no right to do," Hawley declared for the State.

Judge Wood announced that once a witness was sworn he or she would be held subject to the orders of the court.

"I should like to attack the court's view of the law," said Attorney Richardson.

"This matter can be satisfactorily arranged," said Judge Wood, "and I will consult with counsel on the subject at noon." He then ended the discussion by directing Mrs. Day to remain in Boise until released by the court.

Mrs. Day said that while she was in Boise under subpoena of the State, she was visited by Mr. Darrow in regard to the case.

"And the next day Mr. Stone, one of the lawyers for the State took you to Nampa and sent you home, didn't he?" asked Mr. Darrow.

"No, sir, I took myself to Nampa," declared the witness. She said Mr. Stone went along on the same train.

RELATES TALK WITH ORCHARD.

The next witness was John D. Elliott, an inmate of the Soldiers' Home, Boise. Elliott is 61 years of age. He detailed a long conversation he said he had with Orchard on a train in November, 1905, when Orchard told him he was in the employ of the mine owners; that the Western Federation of Miners was going to be crushed and that within thirty days something would happen that would startle the world. This was about five weeks before the assassination of Gov. Steunenberg.

Orchard, when confronted by Elliott, declared he had never seen the man before.

Elliott was put through a searching cross-examination by Mr. Hawley. He said he had never related to his kinspeople, with whom he sometimes stopped, the details of his conversation with Orchard.

"You are a Socialist, aren't you?" asked the attorney.

"I can't say that I am."

"Can you say that you are not?"

"No, sir; but I don't belong to any Socialist organization."

Elliott denied that he had ever been employed by the defense or that he had received any pay.

He admitted that he had been an inmate of the State insane asylum for six or seven months in 1905. One of his sons filed the application for his committment. Elliott denied that he had been in a strait-jacket. When he was released, Elliott declared he had a certificate of recovery.

In May, 1904, Elliott said he went to the asylum again. The Probate Judge told him he was not insane, but he seemed to be in a bad shape physically, and he thought a stay at the asylum would benefit him. Another of his sons signed the complaint on this second occasion. Elliott was released later on the promise of his brother and sister-in-law to take care of him. He was then placed in the Soldiers' Home.

On redirect examination Elliott said he had not been assisted in any way in stating his testimony, and had received but $2 witness fee and 75 cents in mileage.

Judge Wood here entered an order that all witnesses for the defense would be excused as soon as they testified, with the exception of those whom the State desired to remain in Boise. As to these, he said the State would pay their expenses.

MINERS' EDITOR TESTIFIES.

The defense here called to the stand John M. O'Neill, editor of the Miners' Magazine. O'Neill said he had been a miner for twenty-eight years.

"You were once a member of the Legislature?" asked Mr. Darrow.

"I regret to say so, yes, sir, in 1897," replied O'Neill.

The witness declared Moyer and Haywood had nothing to do with the magazine, although they occasionally wrote signed articles. The magazine is the official organ of the Western Federation of Miners.

"What is the purpose of the magazine?"

"To educate the members and unite them politically."

O'Neill said he sometimes consulted Moyer and Haywood or some member of the executive board as to what he would say in the magazine. Usually he consulted no one, but published the editorials as he wrote them.

The witness said he had known Orchard in Denver. In his office one day Orchard asked him where Peabody and Gen. Sherman Bell lived, and said they ought to be "bumped off."

Just at this time the witness's wife and daughter came in. Orchard made no further reference to the matter.

Mr. O'Neill was cross-examined by Senator Borah. He said the magazine was supposed to reflect the official views of the Western Federation of Miners, which in convention adopted the views of the Socialists. The magazine is paid for by the Western Federation of Miners and al money has to be paid out on the order of Haywood as secretary-treasurer.

"The magazine could not run twenty-four hours without the approval of Haywood, could it?" asked Senator Borah.

"The magazine has been adopted by the organization and the organization is more powerful than any one officer. If Mr. Haywood should decline to pay out the necessary money, the executive board would probably tell him what his duties were."

"And in the executive board," commented the interrogator, "we get back to Moyer, Haywood, Jack Simpkins and Marion Moore and the others?"

"Yes, sir."

O'Neill said he did not know of any conflict of opinion in the executive board as to the magazine and had never been told the magazine was unsatisfactory.

At this point Senator Borah began to quote from several issues of the magazine early in 1906, following the death of Gov. Steunenberg. One of these contained the expression: "The press dispatches report the dissolution of Steunenberg via the bomb route." O'Neill said he wrote the sentence.

"Wasn't it a fact?" queried the witness of the lawyer.

"Yes, I suppose it is," said Senator Borah.

MAKES LIGHT OF MURDER.

The lawyer next read an extract from another paper which was reprinted in the Miners' Magazine. It read;

"A chap by the name of Steunenberg was blown up the other day at Caldwell. He came into fame as the inventor of that revered institution known as the bull pen. It seems a bomb was carelessly left at his gate, presumably by some Russian revolutionist. Such carelessness should be frowned down. The gate was completely wrecked."

O'Neill said he selected the clipping and had it published.

"Did you write this editorial?"

Senator Borah here read an editorial appearing in the Miners' Magazine of January, 1906, beginning with the statement that Steunenberg had been "ushered into eternity, and thus closed the career of a man who showed no mercy." Continuing, the editorial in most inflammatory terms detailed outrages in the bull pen in 1899, attributed to Steunenberg the responsibility for the calling in of "black brutes of soldiers who outraged the wives and sisters of miners, and refused the request of a miner who, with the dew of death on his brow, asked for a minister, and was told that he could make his confession in hell." The editorial went on to say that the death of Steunenberg was a step forward, but that the murder of one man did not destroy the system adopted by the capitalistic class. In conclusion the editorial said that the sudden extermination of Steunenberg was not of great moment, "because Steunenbergs would continue to rise."

"Did you write that editorial?" repeated Senator Borah.

"Yes, sir."

"And you expressed the views of the organization?"

"I think I did."

"You are sure of it, aren't you?"

"Yes, sir, I am."

O'Neill declared that Orchard had never come to headquarters in Denver to see him and ask for money.

DENIES KNOWING ORCHARD.

W. F. Davis, a leading member of the Western Federation of Miners, was called to the stand as the luncheon adjournment was taken. His examination commenced with the opening of court after the noon recess.

Davis said he is now a resident of Goldfield, Nev., mining and prospecting. He began mining seventeen years ago in the Coeur d'Alene district of Idaho. He joined the Miners' Union in 1899. He went to work at the Bunker Hill and Sullivan mine in 1891. In 1898 Davis said he went to Alaska to prospect some claims. He came back to Idaho thirteen months later. The Bunker Hill mill explosion occurred April 29, 1899.

Davis said he joined the Western Federation of Miners in September, 1899. Before this he belonged to the Western Labor Union. Davis said he knew Fred Bradley of the Bunker Hill and Sullivan mine, but never had any trouble with them.

"Did you have anything to do with the blowing up of the Bunker Hill and Sullivan mill?" asked Darrow.

"No, sir."

"Did you lead a body of 1000 men down to blow it up?"

"No, sir."

"Did you know Harry Orchard?"

"No, sir."

"...ere you a member of the union at that time?"

"No, sir."

Orchard declared on the stand that Davis was one of the leaders of the party which went to blow up the mill.

Davis worked for a while on the Hercules property with Edward Boyce and August Paulson. When he left the Coeur a'Alenes during the bull pen days he went to California, changing his name to W. F. Jones in order to get work. Later he went to Bisbee, Ariz., where he secured work for a while, but was discharged when the mine owners discovered his name was Davis, and that he was a member of the Western Federation of Miners.

From Arizona Davis went to Cripple Creek. He took out a card in Altman Union No. 19 and became president of the local in March, 1902. There were about 500 members. Davis was president a little more than two years. Sherman Parker, now dead, was at one time financial secretary. Bill Easterly and Steve Adams were also members.

Davis said he knew absolutely nothing about the attempt to wreck a train on the Florence and Cripple Creek Railroad. He denied positively that he ever offered Orchard $200 or any other sum to set off a carload of powder in the Vindicator mine. Orchard had testified that Davis made such a proposition.

Davis said he was arrested for alleged complicity in the railroad wreck and the Vindicator mine explosion, but was discharged by the judge after the evidence was all in. The witness flatly denied that he ever offered Orchard money to wreck a train or to place a bomb in the Vindicator mine. As president of the Altman union, Davis declared he publicly and privately advocated peace and never at any time counseled any sort of violence.

NEWS TO HIM, HE SAYS.

The witness said Orchard was not a close acquaintance and was not a man of any importance in the union. Davis was in Denver at the time of the Independence depot explosion. He first read of it in the newspapers and knew of no plan to wreck the place.

Davis attended the miners' convention in Denver in 1904. He had known Haywood and Pettibone for about a year before this. At the time of the deportation of the union miners from Cripple Creek, Davis started out to seek work elsewhere. He went first to Cheyenne, where he stopped three days. He met Orchard in Pat Moran's saloon with Johnny Neville and the latter's boy. Leaving Cripple Creek Davis again took up the name of Jones. He eventually landed in Goldfield in January, 1905, and has resided there ever since.

While at Altman, Davis said he had a conversation with Orchard as to the reason for his leaving the Coeur d'Alenes. Sherman Parker and Bill Easterly were also present. Orchard said if he had not been driven out of the Coeur d'Alenes he would have been a rich man. He intended to get even with Steunenberg.

Senator Borah then began to cross-examine the witness.

Davis said he was working at the Gem mine at Gem, Idaho, the day the Bunker Hill and Sullivan mine at Wardner was blown up. Few men worked at the mines that day. Davis saw the train of miners pass through Gem en route to Wardner. He saw no one he knew on board, as most of the men were masked. After the train pulled out Davis said he saw the postmaster at Gem and discussed the matter with him. He saw the postmaster several times during the day.

Davis said he did not know that there was any excitement in Gem as the men came through. He did not know that the men were armed, he could not say whether he did or did not see any rifles. Davis said he made no inquiries as to what the men intended to do.

"You knew precisely what they were going to do, did you not?" demanded Senator Borah.

"No, sir, I did not. I didn't think it was any of my business."

"Three hundred masked men passing through on a train which afterward backed up to a powder magazine and took on supplies created no excitement in Gem and aroused no suspicion or curiosity in your mind?"

"No, sir."

Senator Borah next took the witness to Cripple Creek. Davis said he and Orchard talked some about Gov. Steunenberg but Orchard did not say at first anything about his expenses in the Coeur d'Alenes. He spoke of Gov. Peabody as a man who promised to be a second Steunenberg. Orchard seemed very resentful toward Steunenberg. When Orchard finally said he was going to get Steunenberg, neither the witness nor Parker nor Easterly made any particular comment upon the matter. Davis said the Cripple Creek strike grew out of a strike of smelter men in Colorado City. There was no trouble between the mine workers and mine owners at Cripple Creek as to money or hours.

At this point in the case an adjournment was taken until tomorrow morning.

THEATERS MAKE MONEY.

Rumored Failure of Belasco & Meyer Is Promptly Denied by Member of Firm.

[BY DIRECT WIRE TO THE TIMES.]

SAN FRANCISCO, June 26.—[Exclusive Dispatch.] A rumor came from Los Angeles by wire tonight indicating that the theatrical firm of Belasco & Meyer, which owns the Alcazar in this city and the Belasco in Los Angeles, had failed. The telegram intimated that the firm had made a private assignment to Phil Wilson, who built the Los Angeles house, and later the Portland Theater, which was in the firm's circuit.

Fred Belasco said tonight that the rumor was an absurdity, and that he could not account for its origin. He declared that the Los Angeles house was making good and playing to big business.

The business at the Alcazar here, he said, was to be construed as "Class A." "We have not had a losing week since we opened the house," he said tonight, "and in the three weeks' run of the 'Undertow' our profits were $12,500."

Regarding the Portland enterprise, Belasco said that Meyer, Wilson and himself bought the house more than two years ago, and seven months ago they sold out to Morton, Cohen & Co. and cleaned up $15,000 on the deal.

As to the firm failing or being in financial difficulty, Belasco declares that the story is without the slightest basis for foundation.

SPORTING PAGE.

IN READINESS FOR BIG RUN.

Sixty-five Autos Start Today for Lakeside.

Machines to Leave at One Minute Intervals.

Two Days' Run Followed by Fast Track Racing.

Sixty-five automobiles have been entered in the two-day endurance run from Los Angeles to Lakeside, and this morning at 7 o'clock the first of the machines will be sent away from the starting place, the corner of Main and Eighteenth streets. As outlined in the entry lists, there were six classes, but no entries were received in the high-powered runabout division, and consequently there will be five divisions.

Cars will line up for the start in single file in the order of their numbers, in the following places: Touring cars costing $3001 and over, on the east side of Main street running south from Eighteenth street; touring cars in the moderate-priced division, on the west side of Main street, opposite the first division; low-priced touring cars, on the north side of Eighteenth street running west from Main; the runabouts costing from $1500 to $3000, immediately behind the touring cars costing $3001 or over; and the low-priced runabouts, on the south side of Eighteenth street opposite the low-priced touring cars.

All contestants must appear on the scene of action with their gasoline and oil tanks full, or bear the penalty. It will be assumed that they were full at the start, and the quantity used in the run will be ascertained by measuring the amount necessary to fill them in the control.

Observers must report to the judges' stand at Ralph Hamlin's garage on Main street near Eighteenth at 6:45 o'clock this morning, where they will be assigned and given their cards.

The cars will start in the order of the numbers they carry, and leave at one minute intervals.

The machines that have been entered, their owners and drivers are as follows:

The entries for the two days' racing at the Lakeside track will not close until Saturday noon, but it is expected that a large number of those who have entered for the run will take part in the races also.

ELKS' BASEBALL TEAM.

Tournament at Santa Barbara to Include Series of Games With Southern Nines.

[SPECIAL CORRESPONDENCE OF THE TIMES.]

SANTA BARBARA, June 26.—Probably the greatest feature of the Independence Day celebration by the members of the Santa Barbara Lodge, No. 613, of the Order of Elks, assisted by brethren from Los Angeles, Riverside, Pomona, San Diego and many other points in the Southland, will be the baseball tournament, which will be held July 2, 3 and 4. Four teams are entered, and the games will be for championship blood. The entries are all Elks, representing the lodges in Los Angeles, Riverside, Pomona and San Diego.

The series will open with a game between the Angel City team and the San Diego bunch, July 2. The following day Santa Barbara will try to defeat Los Angeles. The winners of the preliminaries will grapple in the final contest on the Fourth, in the presence of a big assemblage of visiting brethren and others from many parts of the State.

The Santa Barbara team was organized about five years ago. Since then it has played thirteen games, of which it won nine and lost the others. San Diego has furnished two of the drubbings to the home team, while Riverside provided the other pair. But Los Angeles owes Santa Barbara a five-fold grudge, for in as many games the Angel City players were worsted. They are now confident of getting square on the diamond.

The Fiesta also will include other games, and a series of aquatic events, including a yacht regatta, punt races and other water features. There also will be a parade and a grand display of fireworks on the night of the Fourth.

LOS ANGELES IS SOLD.

Famous Racing Mare Formerly Owned by Lucky Baldwin to Be Bred to Plaudit.

[BY DIRECT WIRE TO THE TIMES.]

LEXINGTON (Ky.) June 26.—[Exclusive Dispatch.] J. V. Chanley of Newark, N. J., has sold to J. E. Madden of this city the famous race mare Los Angeles, by Imp Gienieg, dam Lapolka, by Lexington. Included in the deal is a suckling filly by The Bard, a yearling colt and a two-year-old filly, all out of Los Angeles. The price paid was $10,000.

Chanley bought the mare from E. J. Baldwin several years ago for $12,000. She was the most famous racer ever owned by Baldwin and won $57,000 when stakes were small. Except August Belmont's Beldame, she won more money than any American thoroughbred race mare.

Madden will breed her to Plaudit, sire to his great race colt King James, which he will start in the English Derby next year.

Results at Latonia.

CINCINNATI, June 26.—Latonia results:

Six furlongs: Berryman won, Mary Buchanan second, Calithea third; time 1:14 3-5.

One mile: Blaze o'Light won, Carleless second, Pixley third; time 1:42. Helen Virginia finished third, but was disqualified for fouling.

Six furlongs: Orlandwick won, Hazel Patch second, Noel third; time 1:15 1-5.

Five furlongs: Dora Neff won, Hans second, Geneva S. third; time 1:01 3-5.

Mile and a furlong: Louise McFarland won, Gamester second, Scalplock third; time 1:55.

Cordell Beats Price.

SAN LUIS OBISPO, June 26.—[Exclusive Dispatch.] Jack Cordell knocked out Ben Price in the fifth round, last night. The bout was for twenty rounds. A four-round preliminary between Kid Ross and "Iron Man" Dunn of 'Frisco resulted in a knock-out for Ross in the third round. Both exhibitions were exceptionally good, and were appreciated by the largest audience ever attracted by a pugilistic exhibition in this city.

BOSTON AFTER COAST LEAGUE BALL PLAYERS.

DISPATCHES say that Business Manager McBreen of the Boston American baseball team is bound westward to rustle talent from the Pacific Coast League. If he is on such a mission, his objective point will be Los Angeles, for the best players of the league are in this city at the present time.

Los Angeles has a number of good men who might fit in nicely with Manager McGuire's bunch. Carlisle's home-run hitting, speedy base running, scientific bunts and fast fielding make him a desirable man. Pitcher Carnes is putting up a good article of ball, as is Nagle, and Brashear and Delmas are doing great work.

In the San Francisco bunch there are Catcher Street, Shortstop Moriarity and Outfielder Hildebrand, who are seasoned men, with a thorough knowledge of the game. It looks like Street, Moriarity and Carlisle are the best men for the picking in the two leading teams, and the whole league, for that matter.

"If any of these big leaguers expect to get any of my men they will come mighty high," said Manager Berry, after the game yesterday, when told that the Boston man was on his way West. "We have a well-balanced team, and are going good now, and, anyway, we can't afford to lose any of our men at this critical stage of the game. We have no players for sale."

Of course, Manager Berry's statement is to be taken with some degree of reserve, for there never was a minor league manager who would not sell if he got his price, but Berry must be credited with intending to hold out for a price.

The Portland team has no men it can spare, and Oakland has none of class. McBreen's trip must be directed toward Los Angeles.

QUICK TOUCHED FOR MANY HITS.

Los Angeles Easily Defeats Seals in Second.

Carlisle and Dillon Make Sensational Plays.

Batting Averages Fattened by Slugging Looloos.

Los Angeles touched the Seals to the Quick yesterday, and hammered the blonde-headed twirler all over the lot. Quick was unlucky through circumstances, and it was not altogether his fault that the Looloos scored nine runs while the team back of him could tally but two. Hitting at the right time had much to do with it, but errors, close decisions by the umpire, and lucky conditions made the rout complete.

The contest was so one-sided after the third inning that the result was never in doubt, and only brilliant fielding and good solid swats on the part of the locals put interest in the game. Carlisle again was the bright particular star in the fielding way. His catch of a long foul up against the bleacher fence being a particularly good piece of work. Capt. Dillon also got into the game and robbed Spencer of a sure hit by bounding into the air and pulling down a line drive with his gloved hand.

"Happy" Hogan again was the batting star. It was his timely bingle in the second round which scored the first two runs, and in four times up he hit safely thrice, once for a double. Every man on the Los Angeles team hit cleanly one or more times, except Delmas, and Irwin robbed him of a hit in the seventh when he stabbed a hot grounder over third with one hand. Fourteen safeties is the total garnered off Quick's delivery, and batting averages were fattened accordingly.

There was nothing doing in the first inning. Carlisle, who singled to right, was forced at second by Brashear, making two out. Brash then stole second, but was left when Dillon went out on a grounder to Mohler.

Cravath got the hook sign on Quick and walked. Smith promptly sent him to third with a single and then stoles second. After Delmas had been called out on strikes, Hogan came to the plate. Quick, remembering Happy's timely batting of yesterday, began to pitch them wide to the pinch-hitting backstop, but Hogan was not to be denied. He jumped into the air and caught a high pitch on the nose and sent it out between Moriarity and Irwin. Had there been no base runners either of these fielders could have caught the short liner. As it was they were worrying around the base bags and the ball fell safe, Cravath scoring. Hildebrand came in so fast that he fumbled the ball as it rolled to him, allowing it to get by long enough to permit Smith to score, while Hogan went to second. Bergeman's grounder to third retired the side.

Los Angeles scored two more in the next inning. With one out, Brashear singled and went to second on a wild pitch. Dillon walked and was forced at second by Cravath, Irwin to Mohler, while Kitty went to third. Cravvy then played the old trick of starting to steal second and drawing the throw. Brashear promptly streaked it for home and reached the plate safely on the wide return. Cravath took a long lead off second and started to steal third, as Smith hit the ball for a single, and then scored, making two for the inning.

The game was sewed up in the fourth inning, when the Looloos landed four more runs. Hogan took advantage of Hildebrand's habit of standing away over in left center, and smashed a double to the fence, the ball striking on the line. Mohler dropped the assist on Bergeman's bunt, and the latter was safe, although credited with a sacrifice. Bernard's single to right was fumbled by Shaughnessy and Bergeman went to third from first, Hogan scoring, but Bernard was caught at second. Carlisle drew a base on balls and promptly stole second. Bergeman was caught napping off third and run down, Moriarity getting the out. Brashear walked, and Dillon's single scored Carlisle. Cravath, poked a single to right and Brashear scored, and when Shaughnessy threw badly to the plate to head him off, the ball got by Street and Dillon crossed the rubber.

Bergeman had one bad inning, the seventh. Shaughnessy opened with a single. He went to second on Spencer's out at first. Then Street whaled a double into deep left center, Bernard being unable to reach a hand to the ball. Shaughnessy scored on the hit. While waiting for Perrine to fix the strap on the second bag, Bergeman tossed some easy ones to Irwin, who was at bat. Charley set his wind-gauge accordingly and slammed a long single on a line to left center, Street scoring. Quick forced Irwin and Mohler flew to deep left.

Cravath opened the last half of the seventh with a double. He went to third on Smith's out. Delmas hit a hot one over third that looked safe, but Irwin stuck out his hand and speared the ball. Cravath was pulled off the third bag on the drive and run down. Delmas reached second on the put-out, and scored on Hogan's third safe hit. Bergeman hit a hot one at Irwin which hit the third baseman on the shoulder on a bad bound. Moriarity scooped the ball and rolled it to Mohler, who caught Hogan when he over-ran the bag.

That finished the scoring on both sides, although the Looloos secured two solid hits in the eighth, one of them a two-bagger to left by Brashear.

The score:

LOS ANGELES.

SUMMARY.

Two-base hits—Hogan, Street, Cravath.
Sacrifice hits—Shaughnessy, Bergeman.
Left on bases—Los Angeles, 5; San Francisco, 8.
First base on called balls—Off Quick, 4; off Bergeman, 2.
Struck out—By Quick, 3; by Bergeman, 3.
Wild pitch—Quick.
First base on errors—Los Angeles, 1.
Hit by pitched ball—Bergeman.
Time of game—1h. 45m.
Umpire—Perrine.

NOTES OF THE GAME.

Carlisle made a circus catch of a fly to deep left center. The ball was coming so fast that he misjudged it slightly, and had to jump in the air to catch it. As he came down he turned completely around and added a fancy jump which made the play look very spectacular.

Capt. Dillon made three stops with one hand which were fine bits of fielding. One was a back-hand swipe while stretched at full length, which came near completing a double play.

Umpire Perrine had a lot of trouble in his decisions. Apparently he erred several times. Once he prevented a double play for the Seals in a close decision at first.

Williams, the Seals' first baseman, negotiated a few fancy pick-ups of the sensational order.

So hard did Carlisle dash into the fence after that foul ball that the imprint of the wires were left on his shirt.

Shaughnessy is almost as bow-legged as "Bow Bill" Gannon, of the Memphis team of the Southern League.

Carlisle felt so good over his circus catch in the second that he wanted to make them all that way. The other players handed him a lesson after he threw a couple of long ones to the plate. Hildebrand started it by catching a fly and then slitting down with it in burlesque fashion. After a fly to right Hogan called to Cravath to throw the ball home. Cravath then threw high over Hogan's head to the grand stand, burlesqueing Carlisle's throw. Hereafter Carlisle will do circus stunts only when occasion requires.

GROOM IS WILD.

THEREFORE PORTLAND LOSES.

[BY THE ASSOCIATED PRESS—P.M.]

SAN FRANCISCO, June 26.—Portland lost today through Groom's wildness. He gave six passes and in the fifth was hit four times. Score:

CARDINALS MEAT FOR CUBS.

[BY THE ASSOCIATED PRESS—P.M.]

CHICAGO, June 26.—Chicago took two games from St. Louis today. The first game was a crude mixture of bases on balls and misplays, several of which cannot be charged up in the error column, a muff at the plate scored the winning run. Chicago won the second by base stealing and timely hitting. Score:

First game:
Chicago, 7; hits, 5; errors, 4.
St. Louis, 6; hits, 7; errors, 2.
Batteries — Frazer, Lundgren and Kling; Lush and Marshall.

Second game:
Chicago, 4; hits, 10; errors, 1.
St. Louis, 1; hits, 6; errors, 1.
Batteries—Taylor and Kling; Beebe and Noonan.
Umpire—O'Day.

AMERICAN LEAGUE.

PLAY DESPERATE BALL.

[BY THE ASSOCIATED PRESS—P.M.]

ST. LOUIS, June 26.—Chicago took the opening game of the series from St. Louis today. White pitched brilliant ball. Peity was less effective. Score:

St. Louis, 0; hits, 4; errors, 0.
Chicago, 1; hits, 8; errors, 1.
Batteries — Peity and O'Connor; White and Sullivan.

CLEVELAND HANGS ON.

[BY THE ASSOCIATED PRESS—P.M.]

DETROIT, June 26.—A throw into the stands by Downs in the fourth gave Cleveland a lead that decided the result. Score:

Detroit, 1; hits, 4; errors, 3.
Cleveland, 4; hits, 11; errors, 1.
Batteries — Donovan and Payne; Moss and Bemis.

ORTH'S SMILE FADES.

[BY THE ASSOCIATED PRESS—P.M.]

BOSTON, June 26.—Orth was batted hard today in the three innings he was in the box, enabling Boston to win. Score:

Boston, 6; hits, 6; errors, 1.
New York, 2; hits, 7; errors, 1.
Batteries—Young and Criger; Orth, Keefe and Rickey.

GAME POSTPONED.

Philadelphia-Washington game postponed, rain.

SAN PEDRO TEAM TAKES "TIMES" CUP.

San Pedro street's baseball champions took possession of The Times grammar school baseball cup, yesterday, and celebrated the occasion with a noon banquet at the school. The nine members of the team, with the substitutes and mascot, were given a dinner by two of the San Pedro-street school teachers, Miss Florence Starr Elbert and Miss Cora Dotson.

Principal B. W. Reed gave a talk accepting the cup in behalf of the school. J. C. Rinehart, who umpired the final games of the grammar school series both last year and this, and the coach, A. Curland, also spoke encouraging to the young players.

Handball Scores.

The time for play in class B in the L.A.A.C. handball tournament has been extended to Saturday and the championship of this class remains undecided. Moore is still in the lead, but has not played his final game. Dunnigan and Marsh each have three more games to play. Scores in class C yesterday were: Riley 21, Aldis 13; Gurnsey 21, Price 8; Treen 21, Stewart 16; Reuman 21, Roberts 6.

Rain Prevents Play.

PHILADELPHIA, June 26.—Rain interfered with today's play in the women's national championship lawn tennis tournament. National Champion Helen Homans of New York will not defend her title.

Yale Champion Wins.

LONDON, June 26.—In the all-England lawn tennis championship games at Wimbledon today, Karl H. Behr, the Yale champion, beat Wilson Fox, British, 6-2, 6-2, 6-4.

Orby Wins Irish Derby.

DUBLIN, June 26.—Richard Croker's Orby, winner of the English Derby, won the Irish Derby, today. Mr. Croker's Georgetown was second. Seven horses started.

Races at Sheepshead.

NEW YORK, June 26.—H. P. Whitney's Baby Wolf, at 60 to 1, easily won the Swift Stakes, seven furlongs, at Sheepshead Bay today. Results.

Five furlongs: Adriana won, Aimee C. Second, Bouquet third; time, 1:00 3-5.

Six furlongs: Prince Hamburg won, King's Daughter second, Seal third; time 1:13 1-5.

Five furlongs: Royal Vane won, Laughing Eyes second, He Knows third, time 1:01 1-5.

Swift Stakes, seven furlongs: Baby Wolf won, Charles Edward second, Ethon third; time 1:27 1-5.

Mile and a furlong on turf: Lord Lovell won, Yankee Girl second, Tony Bonero third; time 1:53 2-5.

One mile: Herman won, St. Valentine second, Golden Shore third; time 1:42 1-5.

GRAB COFFIN NAILS.

CHICAGO, June 26.—[Exclusive Dispatch.] A big bargain sale of cigarettes began today. Men engaged in a wild rush toward the counters just as their better halves do every Monday in State street.

July 1 the new anti-cigarette law goes into effect and July 1, is now less than a week away. Placards showing the cut rates were posted in many windows this morning. The common conception of the law is that it prohibits entirely the sale of cigarettes and forbids all persons under 18 years, women included, their use. Several tobacconists, will, it is said, pay no heed to the law, continuing to sell "pills" as usual to all comers, and protecting themselves if need be by injunction.

Sun's Annual Sale of

LEATHER GOODS

Saturday night sees the end of this great leather event. We have eclipsed every other sale we ever held—and that's saying a good deal. But there's a reason: bigger values than ever, broader assortments to choose from.

One-Fourth Off Suit Cases

Suit cases on sale at Stores No's 1 and 3 only.

$5 KARATOL SUIT CASE. Suit case of russet colored Karatol, round top, leather covered steel Vienna handle. Brass plated lock and loops, short straps, heavy leather corners. Fancy muslin lined, shirt fold. Regularly $5.00. Sale price $3.75. $3.75

$5 SHEEPSKIN SUIT CASE. Suit case of selected brown sheep skin, rounded edges and top. Heavy leather corners with steel rivets. Brassed lock and bolts. Fancy muslin lined with shirt fold. Regularly $6. Sale price $4.50. $4.50

$4.50 COWHIDE SUIT CASE. Suit case of brown cowhide, rounded edges and top, brassed lock and bolts. Leather covered steel Vienna handle with brassed loops. Fancy muslin lined with shirt fold. Regularly $6.50. Sale price $4.88. $4.88

$11 COWHIDE SUIT CASE. Suit case of fine brown cowhide, good lock and bolts, leather covered steel Vienna handle with fancy nickel loops. Quilted satin lined, with shirt fold. A well-looking and well-wearing case. Regularly $11.00. Sale price $8.25. $8.25

$1.75 Hand Bags 98c. Ladies' hand bag of brown or tan walrus grained leather. Vienna handle, leather covered frame, gilt fastenings. Fitted with coin purse and card case. Regularly priced at $1.75. Sale price 98c—below cost.

GOLD DUST BAGS. Gold dust bags of best grade chamois skin. Sold regularly at 15c, 20c and 25c. Sale price 11c, 15c and 19c.

PASS CASES. Black seal pass cases, which hold from one to six passes. Regular prices range from 35c to $4.25. Sale price 24c to $4.50.

$1.00 Hand Bags 43c. Ladies' black leather hand bag with Vienna handle; gun-metal frame and fastenings. Moire silk lining and is fitted with coin purse to match outside leather. Regularly priced at $1.00. Sale price 43c—below cost.

$2.50 HANDBAGS FOR $1.88. Ladies' black seal hand bag. Leather covered frame; gilt fastenings; Vienna handle; leather lined. Large coin purse to match. Regularly $2.50. Sale price $1.88.

THURSDAY, JUNE

CORNELL WINS BY FIVE FEET

Greatest Rowing Race Ever Seen Over Course.

Tremendous Spurt at Finish Is the Feature.

Students and Middies Cheer Crews to Victory.

Cornell was first, with Columbia a very close second, and the Annapolis crew third in the varsity eight-oared race at Poughkeepsie this afternoon, in the annual regatta. Order of finish and official time: Cornell, 22:02 2-5; Columbia, 29:04; Navy, 20:12 4-5; Pennsylvania, 20:32 2-5. No time taken on Wisconsin, Georgetown and Syracuse. Four-mile course.

Syracuse won the four-oared two-mile race, Cornell second; Pennsylvania third, Columbia fourth. The official time was: Syracuse, 10:37½; Cornell, 10:46; Pennsylvania, 10:48; Columbia, 10:54½.

Wisconsin won the eight-oared freshman race of two miles; Syracuse second, Pennsylvania third, Columbia fourth and Cornell last. Official time: Wisconsin, 9:58; Syracuse, 10:03; Pennsylvania, 10:04; Columbia, 10:06 2-5; Cornell, 10:07 4-5.

POUGHKEEPSIE (N. Y.) June 26.—Cornell won the 'varsity eight-oared at the intercollegiate regatta for eight time, this evening, in the most exciting contest ever rowed over a four-mile course.

Cornell's time was 20:02 3-5. Columbia was second, the United States Naval Academy, third, Pennsylvania fourth, Wisconsin fifth, and Georgetown sixth. Syracuse did not finish, the shell being swamped a half-mile from the finish.

The Ithacans won by the narrowest margin from Columbia, and until the figures announced that Cornell had won, the thousands of spectators afloat and ashore were in doubt as to which crew had crossed the line.

Cornell and Columbia fought for the honors over the whole four miles, and at no time were the two shells more than twenty-five feet apart. Columbia led for over three miles, and then Cornell took the lead, only to lose it to Columbia again.

In the last 100 feet of the race Cornell, by a tremendous spurt, shot the nose of her shell into the lead and over the finish under the glare of the searchlight on the United States monitor Arkansas, five feet ahead of Columbia.

The Annapolis crew rowed a magnificent race and finished two lengths behind Columbia.

Columbia captured the 'varsity four-oared race from Cornell, Pennsylvania third, Columbia, which finished in the order named. Syracuse finished two lengths ahead of Cornell and her time for the two miles was 10:37 1-5.

WISCONSIN FRESHMEN.

Wisconsin won the freshman eight-oared race over the two-mile course, with Syracuse over the finish line by a length and covering the distance in 10:03. Pennsylvania was third, Columbia fourth and Cornell fifth. Columbia rowed the last quarter of a mile with an almost water-logged shell, which filled near the stern with three feet of planking was ripped off by a submerged log.

The 'varsity race was postponed until 6 o'clock on account of rough water, and thousand spectators saw the

[illegible] of the Navy Metcalf [illegible] the contest from the gunboat [illegible], while nearly 400 midshipmen [illegible] Annapolis from the observation [illegible], and from the bridge and [illegible] of

Order of finish and official time: Cornell, 20:02 2-5; Columbia, 20:04; Navy, 20:12 4-5; Pennsylvania, 20:13 2-5. No time taken on Wisconsin, Georgetown and Syracuse. Four-mile course.

Syracuse won the four-pared shells race, Cornell second; Pennsylvania third, Columbia fifth. The official time was: Syracuse, 10:37½; Cornell, 10:40; Pennsylvania, 10:49; Columbia, 10:55.

Wisconsin won the eight-oared freshman race of two miles; Syracuse second, Pennsylvania third, Columbia fourth and Cornell last. Official time: Wisconsin, 9:58; Syracuse, 10:; Pennsylvania, 10:04; Columbia, 10:05 2-5; Cornell, 10:17 4-5.

POUGHKEEPSIE (N. Y.) June 26.—Cornell won the 'varsity eight-oared race of the intercollegiate regatta for the fifth time, this evening, in the fastest contest ever rowed over the two-mile course.

Cornell's time was 20:02 2-5. Columbia second, the United States Naval Academy, third, Pennsylvania fourth, Wisconsin fifth, and Georgetown sixth. Syracuse did not finish, having been swamped a half-mile from the finish.

The honors won by the narrowest margin from Columbia, and until the finish announced that Cornell had won, thousands of spectators afloat and ashore were in doubt as to which crew had crossed the line.

Cornell and Columbia fought for the lead over the whole four miles, and at no time were the two shells more than twelve feet apart. Columbia led for three miles, and then Cornell took the lead, only to lose it in the last few strokes.

Within the last few feet of the race Cornell, by a tremendous spurt, shot the nose of her shell into the lead and crossed the finish under the glare of the searchlight on the United States monitor Arkansas, five feet ahead of Columbia.

The Annapolis crew rowed a magnificent race and finished two lengths behind Columbia.

Syracuse captured the 'varsity four-oared event from Cornell, Pennsylvania and Columbia, which, finished in the order named. Syracuse finished two lengths ahead of Cornell and her time for the two miles was 10:37 1-5.

WISCONSIN FRESHIES.

Wisconsin won the freshman eight-oared race over the two-mile course, with Syracuse over the finish line second and covering the distance in 9:58. Pennsylvania was third, Columbia fourth and Cornell fifth. Columbia rowed the last quarter of a mile in an almost water-logged shell filled near the stern with a few feet of planking was ripped off by a submerged log.

The 'varsity race was postponed until 5 o'clock on account of rough water. Thousand spectators saw the race.

Secretary of the Navy Metcalf fired the contest from the gunboat Dolphin, while nearly 4000 midshipmen from Annapolis from the observation train, and from the bridge and decks of the United States monitors Florida and Nevada, anchored near the finish line.

Several hundred yards from the finish the crews made the final effort. Amid the cheering and the shrieking of whistles as they neared the finish line, on which shone a great bar of light from the searchlight on the monitor Arkansas. Cornell's steady stroke shot her shell five feet ahead of Columbia as they came in the home stretch. Columbia tried in vain to overcome the slight lead and Cornell crossed over the finish winner by about a length.

Navy came over the line third, a length behind Columbia. Pennsylvania was two lengths behind the Navy, four lengths behind Pennsylvania Wisconsin, and far behind Georgetown, the sixth to finish.

Cornell's shell began to fill a half mile from the finish and would have sunk but the crew jumped overboard and were picked up by passing launches. Cornell's crew seemed in good condition after the race.

NOTES OF REGATTA.

Considerable betting upon the 'varsity race today, Cornell was the favorite.

Throughout a slight white cap on the surface of the river and occasionally a choppy breeze following a shower, seemed favorable for the big race were realized. The sun shone and a fairly strong tide was running.

Columbia got the water first, Wisconsin second, Cornell third, Columbia fourth, Georgetown and others last.

At the quarter mile the Middies were in the lead, Cornell second, Columbia third, Georgetown and others fourth.

At the half-mile the Middies still held the lead and pulling about 38 to the minute.

At the two-mile mark the Middies were slightly in the lead, Wisconsin second and Wisconsin were nearly even. Georgetown and Syracuse were last.

At the two-mile mark the Middies were slightly in the lead, Wisconsin second, Cornell, Pennsylvania and Syracuse last. The official time, two miles, 11:02.

At two and a half miles, the Middies lead with Wisconsin second.

At three miles the order was: Cornell, Pennsylvania, Georgetown, and Columbia, and Syracuse last.

Syracuse caught the water first in the four-oared 'varsity race of two miles; Columbia second, Pennsylvania third, and Cornell last.

At the quarter mile Syracuse led, Columbia second, Cornell third, and Pennsylvania fourth.

Passing the second bridge Cornell led by a length and a half. At the mile, Columbia and Syracuse were fighting to keep out of last place.

On the last quarter Syracuse spurted, shooting ahead of Cornell.

Syracuse won by two lengths over Cornell, Pennsylvania was two lengths ahead of Columbia.

Yale's Chances Glimmer.

REDTOP (Ct.) June 26.—Gordon Glass, the strongest oar and heaviest man in the Harvard 'Varsity Club will not be able to row in the Yale-Harvard race tomorrow. He was seized with a chill, last evening and collapsed while at practice today. Capt. Bacon will take number six in Glass's place and Lant will be transferred from the four-oared crew to Bacon's place at number four.

OKLAHOMA CONVENTION.

OKLAHOMA CITY (Okla.) June 26.—J. L. Harmon, chairman of the Republican State Committee, issued a call today for a State convention to be held in Tulsa, July 12, for the nomination of a State ticket. According to a statement made today, speeches will be made by Secretary Taft, Congressman Landis and Speaker Cannon.

JEFFRIES MAY FIGHT SQUIRES IF HE WINS.

Jeffries will not fight him of a fighter he is."

any conditions for I do not the match would draw; if I may consider a chal- if sufficient induce- and if his showing makes it appear as championship timber in Jeffries, last night. circumstances will I chal- and they will have proposals for a Squires over and see what kind

This situation throws a new light in the pugilistic arena. Jeffries has been quoted repeatedly as saying that he did not want to fight Squires, would never enter the ring again, had no desire at all to fight, etc.

Jeff expects to go to San Francisco Sunday and remain until after the Fourth. It's up to Squires to make good if he wants a chance at the big fellow. Jeffries will watch the work of the men closely, and get a line on the Australian's real ability. Then there may be something doing.

TRACTS OF 5 ACRES
$25 CASH, BALANCE $5 MONTH
PRICE $80 ACRE
WITH PERPETUAL WATER RIGHT
LOCATED 6 MILES FROM FRESNO
ON MAIN LINE S.P.R.R.

Fresno is in choicest part of famous San Joaquin Valley and is the banner section of State. The county's products last year averaged $500 per capita for every man, woman and child in county. These products were mainly fruit. It's the best place in State to own land, and for good soil like this at these prices and on these terms NOW IS TIME TO BUY. Unlimited supply of water at cost of 60% cents acre per year. Only 250 acres to be sold at this price and terms; so hurry if you want some of it. We are largest land dealers and colonizers here. Any Fresno bank will tell you we are thoroughly reliable. Remit $15 for each 5 acres wanted and then $5 month thereafter.

FOR SALE—
Suburban Property.

FOR SALE — THE MOST BEAUTIFUL suburban home that can be bought for the money in Southern California. The kind that is rarely on the market. A chance for a man of moderate means to acquire the kind of home place rarely owned except by the very wealthy, with wide expanse of new, velvety lawn, sweeping driveways, magnificent rare and stately trees, shrubs and flowers.

Situated in beautiful Alhambra, short distance from Huntington Drive and Oneonta Park section of South Pasadena, convenient to San Gabriel, Monrovia, Sierra Madre and Pasadena, Wentworth, cars.

Lot has frontage of 231 feet by 220 deep, on wide avenue with cement sidewalks and curbs and wide parkways all in lawn.

Modern, substantial and imposing 9-room colonial house, just completed with fine finish and appointments.

The oldest and largest rubber tree in the State; the largest spreading oak and dozens of other magnificent trees, some of them rare and unusual, even in California, besides half acre of oranges and other fruits, rose garden, shady nooks and mammoth rose vines, enveloping great trees with flowers and foliage, newly-planted borders and beds of rare plants and flowers.

An ideal place in prime condition; has been in the hands of expert landscape gardeners for several months.

Easily worth $25,000, but will take much less for quick sale; cannot be duplicated for double the money.

Can be handled with $4000 to $8000 cash, balance long time, at 7 per cent.

For information address
MR. WILEY, box 275, Alhambra, or 'Phone Home Alhambra 61, or see any Alhambra real estate agent.

FOR SALE—
A DOLLAR A DAY
FOR TWENTY DAYS
SECURES A FARM
AND A HOME
OF YOUR OWN.
$20 down will get you a whole acre right where things are doing, at Belle Vernon. An acre of finest land with water in generous abundance and piped direct to your door. The berries alone will make you payments, and vegetables and poultry will add to your income.

WHY SETTLE DOWN
ON A LITTLE LOT
WHEN YOU CAN GET
A WHOLE ACRE
FOR LESS MONEY?

Belle Vernon is on the way to the sea and only 20 minutes from the Huntington Depot via two fast electric lines. Go out and see it and you will certainly buy there for it is unquestionably the greatest bargain ever offered. You get right in where very influence is boosting values. When the land gets too valuable for berries, fruit and vegetables you can cut it up into lots and sell at six times the price you pay.

BE WISE! BE WISE!
BE BELLE VERNON WISE!
BE WISE! BE WISE!

Lay the foundation now for vast profits a year or two from now. If you have a little money earning 6 per cent, place it here today while you can, for soon all land near the city will have passed beyond your reach.

27

A SPLENDID OPPORTUNITY TO PURchase an 80 per cent. interest in a good paying proposition located in one of the most beautiful spots in all Southern California. The real estate, buildings and other live assets invoice much more than the price asked. The property can be made worth from $50,000 to $75,000, and by more than repay its purchase price in two years by personal and intelligent management. The best of reasons for selling and the low figure asked; price $40,000, with terms, perhaps. Talk directly to the owners at once; no agents. 318 and 319 PACIFIC ELECTRIC BLDG. 3

YOU DON'T NEED TO PUT UP A DOLLAR until you have finished, but I have a bond on 6 claims of silver-lead property with immense quantities of ore in sight, in an 18-foot tunnel; a block of ore could be taken out as large as a moving van; 10 men put to work now could be taking out a carload of ore a day within 30 days, making a net profit of $1000 a day; I need the money to make payments and will take in a few men on the ground floor; no time to give to promoters. Call room 14, 512 S. Broadway. FRANK EPTON. 27

YOU DON'T NEED TO PUT UP A DOLLAR until you have seen it, but I have a bond on 6 claims of silver-lead property with immense quantities of ore in sight, in an 18-foot tunnel; a block of ore could be taken out as large as a moving van; 10 men put to work now could be taking out a carload of ore a day within 30 days, making a net profit of $1000 a day; I need the money to make payments and will take in a few men on the ground floor; no time to give to promoters. Call room 14, 512 S. Broadway. FRANK EPTON. 27

YALE STUDENT MEETS DEATH.

AUTO ACCIDENT SADDENS COLLEGE COMMENCEMENT.

Son of Late James B. Oliver, One of Most Prominent Steel Manufacturers of Pittsburgh, Is Instantly Killed and Two Companions Are Seriously Injured.

[BY THE ASSOCIATED PRESS—A.M.]

NEW HAVEN (Ct.) June 26.—An accident which caused the death of one undergraduate and injured more or less seriously, two other students and a guest, cast a gloom over the commencement exercises at the University today.

The victim was D. Leet Oliver, son of Mrs. J. B. Oliver of Pittsburgh, and a senior in Sheffield Scientific School, a member of St. Anthony's fraternity and one of the most prominent socially of the upper class men. The injured are W. Strothers Jones of Redbank, N. J., a Sheffield junior, and J. C. Coleston of Baltimore, a senior in the same department and S. Hudson, a commencement guest.

Oliver died from a broken back. He was crushed under his automobile after it had jumped off a bridge in Centerville, about four miles from the college. The others are suffering from manifold bruises. Coleston had his nose broken.

The party was coming into the city and the machine apparently skidded off the end of the bridge which spans a small stream. As the machine took its flight into the air it turned over and landed just at the edge of the water. The crushing weight came upon Oliver, who was driving, and he was almost instantly killed. Messrs. Jones, Hudson and Colston were carried into New Haven for treatment.

Oliver was a son of the late James B. Oliver, who died a year ago and who was one of the prominent steel manufacturers of Pittsburgh. He was also a nephew of George T. Oliver, proprietor of the Pittsburgh Gazette-Times and the Chronicle-Telegraph of Pittsburgh.

Colston is a son of Frederick W. Colston of the banking house of Wilson Colston & Co. of Baltimore.

Jones is a son of S. W. Jones, a stock broker of New York City.

NEW CURRENCY LAW IS URGED.

FORMER GOV. HERRICK TALKS TO OHIO BANKERS.

Necessity Is Declared for Passage by Congress of Measure Prepared by Congressman Fowler on Lines Approved by Financiers' National Association.

[BY THE ASSOCIATED PRESS—A.M.]

CINCINNATI, June 26.—Before the Ohio bankers' annual convention today an address on "Legislation and Progress" was delivered by Myron T. Herrick, formerly Governor of Ohio. United States Treasurer Charles H. Treat wired that owing to the death of the Assistant Treasurer at San Francisco, he would be unable to attend.

Mr. Herrick spoke as follows:

"It is essential at the present time that there be no discouragement of capital, for unusual economic conditions exist. Since 1897 there has been unparalleled prosperity and activity which has lasted longer than any similar period in the history of the country, and, like all periods of prosperity, it is infected with the germs of incipient danger. Credit, easily obtained, has not only been used in promoting legitimate enterprises, but in exploiting illegitimate, unproductive and speculative enterprises. The loans of national banks alone have increased from $1,900,000,000 in 1897 to over $4,600,000,000 in 1907. Deposits have shown a corresponding increase, but the ratio of lawful reserve to deposits has decreased from 31.7 per cent. to 21.22 per cent. in the last ten years. A decade ago the average reserve in specie held by the country banks in their vaults was 13.57 of their deposits. This ratio has declined to 7.39 per cent. at the present time. There now exists a necessity for going slow in the incurring of further debt and for the checking of investment in unproductive and speculative enterprise.

"The problem that we have before us is to provide an auxiliary to our national bank currency that will supply the variable and responsive element so necessary to the industries of today. That this is not yet clearly understood is indicated by the fact that the suggestion has recently been made at Washington that the amount of currency be increased by permitting the banks to issue currency based one-half on government bonds and one-half on other approved bonds. Such a provision would add only to the volume of the currency, which is not necessary, without in any degree relieving the situation. The rigidity of our present currency makes it ill adapted to carrying an overload. It is the 'peak of the load' that must be provided for.

"The problem was studied and discussed by the American Bankers' Association for many years without reaching any agreement until last year. The result of its deliberations is embodied in the report of the special currency commission appointed by the American Bankers' Association, with which we are all familiar. The recommendations made in the report, and as embodied in the Fowler bill, are generally regarded by students of economics as eminently wise and conservative, and if such a law is passed by Congress we will be provided with a currency that will respond to the varying needs of industry, expanding in the fall to meet the requirements for funds to move the crops and contracting as the tide turns to the reserve cities. The members of this association can render no more patriotic service to their country than to strenuously urge on Congress the passage, without further delay, of the Fowler bill or a similar measure."

HIGH JINKS HELD.

Society Woman Wanted to Disrobe to Dance in Swell Cafe in Atlantic City.

[BY DIRECT WIRE TO THE TIMES.]

ATLANTIC CITY (N. J.) June 26.—[Exclusive Dispatch.] Several men known in Philadelphia and New York society are trembling over possible disclosures likely to be made by the license board of the City Council concerning the high jinks in several big beach front cafés following the exposure of a wine party at the fashionable Isleworth Café last Saturday night, when a woman member of the coterie was placed on a table and started toward a dance in the "altogether."

According to the written evidence in the hands of the reform members of the Council, lively parties have been held lately in several of the beach-front places after most of the more respectable people had left for home, and the stripping of the handsome woman in the Isleworth was only one natural culmination of the liberty allowed.

So far the identity of the woman who created the sensation on Saturday night has been successfully concealed, but it is said today that she is a relative of one of the car builders who made up the male contingent in the party. When the screams of other women in the café called the café managers, the latter pulled the partly undressed woman from her perch on the table. She was hustled into a cab and whisked away. She is reported to have left the city.

INDUSTRIES FOR POOR.

Illinois Millionaire Leaves Fortune for Establishment of Practical Benefits.

[BY THE ASSOCIATED PRESS—A.M.]

PEORIA (Ill.) June 26.—Two million dollars left in the will of the late John C. Proctor is to be utilized by the Proctor endowment at Peoria in the establishment of a laundry for boys and girls who will be paid wages; a nursery for women and children, a manual training school for worthy boys and an orphanage. Already $350,000 has been spent for a home for the aged.

Mr. Proctor outlined that he desired to provide opportunity for wage earning to the largest number of deserving poor. His gift to the Cottage Hospital aggregates $300,000. His nieces and nephews and Miss L. Proctor, his sister, gets an aggregate of $155,000. Miss Proctor is given $25,000 and the others $5000 each.

He regarded too much money to the individual as a ruination and he preferred to spend his entire fortune for those in real need. A board of trustees is to manage the estate.

STAYS TO PLAY GOLF.

Rockefeller Declines to Go Home Until Games With Priest Are Concluded.

[BY THE ASSOCIATED PRESS—A.M.]

NEW YORK, June 26.—John D. Rockefeller did not leave for his home in Cleveland on Monday, as he had planned. Mrs. Rockefeller and a majority of the servants started for Cleveland on Monday night, but Mr. Rockefeller is still at his place in the Poncantoc Hills.

The cause of the delay in the departure of the oil man is the fact that he has an unfinished golf series to play off with Father Lennon, the Catholic priest of Tarrytown, N. Y., with whom Mr. Rockefeller is quite chummy. As soon as the golf superiorship between the priest and oil king is decided, Mr. Rockefeller will start for Cleveland. It was said at his home that it very likely would be three or four days before Mr. Rockefeller left.

SOLDIER BECOMES COP.

Former Regular Bearing Letter from President Roosevelt Gets Place on Omaha Force.

[BY DIRECT WIRE TO THE TIMES.]

OMAHA (Neb.) June 26.—[Exclusive Dispatch.] Because he had a letter from President Roosevelt commending him for bravery, Edward J. Zink, an ex-soldier, today was given a position on the Omaha police force as patrolman.

Zink served eight years in the Twenty-second Infantry, and when in the Philippines he rendered signal bravery in an attack of the American army on the Moros. For this he received a letter of thanks and congratulation from the War Department, the letter being countersigned by President Roosevelt and Secretary Taft. Zink was given the police position solely on his letter of commendation.

DIVORCE PAPERS SEALED.

Mrs. Henry Coleman Drayton Gets Decree from Mrs. Astor's Grandson, But Cause Is Withheld.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, June 26.—[Exclusive Dispatch.] Mrs. Henry Coleman Drayton, the story of whose marital infelicities was told last week, was granted an interlocutory decree of divorce at White Plains yesterday.

Papers in the case were immediately ordered sealed and any details as to the ground on which the divorce was granted were thus withheld from public knowledge.

Mr. Drayton is a grandson of Mrs. William Astor, and Mrs. Drayton, who was Miss Constance Knower, is famed in the younger set of society for her beauty. She is the daughter of the late Benjamin Knower and a member of one of the oldest and most conservative families of this city.

All who are connected with the case have declined to make any statement about the matter. The decree was granted by Judge Tompkins. George C. Andrews represented the plaintiff.

TO LAY CABLE TO COLON.

Steamship Colonia to Leave New York Today on Her Way to Isthmus of Panama.

[BY THE ASSOCIATED PRESS—A.M.]

NEW YORK, June 26.—A beginning will be made tomorrow in laying a new cable, the middle and both ends of which will rest on American soil. The cable will also be the first one from this port to Colon, in the Panama Canal zone.

The Colonia, the largest cable steamship in the world, will leave the lower harbor tomorrow to start laying it. There are 2323 nautical miles of rubber and armored cable stowed away in three big tanks in the vessel, and overboard it will be dropped at the rate of 180 knots a day.

The cable will be laid for the Mexican Central and South American Cable Company, so as to save 2000 miles of land lines now in use in Mexico, and facilitate the company's communication with the west coast of South America.

Street Germs

are showered upon you daily. Diseased expectorations dry in the street dust today—are blown into your face tomorrow—these and others. The thought is repulsive, but demands your utmost care—in seeing that these germs are not rubbed *into* the skin when you wash. **Pond's Extract Soap** offers protection from the germs which daily threaten our very lives.

The soap itself is germ-free—as sweet as honey, and kept so by the Pond's Extract contained in it and which is carried into the skin with every bathing. The soap penetrates, carrying the Extract. Both combine to cleanse and stimulate the glands to healthy action in throwing *out* the natural excretions and foreign impurities, thus keeping the pores clear—the skin healthy, soft and delicate. Its whiteness indicates its purity. *From your druggist.*

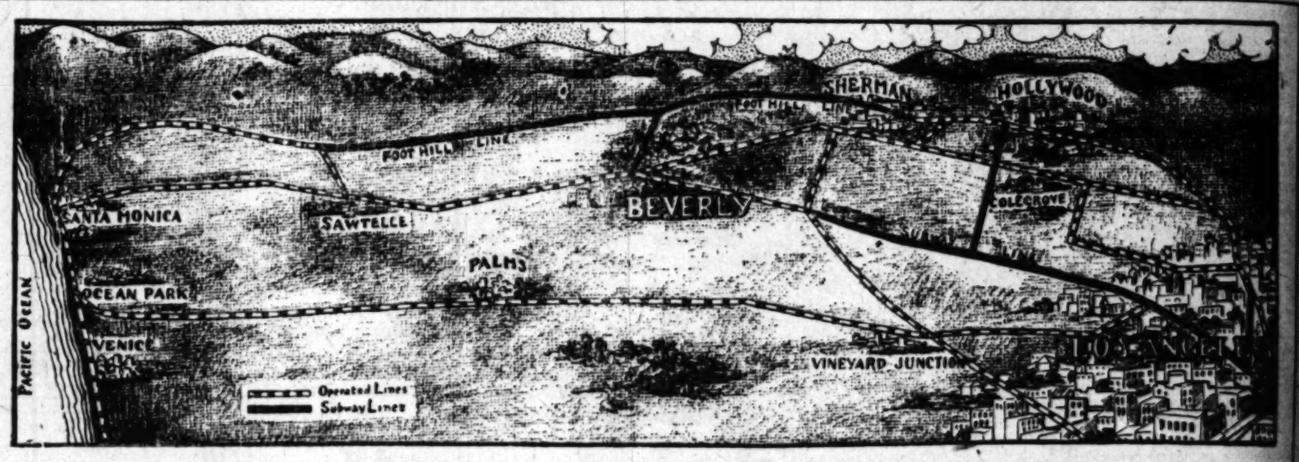
BEVERLY HILLS

BETWEEN THE CITY AND THE SEA



The New Subway Means

NO DELAYS, NO BLOCKADES, NO SLOW TRAVELING, BUT QUICK UNINTERRUPTED SERVICE.

In New York City the experience with subways has proved that real estate in the district affected practically did not feel the appreciation in values until the subway was actually completed and in operation.

In other words, although people were absolutely confident that the New York subways would be completed, they did not realize how these subways would affect values until the very day when the operation commenced and then prices took a sudden jump, increasing until a new and high level of values was reached which has been permanently maintained.

The fact that there is such a limited amount of desirable foothill property near Los Angeles and the natural superiority of Beverly Hills, will undoubtedly result in a remarkable readjustment of values when the new subway is in operation.

Fifteen minutes from the heart of Los Angeles to the beautiful broad expanse of Beverly Hills, is an attraction that few business men will be able to resist, especially since Beverly Hills offers more comforts, luxuries and conveniences than the dusty, crowded residence sections of Los Angeles, where transportation is subject to tedious delays and noise, jars, crowds and dust.

Can you doubt that a modern subway will create an overwhelming demand for residences in this magnificent district?

Bear in mind that Beverly Hills property is now selling at low figures—figures that are very low and not at all commensurate with the present excellent car service and the palatial improvements.

Call at our office for interesting facts and figures and get complimentary tickets for Beverly Hills.

School Bond Election Notice.

Notice is hereby given to the qualified electors of The Palms School District of the County of Los Angeles, State of California, that in accordance with the provisions of the Political Code of the State of California, an election will be held on the 12th day of July, 1907, at the usual voting house in said District, between the hours of 1:00 p.m., and 4:00 p.m. of said day, during which period and between which hours the polls shall remain open, at which election the question of issuing and selling bonds of said district in the amount of three thousand Dollars, for the purpose of raising money for building one school-house (that is, adding room to the present school-house), and supplying the same with furniture and necessary apparatus, for issuing the same, and for improving the grounds, will be voted upon.

The said bonds thereunder to be issued and sold, shall be of the denomination of five hundred Dollars each, and shall bear interest at the rate of 5 per cent. per annum and shall be numbered from 1 to 6 consecutively, payable as follows: Bond No. 1, five hundred Dollars, to run one year; bond No. 2, five hundred Dollars, to run two years; bond No. 3, five hundred Dollars, to run three years; bond No. 4, five hundred Dollars, to run four years; bond No. 5, five hundred Dollars, to run five years; bond No. 6, five hundred Dollars, to run six years.

That G. W. Lynn will act as Inspector and Thos. Attrill and J. L. King will act as the Judges of said Election, to conduct the same, said Inspector and Judges being competent and qualified electors of said School District.

IN WITNESS WHEREOF, we have hereunto set our hands this 18th day of June, 1907. S. A. Stearns, President. Ward. Clarence E. Coe; Trustees of the Palms School District, Los Angeles County, California.

"In Districts in which the whole number of children between five and seventeen years of age exceed 100, the polls shall be opened at 8 o'clock a.m., and shall remain open until sundown. In other districts the polls must not be opened later than 9 o'clock a.m. nor kept open less than four hours, nor later than sundown."

SCOTCH Suits to Order $15

THE OIL INDUSTRY.

WHERE WOMAN WILL BE BOSS

COMPANY WITH ONLY LADIES A DIRECTORS LAUNCHED.

Only One "Horrid Man" Will Have Anything to Do With the Management—He Will Be Field Superintendent and Tutor to the Ladies. He May Be Envied?

"No men need apply," is the sign hung by the directorate of the Golden State Oil and Mining Company, organized at a meeting in the W. S. Collins building last night. For, be it known that this is to be a woman's company exclusively as far as holding office and boss ing the job is concerned. The company with its feminine officers and directors intends to drill in the White Creek district north of Coalinga where one wild cat is down 1500 feet and showing well.

The meeting last night was attended by some thirty persons, of whom two-thirds were ladies. The male contingent, with a few exceptions, occupied seats in the back of the room and let feminity take the front. There were two exceptions, Attorney W. E. Danforth and C. W. Hall, who were brave enough to come forward. Mr. Danforth acted as legal adviser and Mr. Hall is the chief promoter and practical oil man. It is stated that he has been promoting companies for thirty-five years, but—say it is in whispers—this is his first venture with a female directorate. Poor man, he has yet to learn what he is up against. He is to be field superintendent.

The company is an Arizona corporation with $2,000,000 capitalization. The following ladies are officers and directors: Mrs. Claudia Hazen White, president; Mrs. Mabie Birely, vice-president; Mrs. E. B. Taylor, secretary; Mrs. E. R. Visner, treasurer; Mrs. M. Alderman, Mrs. Flora Bradbury, Mrs. M. E. Pennington, Mrs. V. C. Armstrong, Mrs. Nellie B. Towne, Mrs. Lincola Crumley, Mrs. J. H. De la Mate, Mrs. B. C. Stockwell.

All the original purchasers of stock enter into an agreement to do all in their power to sell stock on commission and not to sell any of their own without at the same time placing a block of treasury stock.

After the meeting one of the ladies, speaking of the venture, said that they believed that "with proper tuition the women ought to be able to manage an oil company as they have done nearly everything." Inquiry elicited the fact that Mr. Hall, in addition to his duties as superintendent, will act as tutor to the ladies. This naturally raises the question whether the directors will in point of fact boss the superintendent or whether the superintendent will boss the directors.

However all this may come out, the ladies have launched their venture and their progress will be watched with interest by every one in the oil business. All will wish them success. May they get gushers without end and contracts with the Standard for 190 years at $1 a barrel.

Coyotes and Fullerton.

Within the next ten days or thereabouts the Murphy Oil Company will start its third well in the Coyote hills where it already has two flowing producers. The second of these gives a fine 22 gravity oil.

The third well will be about three-quarters of a mile west of No. 2, nearer on a direct line with the Union's sanctuary well. In this no oil has been found, but this does not discourage as a much greater depth was expected before striking it.

The Union has just brought in its well No. 35 near the Columbia in Fullerton, and it is flowing at a good rate, the output being roughly estimated as probably being about 1500 barrels a day. Oil is about 22 gravity.

Contract Not Yet Closed.

The Western Union Oil Company says that, contrary to the reports sent out from Santa Barbara, it has not yet signed any formal contract for the sale of its oil, although it expects in all probability very shortly. According to present expectations the output will be approximately 10,000,000 barrels to be divided between the Standard, Associated and California companies, Ltd.

The Santa Barbara reports were premature rather than inaccurate, although some had the entire amount to the Standard, and most of the oil printed in the papers of that and others on the Coast as usual included the Associated and the Standard. The inability of some of the men to distinguish between companies is sometimes amusing to oil men. The fact that the Associated has frequently acted in harmony with the Standard is taken by them as sure proof that the two are one and each is unduly given credit for the other's work. No doubt the Associated would have appeared if it only did have the Standard in as close relationship as some of the papers think.

In the Coast Districts.

The New Huasna Oil Company has met with such success in its first well that it has ordered four more rigs for immediate use.

The Associated has just finished its line to Santa Maria pipe-line, so that it is about ready to take oil as soon as contracts are concluded.

The notice for the month of May show that out of the 1,000,000 barrels shipped from Santa Maria only 10,000 went by rail.

The Pacific Oil Company has just struck oil in its first well at Edna Station just north of Arroyo Grande.

Cave-in at Newport.

The Newport Bay Company has had a cave-in, this time in well No. 6, caved down some 400 feet. This has been bailed and work is proceeding. The first well work has not been touched and the third is only started.

New Coalinga Company.

The Yosemite Oil Company, which operates at Coalinga, has just filed incorporation papers in this city. It will have offices in the Citizens' National Bank Building. The capitalization is $1,000,000. Directors are W. B. Guthrey, J. R. Higgins, J. B. Henderson, A. G. Nichols and Wm. Wynn.

The Section Six Oil Company has been completed and will perforate its well in section 6 at once.

PROSPERITY CONTINUES.

NEW YORK, June 26.—[Exclusive Dispatch.] William Rockefeller, when asked what he thought of business said to a reporter today: "I think the situation which has prevailed for several months past, is wearing itself out very rapidly and that the prospects for the future are good. I think signs of a general reaction in business, the railroads, their earnings continue to make astonishing showings, however, it would be a great surprise for them if their business should fall off 10 to 15 per cent. lower. I think there would be more profit for the railroads, as there is more business can be handled economically.

THE CITY IN BRIEF

NEWS AND BUSINESS.

A San Diego Bankrupt.

Howard M. Knapp of San Diego filed a petition in bankruptcy in the United States District Court yesterday. His liabilities amount to $2241; assets are nominal.

Looks After Indians.

Miss Estelle Reel of Washington, Superintendent of Indian Schools, arrived in the city yesterday. She registered at the Westminster. She went to Riverside to visit Sherman Institute.

Better Nevada Mail Service.

Mail for points in Southern Nevada, which heretofore has gone by way of Reno, is now sent direct over the Salt Lake railroad and Las Vegas & Tonopah to Goldfield, and other towns. This reduces the time of service from thirty-six to twenty-three hours.

Veteran's Plight.

Joseph McQuinlin, an old soldier and member of the G.A.R., was found wandering about Main street, near Seventh, last night, in a dazed condition. McQuinlin claims that his home is in Albuquerque, and that he is bound for San Diego, where he owns property. At times he believes that he is with the Federal troops on a southern battlefield.

New Lankershim Clerk.

A. S. Lee, formerly chief clerk at the Lankershim, has resigned his position. It is now filled by H. O. Henderson, who has been a clerk at the hotel for the past two months. Mr. Henderson has been in the hotel business for a number of years. He was connected with one of the leading New York hostelries and also owned a hotel for some time. He comes to the Coast because of the climate.

Jumped Too Soon.

Carlo Oddenco, a laborer, residing at No. 362 Leroy street, leaped from a swiftly-moving car at Main and Sotello streets last night and was hurled to the pavement. Oddeneo was removed to the Receiving Hospital in a semi-conscious condition. He had sustained several lacerations and abrasions on the face and his body was badly bruised. He was also suffering from concussion of the brain.

Crippled Boy Missing.

John Fries, a jeweler, residing at No. 1017 West Seventeenth street, reported to the police last night that his ten-year-old son, Robert, who is a cripple, left home early in the day and up to a late hour could not be located. The lad attended the Seventeenth-street school in the morning and was seen about Chutes Park during the afternoon. All patrolmen have been notified and given a description of the child.

Woman Unfortunate.

Mrs. Eduardo Chavez, an aged Mexican woman, was found asleep on the front porch at No. 123¾ North Main street, last night by a patrolman and was sent to the City Jail for lodging. The woman appears to suffer from dementia, believing persons desire to kill her. Some weeks ago she came into the lime light through the efforts of a yellow journal to create a mystery. The story told of letters foretelling her death. After publication of the stories the woman was "found" by a "special commissioner" two doors from the house from which she was supposed to have disappeared.

Off on Wrong Side.

As James Hanley, a carpenter residing at No. 110 West Thirty-first street swung from an in-bound Redondo electric car at Fortieth street and Grand avenue last night and alighted safely between the rails of the out-bound track, a swiftly-moving Dalton-avenue car struck him and hurled him from the track. He sustained bruises about the face, body and limbs, and slight concussion of the brain. Hanley was removed to the Receiving Hospital. He could not remember any of the incidents of the accident. His injuries are serious but not necessarily fatal.

Finds His Relative.

Through The Times George Kennedy learned that his uncle, D. C. Kennedy, 86 years old, was being cared for by the police pending the attempt by the officers to locate the nephew. D. C. Kennedy is very feeble and recently disposed of his property in Eastern Oregon and came to Los Angeles, arriving Tuesday night. He was removed from the Los Angeles-Pacific depot on Fourth street. The police learned that George Kennedy, the aged man's nephew had moved from No. 1210 Temple street to another part of the city. The police could find no trace of the nephew, who is a car inspector for the Southern Pacific, but last night Mrs. Kennedy notified the police by telephone that she had read of the case in The Times and would call for Kennedy.

New England in Eastlake.

The New England Society of Southern California will celebrate the Fourth of July at Eastlake Park with literary and musical exercises, commencing at 10 a.m., followed by a basket picnic. The programme will include: Song, "The Star Spangled Banner," Mrs. Maud N. Lyon, soprano; reading of the Declaration of Independence, Dr. Sherwin Gibbons; address, "The Flag," Rev. George E. Soper; song, "The Sword of Bunker Hill," Charles Lamb; "The Continental Congress," Will A. Harris; address, "The Declaration of Independence," Rev. C. Elwood Nash. On the Committee of Arrangements are: Charles W. Kinsley, H. A. Palmer, W. D. Fuller, Dr. I. R. Bancroft, C. L. Neale, Mrs. T. J. Butler, Mrs. Waldo M. York, Mrs. Ida S. Newbre, S. B. Smith, Dr. Sherwin Gibbons, Will D. Gould, D. L. Durand, H. W. Chase and H. M. Loud.

BREVITIES.

$3.50 to $5 eyeglasses and spectacles only $1.50. Best A1 periscopic crystal reading lenses in a ten-year gold-filled frame, scientifically fitted to your eyes, only $1.50. Two opticians in attendance. Satisfaction guaranteed. Consultation free. Clark's Optical Parlors, 251 S. Spring street, opposite Hellman Bldg.

The advertisement og Hollywood Park Place auction in yesterday's Times should have stated that free railroad tickets and maps of tract may be obtained at the offices of the agents, Otto Weld & Co., and the W. A. Roberts Realty Co., 614 S. T. Johnson Bldg., Fourth and Broadway.

J. W. Frey has moved his stock of mantels, grates, tiles and andirons to his warerooms, corner Los Angeles and Twelfth streets, where can be seen the largest assortment of black and brass fireplace trimmings to be found in the United States.

Only two days more of our removal sale of jewelry and hand bags. This sale will long be remembered as the low water mark in jewelry values in Los Angeles. One of our extra specials. High-grade hand bags at $2.50 worth up to $6. Fleming Co., 441 S. Broadway.

Dollar shoe sale bulletin. We are now in our new quarters on the top floor. Men's, women's and children's shoes, $1 the pair. Top floor Bryson Block, Second and Spring.

No use to go without pictures when we are selling them at cost. J. F. Kanst Art Co., 642 S. Spring.

Stimulates liver, Orange Mineral Table Water, 5 gallons, 40c. Both phones. Idyllwild now open. You should go.

Furs. D. Bonoff, furrier, 212 S. B'way.

ASYLUM OF LOS ANGELES COMMANDERY No. 5, K.T., Los Angeles, Cal., June 26, 1907. Sir Knights: You are requested to appear at our asylum, in full Templar uniform, Thursday afternoon, June 27, at 2:30 sharp, to attend the funeral of our late frater, Sir Max Nickel. By order of the Commander.
W. B. SCARBOROUGH, Recorder.

FORMER "COP" ASSAULTS WIFE.

She Causes Arrest—He May Be Examined as to Sanity—Discharged for Drinking.

W. A. Strode, for many years a patrolman, was arrested last night at First and Los Angeles streets on the charge of attempting to murder his wife at their home, No. 715 Turner street, on Tuesday night. He was detained in the City Jail last night and is said to be insane.

About a year ago Strode was removed from the Chinatown squad and placed on a South Broadway beat. Rumors had been afloat that he was addicted to drinking while on duty and soon after he was placed on a beat he was suspended and discharged for drunkenness.

Shortly after his discharge from the police force, Strode was sent to the County Hospital on a charge of insanity. Later he was released and started a restaurant on East Fifth street. He went to San Francisco but returned a few days ago and going to his home on Turner street, created a disturbance.

According to the police, Strode knocked his wife down and after beating her with his fists, assaulted her with a chair. He was under the influence of liquor at the time, it is said. A warrant was secured at the District Attorney's office. The police say Strode has assaulted his wife on several previous occasions.

VITAL RECORD {BIRTHS. DEATHS. MARRIAGES. DIVORCE.

Deaths.

WARWICK. At Providence Hospital, Oakland, Cal., June 13, 1907, Mrs. Nora A. M., wife of John W. Warwick, aged 46 years 11 months 29 days.

M'REYNOLDS. In Los Angeles, June 26, Lutitia McReynolds, wife of Robert M. McReynolds, and mother of Loran McReynolds, Mrs. Lizzie Gilbreath and Mrs. F. M. Smith. Funeral private, at Rosedale Cemetery. (Springfield, Mo., papers please copy.)

WILLIAMS. On June 25, at 12:00 o'clock a.m., Harriet, beloved wife of Lewis Williams, formerly of Bisbee, Ariz., and mother of Mrs. James S. Douglas of Nacozari, Sonora, Mex. Funeral from residence, No. 1825 Harvard boulevard, on Thursday, June 27, at 3 p.m. Interment at Rosedale Cemetery.

ASHTON. In this city, Henry Ashton, aged 50 years. Remains at Sutch's funeral chapel, No. 342 South Figueroa street. Interment, Lehi, Utah.

MAINS. In this city, June 24, Blanche M. Mains, aged 31 years. Funeral services will be held at chapel of Bresee Bros., 855 South Figueroa street, at 1:30 today.

Elbow Length Gloves $1.95
50 dozen long kid gloves in black only; 12-button length; extra special, Friday and Saturday, $1.95.

The Biggest Kind of a Change that Ever Happened to Any Magazine Has Happened This Month to
THE SCRAP BOOK

THE SCRAP BOOK for July is issued in two sections—two complete magazines, each with its own cover and its own table of contents. One of these sections is an ALL-ILLUSTRATED magazine; the other is an ALL-FICTION magazine. Each is a mammoth magazine in itself. The one presents an overwhelming array of human interest articles and illustrations; the other an enormous tonnage of fiction—160 pages of absorbing stories.

Ten years ago I created a new type of magazine—the ALL-FICTION magazine. Now I am creating another distinct type—the ALL-ILLUSTRATED magazine. This is the age of specialization. The conventional magazine, with its smattering of illustrations and its smattering of fiction and its smattering of special articles, doesn't contain enough of any one thing to make it satisfying. The ALL-FICTION magazine and the ALL-ILLUSTRATED magazine, joined together as a unit, strengthen each other, and make something really big and forceful and convincing.

The Only Way to Know a Thing is to Try It

The two-section magazine idea is brand-new to the world. It is not quite new with me, however, as I have given it, at odd times, four or five years of thought. It first came into my mind in response to a desire to couple in some way the strength of the all-fiction magazine with the illustrated features of the conventional magazine. It has been a difficult problem to work out. Now that the idea is perfected, I wish to see what there is in it. It looks to me to be very good, but the only way to know a thing is to try it.

Two Magazines for a Quarter—Easy Money

The price of this two-part magazine is twenty-five cents, which is equal to twelve and one-half cents a magazine. Most magazines which were selling at ten cents have been advanced to fifteen cents. THE SCRAP BOOK in two parts means two magazines for twenty-five cents against thirty cents for two fifteen cent magazines.

Baldwin Refrigerators for Government Hospitals
...Twenty-Second Year...
The Baldwin Refrigerator Company has been notified that its proposal to furnish the U. S. public health and marine hospital service with refrigerators for the current fiscal year has been accepted, making the twenty-second consecutive year that this important branch of the government service has adopted the Baldwin dry air refrigerator for use in all its hospitals and quarantine stations. So highly were these refrigerators regarded by the surgeons and stewards as far back as 1884-1885, that one of them was included in the government exhibit at world's exposition, New Orleans, marked "Standard refrigerator for hospital use."—Burlington Free Press, August 18, 1906.

1/4 OFF 4 PIANOS
So great has been the success of this sale that of the seventy-five pianos first offered, we find our- selves with only two each of Kranich & Bach and Sohmer, and the other makes—Emerson, Hunting- ton, Estey and Mendelssohn, selling very rapidly. If you desire a Kranich & Bach or Sohmer, don't put it off any longer, because it is a matter of hours when these pianos will be closed out. We been telling you for several days past that several styles be sold. In order to do this quickly, prices have been cut a quarter—$400 pianos for $300; $600 pianos for $450— prices, some higher, some lower. And we are making you the terms on these reduced instruments as if you bought at regular $6, $8 or $10—according to the make you select—is the monthly ts we are asking.
Now, can you afford to overlook this piano offer? The sale cannot last longer, because only seventy-five instruments were offered in this place, and we've been doing a big business ever since. So make your business to come in today.

MAY ADD WEEK TO VISIT OF TEACHERS.

Too Much Fun Sandwiched Into Work of Educational Association, Vanguard of Which Arrives, and Extended Programme Is Considered.

SHALL the official programme of the National Educational Association convention, to meet here one week from next Monday, be curtailed to afford opportunity for the entertainment of the visitors, or shall the entertainment programme be cut?

Members of the local general and subcommittees sat on the horns of this dilemma yesterday. With them sat Irwin Shepard of Winona, Minn., secretary of the association, who reached here yesterday morning, ready for business.

The startling discovery has been made that if the thousands of school teachers and other visitors attend the scores of educational sessions during the week, they cannot enjoy the entertainment that has been provided for them.

If they follow the entertainment programme, they will have but little, if any, opportunity to partake of the feast of reason to be supplied by many of the greatest educators of the country.

It was said after the local meeting yesterday, that an effort would be made to postpone the entertainment features until the close of the first week, thus extending the convention season to two weeks instead of one.

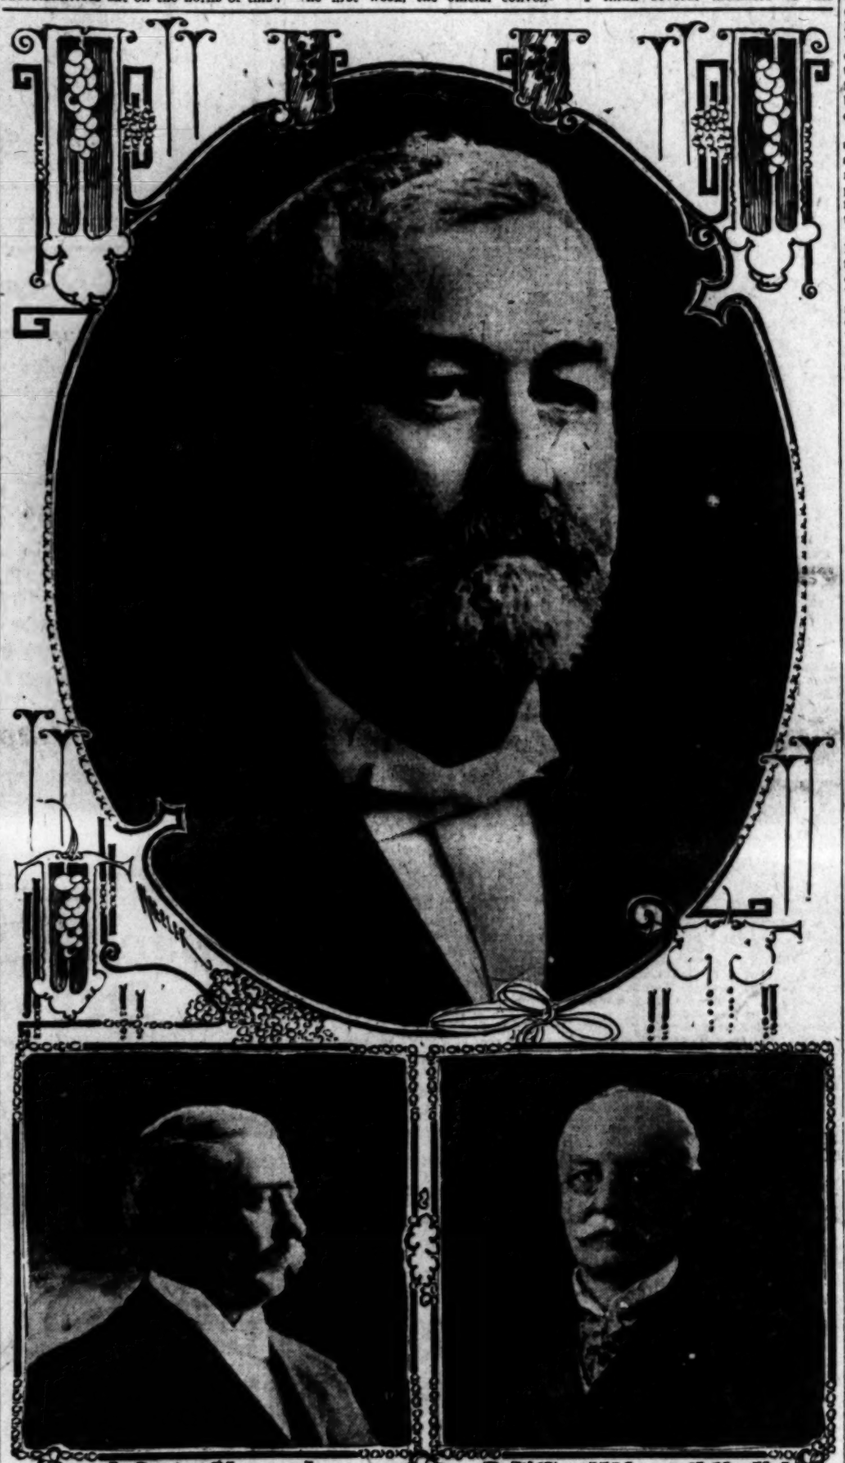
The first week, the official convention would open as already planned, on the morning of July 8, and close on the afternoon of the 12th. After that the visitors would be free to follow their own bent, and with the entertainment week ahead of them, would be able to see all the sights without feelin that they had missed some of the strong features of the convention.

ONE CHANGE, AT LEAST.

It was practically decided that one change in the entertainment programme will have to be made; that Council were desirous that I should be retained on the board, but personally I was in no way desirous of the place. This probably accounts for the hesitation some members of the Council manifest about confirming the new nominees. I am sure they will see the propriety of voting for Mr. Norton and Gen. Matthews, who will give the city excellent service."

J. W. Eddy of the Angels' Flight has been confined to his home five weeks by an injury to his left foot, which at first appeared trifling. It is believed he will be out soon.

(Continued on Seventh Page.)



President Nathan C. Schaeffer of Harrisburg and the other officers of the National Educational Association. Dr. Shepard arrived yesterday ready for business.

APPROVES OF SUCCESSOR.

John H. Norton Will Be a Valuable Member of the Water Commission, Says Mr. Elliott.

J. M. Elliott, retiring member of the water board, thoroughly approves the appointment of John H. Norton as his successor.

Mr. Elliott said yesterday: "The name of Mr. Norton came to me as a great surprise. I had heard no mention of him until Monday. The appointment commended itself to me at once.

"I understood he had been using all his influence to have me retained on the board. When the place was offered to him, he refusing to accept the appointment, saying I was his choice. Learning this, I went to Mr. Norton, and, with all the force at my command, urged him to accept. For some time he stood out, but finally consented to take the place.

"The city has every reason to be congratulated at this outcome. Mr. Norton will be very valuable on the board.

"I think several members of the

INSULTS NAVY AND SWINDLES.

"Capt." Clover's Career of Crime Clever.

Impersonates Officer to Win Victims' Confidence.

Dangerous Character Now in Federal Grip.

Howard C. Clover, one of the most successful swindlers who ever operated in this city, has finally been brought up with a round turn by indictment by the Federal grand jury. He was arrested at Oakland by Deputy United States Marshal Moffat, on the charge of impersonating an officer of the United States navy. He is wanted in San Francisco on a similar charge but will probably be brought to this city within a few days.

Clover gave away pictures of himself taken in the full dress uniform of a captain in the navy. During his career, "Capt." Clover has used every possible kind of bunco scheme and has filched thousands of dollars from victims all over the country.

His latest swindle was to induce Francis Ormand, a mining man, to invest about $30,000 in a scheme to operate packets on the Colorado River. With a fine address, spurious recommendations and a hypnotic manner, Clover soon induced Ormand to invest. When he became aware that he had been badly "stung," Ormand made such an ado about the matter that "Capt." Clover refunded a portion of the cash.

GUNS SPIKED BY LAWYER.

While in this city, Clover engaged in two successful swindles and would have made at least $10,000 on a third deal, had it not been for advice given to the prospective victim, a Mr. Bell, by Oscar Lawler.

Clover had represented to Bell that he owned a tramp steamer and wished to engage in the coastwise fruit business. He said he needed just $10,000 in order to stock the boat and secure consignments of fruit from South American ports.

Wiser than some men, Bell went to his attorney. Mr. Lawler recommended caution, and, when convinced of Clover's dishonesty dissuaded Bell from embarking in the scheme.

Clover represented to prospective "lambs" that he had seen active service in the navy in the Spanish war. He told about the campaigns and modestly spoke of wounds received in desperate affrays. He said he was in command of one of the auxiliary steamers, but many do not hesitate to assert that "Capt." Clover never smelled powder unless when fired at by some policeman in pursuit of him.

When he appeared in this city, Clover used letterheads bearing the caption: "Clover Line of Steamers." He said that, after the war, he went into the West India fruit business but was frozen out by the fruit trust. This left him with a fine steamer, he said, but with little ready money.

It was ready money that he was after.

Failing to victimize Bell, the "captain" fell in with a negro, Jamison by name. To him he unfolded a splendid scheme to gain thousands of dollars. It was very simple. He said he owned a small steamer and needed about $1000 to outfit her for the Central American trade. He said hundreds of tons of valuable copper could be picked up around Panama, brought to San Pedro and sold to great advantage. Jamison said he was very sorry but he only had $500. Clover finally thought this sum might do. It was paid over and "Capt." Clover supposedly went to work to stock his boat with provisions. One day Jamison and his wife expressed a wish to see the boat. The obliging owner set a day for the inspection but never appeared.

NEGRO GETS ON HIS NERVES.

Convinced that he had been swindled, Jamison sought legal advice and finally rounded up Clover, who, by this time, had a bigger scheme on hand. The negro succeeded in getting back $300 of the money advanced to Clover.

That worthy was then engaged in something a little out of the usual line of a naval officer. He proposed a grand tour over South America with an American prima donna. He found the singer in Miss Cora Goodell, daughter of H. C. Goodell, a wealthy resident of Glendale. Miss Goodell possessed a beautiful voice. She had received her education abroad and possessed ample means to finance the proposition.

All arrangements were finally made. Miss Goodell purchased the most elaborate outfit money could buy. Her wardrobe cost several thousand dollars, it is said.

IMPRESARIO GAME.

"Capt." Clover said he would go south as advance agent and make arrangements for his prima donna. He disappeared with money enough to last him for months. Nothing was heard from him for some time. At last there came a pathetic letter from the adventurer. He stated that he had been dangerously ill with yellow fever, that he was much better, and would meet Miss Goodell at a South American city, which he named.

Miss Goodell went south by steamer and traversed the section where she was supposedly booked to sing. She did not find her advance agent. Nothing had been done about the tour. There were large bills to pay and members of the small company to satisfy. Miss Goodell returned home with her faith in the dashing "captain" rudely broken.

Clover was generally fortunate in his swindling schemes as his victims, for the most part, refused to prosecute. But it appears he has finally overreached himself and the United States courts have taken up the case with zest. It is rumored that the Washington authorities have telegraphed to spare no expense in the prosecution.

To be an ordinary bunco man is bad enough, but to pose as a United States naval officer and victimize persons by reason of their confidence in the uniform, is much worse. The Federal authorities claim to have a strong case against Clover.

STEALS COFFEE BY WHOLESALE.

CHICAGO HOUSE DEFRAUDED BY LOCAL AGENT.

Bright Plan for His Own Profit Nipped in Bud Through Suspicions of Firm, but He Secures Fifteen Hundred Dollars' Worth of Fragrant Berries, It Is Said.

A carefully organized plan to defraud a large wholesale concern by its Los Angeles agent has been discovered by some sharp detective work. The would-be swindler has fled to Mexico, it is said.

E. C. Glaser, the agent of W. F. McLaughlin & Co., said to be the largest tea and coffee jobbing house in Chicago, devised a scheme to secure coffee in wholesale quantities and sell it for his own profit. Fortunately for the company, the scheme was discovered. Extradition proceedings may be begun to secure Glaser.

Some time ago the man was doing a small commission business on South Los Angeles street. After considerable correspondence he secured the local agency for McLaughlin & Co.

The bags of coffee were to be shipped to a warehouse concern and Glaser was to send in his orders there. The first week business was rushing. Glaser represented that he had secured orders for more than seventy bags and cases of coffee. He sent a wagon around to the warehouse company and secured the goods without any difficulty. But instead of filling the bogus or real orders, Glaser took the coffee to his own store and began to dispose of it as fast as possible.

When coffee was selling at wholesale for 17 cents, Glaser was offering it at 10 cents. In some manner, the Chicago firm became suspicious of their western representative and empowered Attorney Edward L. Payne to make an investigation. The lawyer soon grasped the situation, and made arrangements to have Glaser arrested. The man learned of this and made his escape.

Attorney Payne found that Glaser had planned to go into the fraudulent coffee business on a wholesale scale. It is believed that he intended to allay the suspicions of the eastern house by sending small sums on account and representing that his customers were slow in paying. But by one of those little mistakes that criminals usually make, Glaser overreached himself the first week and aroused suspicion. He is said to have secured $1500 worth of coffee. If he had not been found out it is believed that his thefts would have aggregated thousands of dollars.

Glaser has his picture in the rogues' gallery. It is said he has committed forgery. He is a man of prepossessing appearance and a fluent talker.

The Chicago firm is anxious to press the case and will, it is said, make every effort to secure Glaser's return to this country.

Attorney Payne has traced most of the coffee that Glaser sold and will recover nearly all of it without civil action.

HOLLYWOOD HOMES BURN TO THE GROUND.

FIRE of unknown origin destroyed three residences on Michigan avenue, Hollywood, last night, causing a loss of $10,000.

The fire broke out at 9:30 o'clock in the bungalow occupied by T. C. Watrous and rapidly spread to the adjoining house occupied by E. E. Roessler. The family was aroused by the flames which had rapidly consumed their neighbor's bungalow. They were able to save nearly all of their furniture.

Practically unchecked, the flames leaped across to the residence of E. M. Champion, manager of the Southern California Hardware Manufacturing Company. This building was not occupied.

Shortly after the fire was discovered by Roessler, the entire neighborhood rushed to the scene. The volunteer fire department hurried out their hose cart and laid a long line of hose but the water pressure was not sufficient to send a stream that would reach the burning dwellings.

With hand extinguishers and pails of water adjoining houses and stables were saturated and men were stationed at near-by residences putting out tiny fires that started from the wind-driven embers.

The origin of the fire was not determined last night. It was said that Capt. Watrous, of Troop D, had been away from his bungalow but returned shortly before the fire. He was in the house a few minutes, the neighbors believed, and then went away again. Whether a spark from a lighted cigar had caught in some inflammable substance or whether a lamp exploded, no one seems to know.

Roessler said: "I was awakened from sleep by the crackling of the flames. I rushed to our window and saw the Watrous house a mass of fire. I hastily put on a few clothes and ran out to give the alarm and then went back to our own house to save the furniture. I have not the slightest idea about the origin of the fire. I believe Watrous returned to the house shortly before the fire started."

Roessler had just moved into his house and did not know how much insurance was on the place. The adjoining building, was not fully completed. All three were a total loss and the damage was estimated approximately at $10,000.

A report reached this city about 11 o'clock that the business district of Hollywood was practically destroyed, and a hurry call was sent in to the Los Angeles fire department to send an engine. This was not done. If an engine had been sent from this city it would have arrived too late to be of any assistance, as all the houses burned like tinder, and before midnight nothing was left but a smoldering heap of ashes. There were several society events in Hollywood last night. At the alarm of fire many in the audiences hastily ran to the scene and remained there, interested spectators of what was the largest fire the pretty little suburban city has yet witnessed. The absence of a high wind probably prevented spread of the flames which might have resulted in the destruction of a number of handsome residences on adjacent streets.

THE PUBLIC SERVICE.

SUMMARY OF THE DAY.

Enough Councilmen have signified their intention to vote for Mayor Harper's appointees on the Water Board to confirm the appointment of Gen. John R. Mathews and John H. Norton.

Surgeons say that Blind Tom Collins, the City Hall guide, has answered his last call in the municipal building.

Orders were placed by the Board of Public Works yesterday for $32,000 of machinery for use on the Owens River aqueduct.

Gun men gathered in the Superior Court yesterday, where the Castaic Cañon case is being tried. Testimony revealed a land feud of long standing between the parties to the action. Judge Hutton ordered the visitors to remove their weapons.

"Professor" Frank Donovan completed his story of trickery, yesterday, in the Haddock will contest.

Officers were attacked by bulldogs while attempting to arrest H. B. Roy, who was arraigned in the Police Court yesterday on the charge of driving his auto faster than the law allows.

Heavy fines were imposed upon the Hossman brothers in the Police Court, yesterday, for beating a policeman.

AT THE CITY HALL.

COUNCIL FOR MAYOR'S MEN.

READY TO CONFIRM WATER BOARD APPOINTMENTS.

Technical Error in Notification to Councilman Clampitt of Special Meeting Prevents Action at Yesterday Morning's Session—"Express" For Recall.

Enough votes have been promised to confirm the appointment of Gen. John R. Mathews and John H. Norton as members of the Water Board. But for a technical error in notifying Councilman Clampitt of a called meeting of the Council the confirmation would have taken place yesterday morning.

Shortly before noon Healy and Dromgold signed a notice that a special meeting of the Council would be held at once for the purpose of reconsidering the vote by which action on the Mayor's appointments was delayed for one week, "also to consider and take such action upon the confirmation of said John R. Mathews and John H. Norton, as members of the Board of Water Commissioners, in the event that the Council at said special meeting determine to reconsider its action heretofore taken as aforesaid in deferring the matters of confirmation for one week."

Following an ancient precedent, Councilman Clampitt was notified by 'phone of the call; he responded by 'phone that it would be impossible for him to attend, but he expressed himself in favor of immediate confirmation.

When the Councilmen took their seats for the special meeting, Wren raised the technical question of whether all members of the Council had been notified in accordance with the provisions of the charter. There were two vacant chairs.

The clerk said that Blanchard is out of the city on his vacation and that it was impossible to serve personal notice on Clampitt, but that the latter had been told of the meeting by 'phone.

City Attorney Hewitt ruled that Clampitt's notification was not in accordance with charter provisions and said that, in his opinion, any action taken by the Council would be invalid. This settled effectually the attempt to secure a confirmation at the special meeting.

Mayor Harper said last night that he feels confident his appointments will be ratified by the Council without a dissenting vote.

"Not a legislator has ever questioned the fitness of the men for the places," said the Mayor. "One Councilman is away from the city on a leave of absence. I expect my appointments to be confirmed by eight votes."

Wallace and Wren still decline to state publicly whether they will vote for Gen. Mathews and Mr. Norton, but Mr. Wallace has expressed himself as feeling certain that both men would make excellent water commissioners.

Warned that a special meeting was in progress, E. T. Earl hastened to the City Hall to give orders to the nonpartisans to vote against confirming the Mayor's appointees. He did not reach the municipal building until the session had adjourned and the Councilmen had gone home.

But he strode into the private office of Mayor Harper and threatened the Chief Executive with the wrath of the Evening Express because he failed to obey Earl's order to withdraw the two names submitted.

Last night it was reported at the City Hall that Earl has summoned his political lieutenants, the walking delegates of the labor unions, and ordered them to get out their old recall petitions. He is going to recall somebody muy pronto unless the Council disclaims publicly any intention to confirm the Mayor's appointments.

FOR CEMENT PLANT.

BOARD MAKES AWARDS.

Contracts were awarded yesterday by the Board of Public Works for a portion of the machinery to be used in making cement for the Owens River aqueduct. Following the recommendation of the advisory board the commissioners placed orders for the major portion of the machinery construction with the Pacific Coast Manufacturing Company. One small order for electrical machinery went to the California Electrical Company.

About $32,000 of machinery was ordered yesterday; bids for almost a like amount were rejected and the board will readvertise under changed specifications.

The Pacific Coast Manufacturing Company is to furnish the following machinery:

Two water tube boilers, having 5000 square feet of heating surface each, for $12,625.

Two water tube boilers, having a heating surface of 3500 square feet each, for $8925.

Nine seventy-five-horse-power motors for $3060.30.

Seven thirty-horse-power motors for $2,762.70.

Two ten-horse-power motors for $466.70.

One two-horse-power motor for $54.-70.

Bids for sand and gravel pumps and for other electrical machinery were rejected.

Bids for these supplies were received more than a month ago. There has been a lively wrangle among the agents of the different companies over which was the real low bidder. Before making final awards the Board of Public Works conferred with the advisory commission and with the Water Board.

BLIND GUIDE'S LAST CALL.

PLACE AT CITY HALL VACANT.

Blind Tom Collins, the City Hall guide, will probably sit no more at the foot of the main stairway of the municipal building, directing scores of visitors each to the department he is seeking.

W. C. CHORMICLE.

JOSE MAYONACELAYA.

Principals in a cattle case which brought several armed men into court yesterday.

Collins is in the hospital undergoing a surgical operation, the outgrowth of an injury he received six weeks ago while making his sightless way about the corridors of the City Hall.

Collins is a member of the corps of volunteer firemen who protected the city's property in the days before steam fire engines and Board of Underwriters. He left the fire department for the water department just in time to lose his place on the roll of those entitled to a pension for service in the fire force.

The blind guide knew the City Hall as it is known to no other man. He went from department to department and from floor to floor showing visitors the way; and not one caller in a hundred discovered that his guide walked in the dark.

About a year ago C. D. Willard, secretary of the Municipal League, decided that Collins was not worth his hire and demanded that the place should be abolished. Failing to secure this he insisted that a civil service examination should be held for the place.

The examination was called, but no man in Los Angeles would enter a competition to take the place of guide from blind Tom Collins. The Civil Service Commission declined to pass Collins by reason of his loss of sight, and he has been retained by temporary appointments. His salary was fixed at $3 a day, the cheapest help in the employ of the city.

Several weeks ago a caller, hurrying out of one of the city offices, bumped into Collins, knocking him against a sharp cornice. Complications set in and surgeons say that Collins will never return again to his chair in the main corridor at the City Hall, that he is now on his way to the undiscovered country.

While he lies in a cot in a hospital the Finance Committee of the Council is discussing the advisability of abolishing Collins's Place.

Councilman Blanchard has requested his fellow committeemen to wait; he asks that the blind guide's position be permitted to die with him.

AT THE COURTHOUSE.

INVITED TO GIVE UP THEIR GUNS.

ARMED MEN IN SUPERIOR COURT REBUKED BY JUDGE.

After Weapons Are Laid Aside, Cattle Case from Castaic Canyon Is Resumed—Witnesses Agree Reputation of One Claimant for Damages Is Bad—Defendant Testifies Today.

"Bad," was the answer given by several witnesses yesterday in the cattle case from the Castaic Cañon, when they were asked as to the general reputation of Martin Urtasan, one of the plaintiffs in the damage suit against W. C. Chormicle.

"Bad," in another sense, was the impression given by a number of men who had gathered to watch the progress and learn the outcome of what appears to be a Castaic Cañon feud transferred to a court of law. They seemed to be types of "gun men" which have almost disappeared in the New West.

Judge Hutton, from the bench, looked thoughtfully over the gathering, and then asked a question of some one who knew something of the surviving customs in the dreary Castaic hills.

"I have learned," said the judge, "that several of those in attendance on this trial carry weapons. This may be necessary in Castaic Cañon, but it will not be tolerated here. The court will take a recess for five minutes to allow all to lay their weapons on the bailiff's desk. If, after that time has expired, any one is found to possess a revolver, he will be punished for contempt of court."

Silence followed the edict of the judge, and the men from the cañon where the Old West has survived, looked at one other. One by one several of them arose and made a soft-footed exit from the courtroom, while the clock above the bailiff's desk ticked away the five minutes of grace. At the end of the recess there were no weapons on the desk, but the audience was distinctly smaller than before. Little by little, however, it was swelled to its former size. The men, returning, looked as if each had lost a friend.

Though the case, ostensibly, was simply an action for damages for alleged false arrest, and injury to reputation of the two plaintiffs, who had been charged with stealing cattle, a great deal of time was taken up yesterday with a quarrel over the title to some land in the cañon. Mrs. Urtasan, for many years, has claimed a part of section 36, which lies within the boundaries of the forest reserve. Chormicle has opposed this claim, insisting on his right to pasture cattle on the land under a government permit to graze his stock on the reserve.

Robert Clark, a forest ranger, testified that the boundaries of land in section 36 were not well understood.

Asked if he had ever heard the reputation of Urtasan discussed in the cañon, and who had talked of it in his hearing, he answered that it would take less time to say who had not discussed it.

"And what was that reputation?"

"Bad."

W. C. Karse, engineer on a pumping plant maintained by mining interests on section 36, testified that Urtasan and Mayoncelaya had talked to him of the cattle grazing on the land claimed by Mrs. Urtasan a week before the animals were finally driven away by the pair.

"They said they were Chormicle's cattle," he testified, "and that they were going to take them up."

It was not until Chormicle had gone on a visit to Santa Paula, it seems, that the pair put this threat into execution. Perhaps they were thinking of the grim fashion in which the old man had defended his claim in the cañon seventeen years before, when two lives paid the penalty of an attempt to jump his claim.

Attorney McKelvey for the plaintiffs demanded of the witness if it was not the purpose of the government to nullify the claims of homesteaders within the boundaries of the grant. Ranger Clark answered in the negative, and the judge asked Mr. McKelvey if he intended impeaching the United States.

Counsel retorted that his only intention was to impeach "Chormicle and his heelers."

Wrangles between counsel were frequent, for they seemed to have caught the spirit of Castaic Cañon, and several times they were rebuked by the judge.

Another witness was asked who had said the reputation of Urtasan was bad.

"Every respectable person in the cañon," he answered decidedly.

Testimony was received to the effect that Urtasan and Mayonacelaya had not been in the habit of carrying guns, but that they had carried either shotguns or rifles while driving Chormicle's cattle down to the Newhall ranch pasture, on August 14, 1906.

Mrs. Chormicle took the stand and testified that José Mayonacelaya and Martin Urtasan had not told her and her husband, on meeting them on the road to Newhall, of the taking up of their cattle, as both men testified yesterday. The first intimation that their cattle were not where they had left them, she said, was when some one in Newhall told them of seeing the two Mexicans, armed and driving the herd.

"We saw them on the way back," she said, "and my husband asked Urtasan why he was carrying the gun. He never carried one before or since, that I know of."

"Didn't he ask what had been done with the cattle?" counsel asked.

"No. We drove on." The witness could not say why her husband did not speak of the cattle.

The picturesque old man will take the stand this morning in his own defense.

MORE ABOUT "SPIRITS."

"MEDIUM'S" STORY ENDED.

"Medium Donovan" (Harry M. Finley) left the witness stand yesterday afternoon, his story of the merciless duping of a bereaved old man completed, and passed at once from the courtroom without a glance at the attendants on the trial, some of whom had known him and believed in the claims he had made.

The self-confessed faker had been subjected to a scathing cross-examination by counsel for those whom the "medium's" story had put in such a sorry light. They sought to wring admissions from him which would lay him clearly liable to prosecution on a criminal charge, in having connived at the manufacture of grounds for a prearranged divorce. The man who had planned the "spirit" messages which controlled the weakening mind of Charles G. Haddock for years, proved clever, and evaded the traps.

J. H. Seek, a mining engineer, was the next witness called.

"I met Charles G. Haddock in the fall of 1899, at the Rosslyn," Seek testified. "He had called me to consult about mining properties he had secured. He told me that at one place, in an out of the way part of Arizona, there was a mountain of gold. The spirits had told him, he said, and he knew it was true. He said no one had ever found the wonderful gold mountain except the spirits, and they had told him. He showed me slates on which the messages were written."

Dr. William E. Prichard, who had known Charles G. Haddock well, told of a meeting with the deluded old man on Figueroa street a short time before his death.

"His mental condition was bad," the witness testified. "He was possessed with the idea of spirit guidance. He told me it was the greatest satisfaction he had ever had, to be able to communicate with Sadie. He said he was guided by her in all his transactions."

Asked if Haddock had spoken of his then wife, Cynthia Willet Haddock, the witness answered:

"Yes, he said she was developing as a medium, and could get messages for him from the spirit land."

Justina Fuller, former wife of Frank D. Haddock, who is one of the contestants in the present action, was the first witness for the defense.

"In Cleveland I asked Charles G. Haddock if Frank's father was his son," she testified, "and he said no, that he was the son of his wife, his stepson."

This witness stated that Mrs. Nagley, mother of Frank D. Haddock, and Mrs. Whitsett, had said the same thing to her, Mrs. Nagley adding: "My husband's real name is Delamator."

This is in flat contradiction of the testimony given by Mrs. Nagley for the plaintiffs, at the opening of the trial.

WILCUT TRIAL BEGINS.

MURDER THREATS ALLEGED.

More than an hour was consumed yesterday, in Justice Stephens's court, in trying to get started the case of R. B. Wilcut, who is accused by Mrs. Wilcut of making threats to murder her.

Counsel for the defense insisted that Mrs. Wilcut was disqualified to testify by the fact that she is still legally the wife of the defendant, having secured her interlocutory decree of divorce only last December. Statutes and cases were quoted to show that a wife may not testify against her husband except in cases of violence committed against herself.

Deputy Dist.-Atty. Dohnell maintained that threats to murder constitute violence, and that physical force is not necessary. Finally the case was continued to give the District Attorney's office time to examine authorities.

Wilcut was locked in the smoke house at his wife's home on Boyle Heights, it is said, at the time he is alleged to have made the threats.

JURY LOCKED UP.

PROPER VERDICT DELAYED.

The second trial of William Proper on the charge of murder ended yesterday afternoon and the case was given to the jury shortly after 5 o'clock. At 11 o'clock the jury was locked up for the night.

Proper shot and killed George Speice, colored, about 1 o'clock on the morning of January 19. His defense was that Speice had attacked him with a knife before he fired.

COURTHOUSE NOTES.

BREVITIES MISCELLANEOUS.

WIDOW GETS DAMAGES. Avis Heitman, widow of Theodore J. Heitman of Long Beach, was awarded $4000 damages by a jury, yesterday, in the Superior Court. Theodore Heitman, while driving across the tracks of the Pacific Electric on Anaheim street, April 1, 1906, was struck by a car, receiving injuries from which he died. The widow, in her complaint, alleged that no warning signal was given by the motorman, and that the car was running at excessive speed.

SUES PARTNER. F. Earl Alderson yesterday filed suit against F. O. Brock, Robert A. Smith, Wheaton A. Gray, Donald Barker and William A. Glowers, alleging that a conspiracy to defraud him had been entered into by Brock and Smith. The three attorneys, made parties to the action, are said to be in possession of a note executed by Alderson in favor of Brock on entering into partnership with the latter in real estate and insurance. Alderson alleges that he was to receive 3499 shares of stock in the H. V. Hoffman-Watson Company, and other considerations, and that Brock failed to keep his part of the contract. The plaintiff asks an injunction to prevent sale of the note and $12,000 damages.

STUDIES END AT OLD ELI.

NEW HAVEN (Ct.) June 26.—The Yale University commencement was observed in Woolsey Hall today. The attendance at the exercises this year was the largest since the bi-centennial five years ago. The degrees conferred by President Hadley numbered 792. Among those who received honorary degrees were United States Senator Knox of Pennsylvania, doctor of laws, and F. Hopkinson Smith, doctor of literature.

BISHOP'S CUP CHOCOLATE

Made in a minute with boiling water

The only chocolate on the market that contains the necessary milk and sugar. Needs only boiling water for preparing.

For sale by all Grocers

This Sixty Inch Desk laid down in your office for

$67.00

This figure is twenty per cent. below the market price. We've just received a half carload of these desks, and must place them quickly.

A Handsome and Very Practical Desk

This desk is, first of all, a good practical working desk—60 inches long, 45 inches high, 34 inches deep—very roomy, but compactly planned.

The wood is either golden oak or birch mahogany, dull finish. Desk has medium low roll, and plenty of drawer room.

It is an exceedingly well made piece of furniture—with five-ply writing bed, a guarantee against warping—hard wood sides to drawers, which are finished inside—all joints dovetailed.

Among the special conveniences are a card drawer for desk card system, letter file and locking cupboard. You'll notice this about the desk—the drawers work smoothly, everything is within easy reach, so that what you need is right under your hand. See it today.

...BOARD MUST APPROVE.

...Board of Supervisors adopts ...plans and specifications, it (the ...Supervisors) shall advertise ...the contract shall be let ...to the responsible bidder who ...security for the faithful per... ...of the contract, with sureties ...to the Board of Supervis... ...in amount as that board may fix, this amount to be stated in the advertisement.

It is provided that the Board of Supervisors may reject all bids and re-advertise, or authorize the highway commission to purchase the necessary material, hire laborers, and do the work without letting a contract.

The Board of Supervisors may, on recommendation of the highway commissioners, cause the straightening or alteration of any highway proposed for improvement.

The Board of Supervisors also may authorize the Highway Commission to make contracts, without advertisement, for any part of the proposed work that will cost not more than $1000.

With the consent of the Board of Supervisors, the Highway Commission may hire all necessary engineers, inspectors and superintendents to supervise the performance of contracts, or to have charge of the work done without contracts.

Every six months the Highway Commission is required to file with the Board of Supervisors a detailed statement of proceedings.

A per diem of $5 is authorized for each Highway Commissioner for each day actually and necessarily spent in the discharge of his duties, together with actual necessary traveling expenses, to be allowed by the Board of Supervisors.

It will be seen, according to the above provisions, that all contracts above $1000 are to be let by the Board of Supervisors. This is the milk in the cocoanut.

COLUMBIA TRUST COMPANY

6½ PER CENT

We offer for sale through our Trust Department, high grade loans, made for our own account, secured by mortgages or bonds running for one, two or three years, netting the investor six and one-half per cent. It is an excellent time for investors to place funds at satisfactory rates of interest.

COLUMBIA TRUST COMPANY
311 WEST THIRD.

TEA

Poor tea is the older leaves, not the young ones. There's two much of it.

LONG SLEEP DISTURBED.

East Fifth Street Section Awakens. Number of "Far Out" Sales Also Reported.

One of the first sales recorded in the vicinity of East Fifth street for several months is that of the property on the south side of East Fifth, between Crocker street and Towne avenue. A lot 25x100 feet, improved with a four-story frame flat building, was sold by Walter Rose to R. B. Williamson for $25,000. The purchaser will retain the property, as the building is said to rent for a sum representing a fair percentage on the purchase price.

S. D. Williams has sold to a local investor the northeast corner of Ninth and Lemon streets, the lot being 68x110 feet, with only nominal improvements, for the reported consideration of $10,000.

Samuel G. Marmon has sold to a local investor the property at Nos. 1458-46 San Fernando street. The land is 62½x155 feet, extending through to Weyse street. It is occupied by a two-story brick building, used by the Garvin Cyanide Extraction Company as an ore-reducing plant. The reported price is $26,000.

Elizabeth F. Dawson has purchased from Berry McKelvey the house and lots at No. 5524 Monte Vista street for $6250. The property includes parts of three lots, and is improved with a two-story, eight-room residence.

Clinton E. Dawson has sold to Berry McKelvey two lots on Sixty-eighth street, a short distance east of Long Beach avenue, in the Bryson Villa tract, for $1800. The improvements consist of a small four-room cottage. Mr. Dawson has also transferred to Mr. McKelvey a lot in Hollywood in the Teresa tract, 50x150 feet, unimproved, and a lot 50x150 feet in Strong & Dickinson's High School tract, the price for both lots being $2500.

ELEVATOR COMPANY WINS.

The United States District Court in San Francisco has issued a decree in the case of the Otis Elevator Company against Burton C. Van Emon, enjoining him from infringing the patents of the elevator company. Judge Whitson holds that the Baxter patent is a pioneer invention, and that the defendant clearly infringed the same. This decision confirms the exclusive right of the Otis Elevator Company to manufacture and sell electric elevators, the operation of which is controlled by any kind of an electrical appliance.

TROOP D DISSATISFIED.

Officers Say Espee Kept Horses Too Long on Cars and That Camp Discipline Was Lax.

Troop D returned yesterday from a ten-day encampment at Santa Cruz with the First Squadron. Officers and men alike were in a dissatisfied frame of mind. Southern Pacific officials are accused of not keeping their promises as regards the shipment of horses, and complaint is made of lax discipline. Capt. Watrous said:

"I consider the encampment a great success considering that it was the first time that the whole squadron has been together, but the discipline was not strict enough, according to my own ideas, although I do not desire to criticise the major. Order was perfect in the camp itself, and everything was conducted in the most ideal manner."

Capt. Watrous said that he had made arrangements with the Southern Pacific to transport the horses to Pajaro in twenty-six and a half hours, but that the animals were entrained for fifty-four hours. He further stated that he received a report from the guard which accompanied the horses that the engineer of the train seemed to take particular delight in shaking up the animals as much as possible.

"It was the intention of Capt. Watrous to take his troop across country from Pajaro to Santa Cruz, but the horses were in such miserable condition, he said, that they were unfit for service for twenty-four hours.

DAYLIGHT and night fireworks at Redondo, July 4. Largest display on the Coast. A day-long programme and not an idle minute.

Shoes for One Dollar.

We are now in our new quarters on the top floor. Men's, women's and children's shoes, $1 the pair. Dollar Shoe Store, top floor, Bryson Block, Second and Spring.

NEWEST and finest pavilion on the Coast opens at Redondo Beach, July 4.

Ladies' 75c jewel set combs, special 29c.

25c sterling silver hat pins, special each 9c.

Pre-Inventory Prices Save You a Third or a Half

When we say that prices which prevail during this Pre-Inventory Sale are from a third to a half less than actual value, we mean that the same goods sell usually for nearly or quite twice as much. Prove that statement today—the following goods are specially priced for Thursday:

1000 Yds. of Velvet at 1-3 Value

The greatest velvet value ever placed on sale in this city will be offered today at 48c a yard. 1000 yards of silk velvet bought for fall were shipped sixty days before wanted. Rather than invoice them, the entire lot will be sold at 48c instead of $1.50. We look to the manufacturers to make good the loss.

48c
$1.50 VALUES

$1.50 Velvets at 48c a Yard

Included are lines of silk velvet, silk paon velvet and chiffon velvet in black, brown, russet, red, wine, navy, green, gray, tan and all new fall shades. It is an unprecedented opportunity for purchasing velvets for autumn wear, a season when velvet waists will be the decided fashion. $1.50 velvets reduced to 48c yard.

Entered at the Los Angeles Postoffice for transmission as mail matter of the second class.

PART II: EDITORIAL, LOCAL AND BUSINESS SECTION

Pen Points

What Central America lacks is centralization.

Another thing that San Francisco suffers from is a clubsidized press.

King Carlos is on the road to have his name changed to King Careless.

A "paternal government" is one in which everybody works but father.

San Francisco may at last become known as "The city that God forgot."

The hopeless thing about the case of San Francisco is the pitiable cowardice of her people.

It is noticed that just as soon as Washington got its back up Japan got its back down.

San Francisco is not ruled by Supervisors or by Mayors, but by brickbats and steel knuckles.

There is certainly money in making people laugh. Take Mark Twain and William J. Bryan, for instance.

Rudy Spreckels is said to be an idealist and a dreamer. His time for waking up can't be very far ahead.

Central America is destined to become still more famous now that we have sent the Milwaukee down there.

It is hardly to be expected that even religion will lead Gov. Vardaman to invite his brother in black to dinner.

No one has yet guessed who Henry Watterson's dark horse is. Now, honest, Marse Henry, isn't it Booker Washington?

The local bankers are quoted as saying that although money is tight it is very cheap. Finance is nothing if not mysterious.

An English noblewoman says that American girls do not know anything about horses. But you can't fool them on automobiles.

All this talk about the man "higher up" seems to have no reference what ever to the fellow who throws brickbats from the roof.

If there were a law preventing men from marrying until they had reached the age of say 40 years, there would be fewer rich old maids.

John P. Irish has designated Furuseth, one of the five rulers of San Francisco, as a Mongolian. And still the Japs are kicking.

With two Mayors and five real rulers selected by the labor unions, the former metropolis of California has become a city in a class by itself.

The King of Portugal appears to have a desire to rule his kingdom in the same manner that Tweitmoe and Pinhead McCarthy rule theirs.

The people who are opposed to Roosevelt might hold a convention if it were not that there are so few of them and that they live so far apart.

Gen. Funston is taking an active interest in affairs at the Golden Gate, but like every other man who wishes the unfortunate city well, he is helpless.

If the unionites of San Francisco worked as hard to lay bricks as they have been doing to throw them, the stricken city would have been rebuilt long ago.

The report from Albany to the effect that anybody can talk with Gov. Hughes is apparently true enough. Mr. Bryan talked an hour with him a few days ago.

What San Francisco should do is to put herself in the same frame of mind as Funston, who says he doesn't give "a whoop in ——" for the quintette of labor union bosses.

A union bricklayer charges 2 cents for every brick he lays in a day and then stops when he has earned $8, although he might keep on and soak a cowed employer for twice that amount.

A Chicago doctor advises the use of a gargle after the fifth kiss. What he probably means is the gurgle, which injects itself spontaneously at about the fifth kiss without waiting for any old doctor's advice.

The sudden and widespread dislike that Americans acquired for the Japanese has struck Kansas, where a picturesque editor in Wichita describes the brown men as "bumptious, swarthy and pugnacious runts."

It is of no consequence to the public what the nationalities of the men are who compose the labor union oligarchy that controls San Francisco. It has been clear right along that they could not possibly be Americans.

By going to Massachusetts to teach school Benjamin Ide Wheeler could have made $5000 a year more than by remaining in California. But the ante wasn't big enough to drag him away from the middle of the world to a mere outlying and half-forgotten province.

WAY OF THE TRANSGRESSOR.

A year and a day ago Harry K. Thaw was a free man, a rich man, a man who had recently married one of the most beautiful women in America. He was free to go where he wished. He was courted by many, envied by more. He might gratify every reasonable wish of his heart. Had he been content to walk in the circumscribed track marked out by the law of the land and demanded by decent society, how smooth his path had been, how strewn with roses, how lit with light, social, mental and moral! How might not his heart have rejoiced! With what content might he not have gone his way, enjoyed his days and slept on a downy pillow the quiet sleep of the just by night!

Instead of the path of peace and right, Harry K. Thaw chose to follow in the way of the transgressor. He transgressed the conventional laws of society. He transgressed the hygienic laws of his being. At last he transgressed the statute laws of the State of New York and dyed his hands with human blood. He knows today how hard the way of the transgressor is. For a year he has occupied a felon's cell. The ways of peace and right, of society and law were too narrow for his feet. He chose to transgress. How straitened have been the paths he has trod this last year! The narrow confines of his cell or of the prison yard, with a little journey from the Tombs to the court now and then, that has been much more circumscribed than anything society and the law exacted. His riches have done him much less good than the weekly wages of any decent workingman in the land have done their earner. He has brought his mother's gray hairs in sorrow down almost to the grave. He has cast indelible dishonor on the woman who bears his name. He has held her up to the horrified gaze of the world as a woman without shame, as a person without moral conceptions. She has been exhibited to the gaze of a cold, cruel world as next thing to a mental idiot and as absolutely a moral idiot.

Today he is years, yes decades older than he was an hour before he held that smoking pistol which had made him the last follower in the ways of Cain. Weary of existence, forgetful of his wealth, lonely for the society even of his child wife, broken in health of body as well as of mind, there is scarcely a more pitiable human object in all the great metropolis. The pallor of his unhealthy skin, the gleam in his fever-hot eyes, the weariness of his shambling steps, all cry out "The way of the transgressor is hard."

THE OIL STOCK CRAZE.

Santa Barbara is now undergoing an experience similar to that which swept over all of California some years ago. The city has gone oil mad. San Luis Obispo has been in that condition for several months. Other parts of the State have it more or less. Companies are organizing every day and strings are being started at all points where there is the faintest trace of oil, and even where there are none visible to the eye of the expert.

What will be the outcome of all this? No man can yet tell what any one of these new enterprises may lead to, but one thing is practically assured and that is that many of them will fail. Some may, and will probably, fail with the very best of management, simply because the oil is not where the indications seemed to point. Others may be well located and fail when the oil is there because of stupid management. Others still—if past experience proves anything—will fail simply because the promoters are dishonest and look only to selling stock and "feathering their own nests." Let us hope the number of these will be small.

That some enterprises will be successful is certain. Parts of the Arroyo Grande district have been proven, but land in that immediate vicinity has mostly been taken up. The same is true, of course, of the Santa Maria district proper and also to a great extent of some of the recent extensions. When it comes to land out on the edges, however, it is always a speculation. Again, take the new districts around the city of Santa Barbara. There are a number of shallow wells at Summerland—the land being tested only at a depth such as to give little testimony of value as to what is below—and three uncompleted wells in which we have the word of the enthusiastic operators or their employés that "indications are good," an expression open to more than one construction.

The Times does not wish to be construed as disbelieving in the presence of oil in these new coast regions. There is reason to believe that there is oil there. The question is just where and how much, also what will be the cost of getting at it. In locating a well a small variation may throw it completely outside of the proven belt; and when a company is operating "on a shoestring" it can seldom afford to lose a well, the cost of which is from $10,000 up to $30,000 or more. People who put their money into a stock company should consider this fact. The Kern River field, that made many millionaires, has edges strewn with the wrecks of companies that started in with the highest hopes and were never able to produce oil for commercial purposes, and others in the proven belt that produced but failed to make more than expenses. All over California may be found these wrecked companies that failed for one reason or another.

The oil business has ruined and made many a man. If one has the capital to spare and can find out for himself the status of any company, its management, capitalization, and holdings, it is as safe for him as any venture of similar nature. The fact that men whose names appear in the directorate are honest and have succeeded in some line entirely foreign to the oil business is not always an assurance of good handling. Oil is essentially a business for men of experience and technical knowledge.

It is not, however, to the man of large means or the professional speculator, whether he be experienced in oil or not, that this word of warning is addressed. It is to the man struggling to get ahead and establish his family in life, to the widows and orphans, who are tempted to risk their all in a venture of which they know absolutely nothing. The Times correspondent at Santa Barbara writes that men of small means have caught the fever and are actually mortgaging their homes, the little cottages built for the wives and children, and putting their money into oil stocks. Some may succeed, but it is safe to say that many will never get an adequate return for such a sacrifice, even if they do receive some dividends.

THE RUSTIC EDITOR AND HIS "FIGGERS."

The bucolic editor is often a miracle. He sits in his office and brushes the buzzing flies off of his bald spot with the paste brush, while his ears are tickled with the musical song of the cow in the pasture under the window, and has the most wonderful visions in the world of all things past, present and future, near and remote. He can tell more in a minute, 500 miles away from the place of the event, about a strike in San Francisco than the most diligent city newspaper man on the spot, in the thick of the disturbances, can learn in a month.

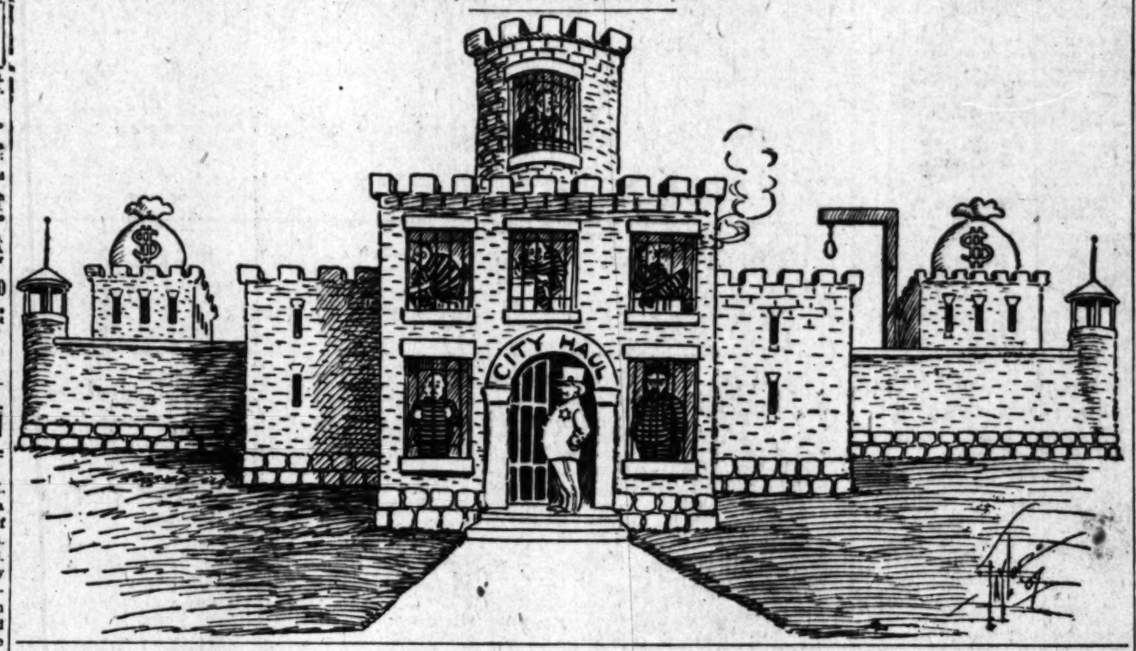
The latest demonstration of the wonderful ability of the rustic editor is displayed in "figgers," not of speech, but of arithmetic. Editor Clark of the Riverside Press, we are told, "is in the habit of estimating the populations of various cities of Southern California from the school census." Jest so. Mr. Clark has been trying his "figgering" propensities on the last school census which has reached his office. It is not apparent whether it was the school census of five or ten years ago. Perhaps that would not matter. It would seem as if it were a school census of some remote era on which he based his calculations for the city of Los Angeles. He "figgers" us out at 195,130 bodies.

We are told that this method followed by Editor Clark "is the fairest method that can be devised." Huh! We have been taking a school census of our own, which was finished two or three months ago. The school marshal, in taking this school census, makes an absolute count of the population incidentally to taking the census. According to this actual count, the population of Los Angeles three months ago was 285,000 people. At the present time it is probably 295,000, or thereabouts. Editor Clark's "figgering" is only about 100,000, or 33 1-3 per cent., out of the way.

For the sake of emphasis let us repeat, this is not a method fair or unfair, devised, dreamed or schemed. It is an actual count of noses, one by one, young and old, by census enumerators.

The city press is generally generously fair in giving credit to the smaller cities and towns in Southern California. There is here a patriotism broad enough to take in always the whole southern portion of the State, and generally the State in its entirety. One of the puzzles in weighing the bucolic editor is to account for his canine disposition in attempting to bite the big metropolis of his own district. The larger Los Angeles is, the better for Riverside. The larger Riverside is, the better for Los Angeles. We realize this fact in Los Angeles. Why can't it be beaten into the head of the bucolic editor?

SUGGESTION FOR A NEW MUNICIPAL BUILDING FOR SAN FRANCISCO.



ALIENS AND TREATY RIGHTS.

The instructions sent out from Washington that United States Attorney Devlin lend his help to the Japanese who are suing the city of San Francisco for loss of property caused by mobs, are something new in our legal procedure. Heretofore, the settlement of such matters has been left absolutely to State courts. Even where criminal proceedings were taken, State courts have been left to deal with actions brought by aliens.

This often led to international complications. Many will recall the strained relations between our government and that of Italy when people of that nation were murdered in New Orleans. The Italian government appealed for justice to the Federal authorities, but was told that United States courts had no jurisdiction over murders committed in a sovereign State of the Union. This seemed incomprehensible to the foreign statesmen, whose government was supreme in all cases in all parts of the kingdom. But it was explained that treaty rights could not confer on aliens residing in this country privileges not granted to native-born Americans. If one of the high Federal officers in America were to lose his life in a riot or otherwise in any American city, the case would be tried by the courts of the State in which the deed was done.

There have taken place important changes in our views since this New Orleans affair. No State court has a right to disregard an act of Congress. A treaty stands on the same ground as an act of Congress when it has been confirmed by the Senate. Until then it is no treaty at all. After that it is part of the supreme law of the land.

The right to "life, liberty and the pursuit of happiness" lies at the very foundation of the American government. To destroy property in a wanton manner, to beat and kill any person, is a direct violation of this principle. If local prejudice is allowed to deprive foreigners of treaty rights, and State courts will not do their duty, the peace of the country, our amicable relations with other nations, the carrying on of our commerce with neighboring nations, must not be interrupted or put in jeopardy by this prejudice and the weakness of State courts.

Here is the condition. Our forefathers fought for liberty, and won it after a costly struggle with a tyrannous government. Having set up a government here in which the equality of all men before the law was recognized and the life and liberty of the humblest made as sacred as that of the most mighty, the path in which happiness might be freely pursued by all was opened, in a spirit of great generosity, to the oppressed of all nations, to the downtrodden of all countries, to the needy of all climes.

Under this exceedingly liberal policy there comes to San Francisco a red-eyed, ignorant Finn, glad to escape from the tyranny of an irresponsible monarch, or worse still, from the rapacity, greed and brutal lust of a grand duke or vicious viceroy. The freedom he could not win for himself in his own country we give him freely in a country which we have freed at so great cost.

There also comes an ignorant and conscienceless brute from the barren hills, wild woods or snow-covered mountains of the Scandinavian peninsula. By his side comes a wretch of indescribable squalor and want from Whitechapel or some other purlieu of London. Many come in the same garb of poverty and squalid ignorance from other lands.

These men can successfully compete with native-born Americans for employment because their wants are fewer, their ambitions lower, their aspiration less noble, their plane of living lower. But there is enough for all and to spare. Americans make no complaint, but welcome these outcasts of less favored lands as participants with them in all their blessings.

Now come the Chinese and Japanese from a lower plane of squalor and want in the Orient. The yellow man can compete successfully with the Occidental foreigner. Americans are glad to see the refugee from Chinese and Japanese tyranny and from Oriental squalor come and share our blessings with us. Not so the Finn, the Scandinavian and the cockney. They presume in impudent self-assertion to limit the hospitality which suffers them to come in here and remain, and to say the Oriental has no rights in America which they are bound to respect. These vicious, ignorant, selfish foreigners presume to set up a new policy for this country.

Refugees here in sufferance, they set themselves up as dictators as to what shall be permitted in America. They disgrace our land by their bloody deeds. They corrupt our jurisprudence by using the franchise to elect men of the same low morals as themselves to office. They reverse the principles on which our government is founded. They upset our traditional policies. They check the course of our industries. They curtail the measure of our commerce with friendly nations. They plunge the country into complications and bring us to the verge of war.

There are the facts. Such are the conditions. Shall the American people stand for them? Shall we permit these squalid, ignorant, low and brutal refugees from other shores to nullify the traditional policy of our nation which has made us the admiration of other nations and the hope of all mankind?

WHO WROTE THE CIRCULAR?

The officers of the Clerks' Association of the city of Los Angeles formally repudiate the anonymous circular issued by somebody embodying the vicious cry, "boycott." This disclaimer is made in the name of the association by its officials. They state explicitly that they have no knowledge of the authorship of the circular or the source from which it emanated. The interesting question is, who put out this anonymous and mischievous document?

The officers of the Clerks' Association furthermore, in the name of that organization, disclaim any affiliation, remote or near, with labor-unionism. The purposes of their organization are altogether different, and of course the methods they propose to pursue will be naturally far away from the strike and boycott policy of the unions.

Surely it was an enemy that did this. It has all the earmarks of a vicious attempt to discredit this association of the clerks. It was probably done because the purposes of this association are different from those of labor-union organizations. An association of this kind, organized for the purpose of maintaining peace and good will between employers and employés, is not a pleasant prospect to the walking delegate. It puts him out of business and cuts off his opportunities for graft, for crooked work, for living on the fat of the land from the wages of industrious people while he does nothing but work his jaws, and from betraying the members of his organization by bleeding employers under threats of precipitating a strike.

The Clerks' Association will do well to keep a vigilant eye out for such underhand schemes likely to be sprung by the many in order to discredit their method of association, to prevent their obtaining such favors as they ask for and in a general way to disrupt this peace-seeking organization in order to drive the members into the fold of the mischief makers, where they may be used as regular contributors to the large funds raised for the support of the boozing-delegate.

Thus far the Governors of seven States and Territories have accepted invitations to attend the National Irrigation Congress to be held at Sacramento in September. It is expected that the number will be largely augmented. The executive of every State and Territory in which the National Reclamation Law is operative will be present if possible. September will probably witness the most notable convention of Governors ever held on the Pacific Coast. An unusual interest is evinced in the meeting, and it is evident that the political irrigationists will face a strong opposition.

DIGGING AFTER FOSSIL REMAINS.

The English Liberal government has gone with some energy into the business of digging after the fossil remains of parliamentary procedure.

The House of Lords is about as representative of English sentiment today as a United States Senate composed of members chosen by the trusts and monopolies, and made up of Rogers, Harriman, Havemeyer and eighty or ninety similar persons would represent the sentiment of this country. "The lords, temporal and spiritual," sit to make laws for the empire not because they know a syllable about the business, not because any one appointed them to the office, not because they see things as England sees them. They hold their seats because they are their fathers' sons, who held the same seats by virtue of descent from the grandfathers of the present lords, and so back to the days of William "The Conqueror" or of "good King" Alfred. They stand mostly for a mass of precedent and prejudice which was gray with years long before the Stuarts lost the throne.

If these prejudices were in favor of liberal policies they might not seem so obnoxious to Sir Henry Campbell-Bannerman and his colleagues. But as they were firmly arrayed against everything which is dear to the heart of the Liberals, the House of Lords acts like a goad in the sides of the Liberal party. There is no relief short of putting a curb bit in the mouths of the lords to hold them in, if they will not go the Liberal way. The toryism of the lords is ineradicable and incurable. The lords oppose everything the Liberals propose, and can successfully tie up legislation, thus defeating the will of the people whenever they see fit to do so, and that is about all the time.

England is as nearly a republic as it could be if the House of Lords were elective. The throne is merely a moral influence. That a change from the ways of the time of William I or Alfred the Great is due will not be generally disputed. But the House of Lords will be difficult to budge.

COMPULSORY EDUCATION.

The constitution of the State of Oklahoma embodies compulsory education with a cognate principle that children shall not be employed in gainful occupations during the time set apart for acquiring an education befitting an American citizen. From the ages of eight to fifteen years, all children in the State must attend school certain hours in the day, certain days in the week and certain weeks in the year. During these times children cannot be employed in any shop or factory, or even by their parents on farms or about the household. Children are not forbidden to do such work as they can outside these school hours, provided they are not set at tasks requiring too close application or for too long hours.

This is not new legislation. Some of the New England States, we believe, have similar statutes. But the new State of Oklahoma has the provision in its constitution.

This is one of the reforms needed in many Southern States. Factory life there is something comparatively new. When factories were first built there, suitable labor was scarce. The unskilled, ignorant blacks, under slavery accustomed only to farm work or ouse work, did not learn easily to handle machinery. The "white trash" was worse. The better classes would not work in factories. European labor had not gone into the South where all work was done by slaves. For these reasons factory hands were scarce. Children easily machinery, and naturally general requisition. Those are not all removed, and generally employed in factories.

The republic cannot citizenship which is dependent ignorance, or on a mass which the vital forces are hard toil, continued for in more or less unsanitary away from the sunlight during the early years of or woman has a moral right children into life and not their proper education into an intelligent and hood. All law aims at life on a moral basis, and that laws should be States forcing negligent parents to provide for the cation and raising of Society has a claim on the parents, and the republic on our future citizens of mind and sound of worthy of citizenship.

PROMINENT PERSONS

FLOOD WRECK CHURCH.

High Waters Destroy Edifice Erected in Mexico in Sixteenth Century.

[BY THE ASSOCIATED PRESS—A.M.]

EL PASO (Tex.) June 26.—A report reached here today that the old church at Zaceta, on the Mexican side of the river below El Paso, has been wrecked by high waters and that some bodies in the ancient cemetery were washed away. The church was built in the sixteenth century.

It is reported also that the Mexican town of Guadalajara, near San Antonio, N. M., has been washed away. No loss of life is reported.

This store will close every Saturday from July 1st to September 15th at 12:30 Noon.

$3.50 Kid Gloves On Sale Friday, Not Today, at $1.95

Final clean-up of all odd sizes and broken assortments of long kid gloves.

Mostly twelve-button glaces and 16 button suedes in sizes 5 1-2, 5 3-4 and 6,—only a few in 6 1-4 and 6 1-2. Black, white and greys—very few in colors.

$3.50 gloves at $1.95—a clean saving of a dollar fifty-five cents.

On sale tomorrow, not today. No telephone orders. None sent C. O. D. or on approval. None fitted.

12 1-2c and 15c Wash Goods 10c

Ginghams in stripes, checks, and plain, and lawns in neat figures, floral effects and polka dots—dozens of the choicest 12 1-2c and 15c fabrics at ten cents. But that price doesn't go into effect until tomorrow.

Wash Dresses at Half

(On Sale Friday.)

This season's smartest styles and choicest materials at exactly half what their duplicates sell for in the stores that selected their stocks by these samples.

Separate Jackets in 8 to 16-year sizes.

6 to 14-year sizes in one-piece dresses.

Fancy shirt waist and jumper styles in silks, wools and wash stuffs.

Peter Thompson suits, too, in a variety of seasonable fabrics.

$5.00 garments for $2.50
$8.50 garments for $4.25 $17.50 garments for $8.75
$10 garments for $5.00 $25 garments for $12.50
$12 garments for $6.00 $30 garments for $15.00

Of particular interest are the $8.50 Peter Thompson suits of tan and blue linens at $4.25—jaunty, serviceable suits in 12, 14, 16 and 18 year sizes.

(On sale Friday in rear of Annex.)

Today's Sales

Details of which appeared in yesterday's papers:

All women's and children's knit underwear except Deimel Linen Mesh and Dr. Jaeger goods at 25 per cent. discount.

219-229 So Broadway — Coulter Dry Goods Co — 224-228 So. Hill Street

Secure a liberal supply of good stationery before you leave town—35c and 50c boxes now 25c—50 envelopes and 50 sheets of paper—double the usual amount.

Fairly good range of sizes left today in 16-button white or black glace kid gloves of $3.75 and $4 qualities, to sell for $3 a pair.

On Monday a matchless sale of plain and fancy colored silks. Wait for it.

Women's Knitted Coats

"Sweaters," they used to be called, but these smart new things are no more like the old-fashioned sweater than a kimono is like a calico wrapper.

Some are fitted at the waist as prettily as a shirt waist; they've collars and cuffs of contrasting shade, some of them; others are made in Norfolk style—a loose box; then there's a square box back, with two side pockets, fastening down the front with big pearl buttons, with or without rolling collar. Choose from gray, cardinal and white, at $3, $4, $5 and $7.50.

Reduced Summer Silks

Yard-wide white and cream Japanese silks; Lyons' finish, for waists, and like garments; regular 75c, for.....60c yd.

Exclusive patterns in Marquisettes; 10-yard lengths:

One $50.00 pattern for.....$30.00
Two $32.50 patterns at.....$20.00

Black French brocades; odd pieces left from brisk selling; worth between $2 and $3.50 a yard, for.....$1.00
36-inch black chiffon taffeta; good $1.75 grade, for.....$1.50
36-inch black taffeta; extra $1.25 grade, for.....95c
36-inch black peau de cygne; regular $1.25 grade, for.....95c

Reduced Belts and Buckles

Women who keep abreast of fashion's tendencies are wearing narrow elastic belts this summer, those steel studded are favorites. Timely sale here today on the best styles.

Steel studded elastic belts in black and white web; finished with cut steel and Swastika clasps:

75c and $1 belts are now.....50c
$1.25 and $1.50 belts are.....$1.00
$2.25 and $2.50 belts are.....$1.75

20c Galateas 15c

Children hard on clothes? Put them into frocks made from Hydegrade Galateas, which will defy dirt and the hardest kind of frequent tubbings.

Grounds white or colored are shown; a diversity of dots, figures, plain or fancy stripes and solid colors may be had; though they are well worth 20c, we sell them for.....15c yd.

Sale of Neckwear

Here are the very things you'll most need from now on, to freshen up separate waists or linen coats:

Embroidered stocks, collars and collar and cuff sets, some done in pretty, fast colors, others having borders of dainty drawn work; scalloped and hemmed edges, on pique and China silk. Quite a number of lace collars are included; values up to $1 each, for 10c apiece, six for half a dollar. In an entrance window may be seen a hint of styles involved.

Knives, Shears Half Price

An exceptionally favorable opportunity today to secure pen knives, scissors and shears from famous makers, at half their true value:

Knives in several sizes, with handles of pearl, bone and horn; two and three blades of good razor steel; manicure, embroidery, trimming and buttonhole scissors and shears in half a dozen sizes, made of finest steel, well nickeled, at exactly half marked prices.

Stylish Dress Goods—Less Than Half

Short lengths and single pieces of white, black, brown, gray, green, blue and every good shade, in plain weaves or those showing shadow plaids, checks and invisible hairlines; together with novelty goods in dozens of pretty weaves and stylish effects; values up to $3.50 a yard, for.....50c

We have included at this special price a brand new line of real imported suitings—hairline stripes of black on white; even shepherd checks in colored backgrounds; block checks on white or colored grounds; values $1.25, for.....50c

Yesterday was a lively day at scholarship headquarters. Contestants who had heretofore turned in no score flocked in squads and as a consequence the honor roll this morning has stretched away down the column and includes thirty-three contestants—ten more than we had last year at a corresponding date. San Diego, Lordsburg, Soldiers' Home, San Jacinto and Alhambra all lined up in great shape and several city contestants who had not before reported came in and entered their scores.

LORDSBURG LIVELY.

The Lordsburg candidate, Chonita Psalomares, makes her entrance in spectacular fashion landing in the fifth row—right up among the top-liners at the very first leap. That looks like business and the birds on the high perches are beginning to flutter as these out-of-town contestants arrive.

Juanita Carter regains her perch and is again fourth this morning, thank you. Juanita is a little sprinter and she'll show 'em that it's not safe to knock her off her peg for she'll scramble right back on again.

ALHAMBRA ARRIVES.

Ralph Warren, the Alhambra High School lad, strolled into headquarters yesterday and passed in a score that put him in the tenth row just for luck. He's business from the word go and intends to stand where he is now—till he goes higher.

EAST SIDE CANDIDATE.

Rosine LeHardy, by reason of the new out-of-town arrivals, dropped down a couple of pegs. Rosine is polite and believes in extending a welcome to outside talent—but you just wait till she passes them on the road. Rosine's picture appears this morning. She is a sweet and attractive girl who seeks a musical scholarship. On account of illness in the family she has not been able to attend school for the past three years and she is very anxious to take piano lessons as she inherits musical talent from her invalid mother. She has not many acquaintances here and therefore needs all the help she can get from the people of the East Side, which is her special territory.

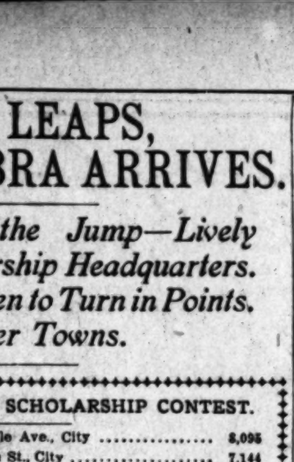
CLOSE SCORING.

There is some exceedingly close scoring this morning. Geraldine Fuller is but 50 points above the Alhambra boy and the Anaheim girl lacks but fifteen of reaching the girl above her. The closest reckoning is between Ben Hitchcock, Irene Wadey and Ella Hinsdell of Sawtelle—but eight points difference between the three, all told.

SOLDIERS' HOME BOY REPORTS.

Wallie Swain, the Soldiers' Home candidate, opens his account this morning and starts with the high sixteen, in the fourteenth row. Wallie is one of the choir boys in St. Augustine's Church at Santa Monica and a great favorite there as well as with the veterans at the Soldiers' Home. The veterans always stand by their candidate like the grim warriors they are, and he is bound to rank high.

Ellen Robinson, the winsome little miss from Immanuel Presbyterian Church, scored in her first subscriptions yesterday. It has been a busy week in school for Ellen. She graduates today from the Berendo street school and she will sing for her part in the commencement programme. She is all ready for High School now and that means that she is equipped to enter Occidental Academy and that is what she wants to do. If a Presbyterian girl from a Presbyterian church and Sunday-school asks for a scholarship in a Presbyterian college, it's up to the Presbyterians to see that she gets it. Ellen is a fatherless little girl and she wants very much to win a cash prize, too, for the incidental expenses count up at college. Her father died when she was a wee girl—too young to even have any clear remembrance of the big, strong man who used to toss her in his arms. She has her subscription book and will be



ROSINE LeHARDY,
East Side candidate.

ready to start out after today, so watch out for a blue-eyed, modest-spoken little miss of 13 and give her a lift.

COUNT YOUR COUPONS.

Now, boys and girls, listen while we explain how to count your coupons. Arrange them in packages of 25 coupons each and fasten together by slipping a rubber band around the center or stitching them once through the middle on the sewing machine. Then write your name on the coupon at the top of the bunch and you have them in good shape for the book-keeper to rapidly count and file away to your credit. Do not send them in helter skelter, as that necessitates much time and trouble when thousands of coupons are coming in every day.

Several inquiries have reached headquarters concerning Margaret Chung, the young Chinese girl who has entered the race and whose name now stands at the end of the score. A word of explanation is given in Margaret's behalf. So anxious is this young girl to attain the object she has in view—that of educating herself as a medical missionary to her people in China—that she is working all day long in one of the big department stores, where she is employed in a tea-room. Her hours there forbid any active canvassing on her part until after 6 o'clock. In the meantime, her friends are taking up her cause and will do what they can to assist Margaret. A lady called at headquarters yesterday and reported that she is interesting several of her friends, who are active in mission affairs, in Margaret's case. It is to be hoped that Christian people generally will remember this young Chinese girl and favor her with their subscriptions.

THE ARIZONA TWINS.

Edna Temple, the Arizona twin, writes a jolly letter to the scholarship manager. She says "There are two of us, else we wouldn't be twins—Edna and Ethel—she will help me for we are both one. We were 13 years old June 25. I shall endeavor to win out and clean up everything in sight. My headquarters are at Globe, which is also my burthplace."

When this pair get going once, there will likely be a scattering among the top-liners. The twins have all Arizona for their territory and they will be pretty apt to scour it clean.

MANDOLIN AND ZITHER.

This morning two new scholarships are announced that will doubtless be much sought after. One is a fine mandolin from Allen & Allen's, 313 S. Main street, and with the instrument goes a term of thirty lessons at the Lyric School of Music. The other is a thirty-five-stringed Menzenhauers zither, together with thirty lessons on same at the above school. Each instrument is valued at $50.

Here is a splendid opportunity for the boy or girl who has a passion for picking music from a stringed instrument.

OUR CALLERS.

Estella Green, one of last year's contestants, was a caller yesterday. She won a scholarship in the University of Southern California preparatory and is so pleased with her work that she intends to complete her course there. She does not enter the contest this summer but will help her friend, Cecil Green. Both these colored girls made a creditable showing last year and have improved their educational advantages. Cecil seeks another scholarship in the Lyric School of Music, where she has made excellent progress in vocal work.

Elizabeth McTear, last year's Santa Monica contestant was another most welcome caller. Elizabeth is delighted with her year's work at the Los Angeles Conservatory of Music, where she has been taking pipe organ lessons under the instruction of Mrs. Emily J. Valentine all the year from her scholarship won during the last contest.

THE PRIZE PIANO.

The prize piano offered as a special reward to the contestant who ranks highest this year is a splendid instrument of the Kurtsmann make. It is fully warranted by the manufacturers and indorsed by the Geo. J. Birkel Company. It is conservatively valued at $425 and the winner may select either mahogany, walnut or oak case. This fine piano will be placed on exhibition in the windows of the Birkel company at 345-347 South Spring street where it may be seen by all the contestants and any who wish to inspect it.

POSSIBLE LEADERS.

The following contestants have not yet turned in scores but will doubtless be heard from before the week is out.

MacGregor, Jessie G., Ontario.
Hogan, Loverett, No. 255 North Pasadena avenue, Pasadena.
Sexton, Ethel, No. 11 Grand avenue, Ocean Park.
Wilson, Helen, Whittier.
Mitchell, Reta, No. 354 South Johnston street, city.
Barry, Lucy, No. 254 East Twelfth street, Riverside.
Gibson, Ruth, R.F.D. No. 2, box 70, Escondido.
Roberts, May, No. 1037 West First street, Santa Ana.
Berryman, Jennie, O., South Pasadena.
Van Zandt, Elwyn B., No. 246 North El Molino avenue, Pasadena.
Camp, Teresa, No. 1622 South Los Angeles street, city.
Hamilton, Percy, Colton.
Newquist, Oscar, Palmdale.
Nevenzel, Gladys M., No. 920 East Twenty-ninth street, city.
Windisch, Emil, No. 444 East Forty-first street, city.
Fish, Zella, No. 814 South Figueroa street, city.
Benjamin, M. L., Western and Franklin streets, Hollywood.
Vincent, Blossom, Covina.
Leonard, Florence A., Redlands.
Conrad, Albert, No. 19 Chestnut avenue, Long Beach.
Howell, Hilda, Imperial.
Johnson, Mary S., No. 749 East Forty-second street, city.
Temple, Edna, Globe, Ariz.
Ellsworth, Virginia, No. 1639 High avenue, Redlands.

LIST OF SCHOLARSHIPS.

Below is a partial list of scholarships which will be offered to contestants. It will be increased from time to time as several other institutions will be included. The scholarships below represent a valuation of more than $3200.

Occidental Academy.
Fillmore School of Music.
Los Angeles Conservatory of Music and Arts.
Huntington Hall.
University of Southern California, College of Oratory, Beaulah Wright, Dean.
University of Southern California, Preparatory School.
Long Beach, Business College.
Lyric School of Music, Luella McCune, principal.
Los Angeles School of Art and Design.
Dobinson School of Expression.
Keller Piano, Voice and Normal School.
St. Vincent's College.
Throop Polytechnic Institute, Pasadena.
Verdi School of Singing.
Los Angeles College of Fine Arts.
Y.M.C.A. course of study.
De Chauvenet School of Music, Fraternal Brotherhood Building.
Allen & Allen, mandolin and thirty lessons at Lyric School of Music.
Menzenhauer Zither and term of thirty lessons at Lyric School of Music.

CASH PRIZES INCREASED.

In accordance with its usual custom during the six previous contests conducted by The Times, special cash prizes will be offered in addition to the scholarship. This year the sum of $1200—$100 more than last year—will be divided among contestants ranking highest. An elegant prize piano will also be offered as a special prize to the contestant scoring highest. The cash prizes are designed to help defray the student's incidental or living expenses while attending school and will be divided according to the following scale:

1	Prize piano.
2	$200
3	140
4	125
5	110
6	100
7	90
8	85
9	75
10	65
11	55
12	45
13	35
14	25
15	25
16	25

UNINVITED VISITORS.

Daylight Burglars Loot Residences on West Seventh Street and Secure Much Valuable Jewelry.

Burglars entered the home of Mrs. A. F. George at No. 1201 West Seventh street, Tuesday afternoon, and after looting the place, departed, taking with them jewelry valued at $600.

Mrs. George was away from home during the afternoon. When she returned, she noticed that the front door was open. She found the house in a state of disorder, almost every room in the place having been searched. Jewelry left in a case on the dresser was stolen.

Another daylight burglary occurred near the George home, Tuesday afternoon, which lead the police to believe that the same gang is responsible for the two thefts. The home of Miss L. S. Weylerich on Parkview avenue was entered and several valuable stick pins taken. In each case entrance to the house was obtained by means of "jimmying" the windows, and, with the occupants away, the robbers had an easy time at their work.

Do It Now.

Now is the time to get rid of your rheumatism. You can do so by applying Chamberlain's Pain Balm. Nine cases out of ten are simply muscular rheumatism due to cold or chronic rheumatism, and yield to the vigorous application of this liniment. Try it. You are certain to be delighted with the quick relief which it affords. —[Adv.

Small Farms

Pay For Themselves

No other chance equals that now offered in acreage at Belle Vernon. You are practically planting pennies for dollar crops. These acres are directly in the path of steady progress, on the way to the sea, but only 20 minutes from the heart of the city. Many parts of the city itself are not so easily and quickly accessible as Belle Vernon. It is reached by two fast electric lines with cars every 10 minutes. Streets are graded and oiled, water is piped to every acre, and stores, churches, schools and other advantages are within easy reach.

BERRIES GROW and POULTRY THRIVES

Whole Acres $650 Easy Terms

The income from this rich sandy loam soil will meet the payments. When the land becomes too valuable for berries, vegetables and poultry, it can be cut up into lots and sold for many times the purchase price. It is the greatest opportunity today to follow in the footsteps of many wealthy people who realized that the values were in land and made their money on real estate.

ADD WEEK.

(Continued from First Page.)

Day," now scheduled for Friday of convention week, will have to be postponed until Monday of the following week.

Whether or not any changes in the general programmes are to be made rests with the committee consisting of F. Q. Story, chairman of the General Committee, chairman of the Entertainment Committee, and General Secretary Shepard. They will call a meeting for consultation and may decide upon a course of action. The matter has been a bone of contention for several weeks between the Committees and General Secretary Shepard. When the entertainment programme was submitted to Mr. Shepard some weeks ago, he said it wouldn't do; that he threatened to divert too many delegates from the educational sessions.

The local committees suggested that there would be many each day who did not care for the indoor programme, that they would rather get out into the mountains or down by the sea.

After a good deal of correspondence, the allotted time narrowed down to one day, which is "Venice Day" on the convention programme, and the afternoon of the general session of the educators.

WANT TO DIM "BLAZE."

This is the fiftieth anniversary session of the N.E.A., and it is the desire to wind it up in a "blaze of glory," the leading men of the association feel that it would be wrong to have any counter attractions on the last day. The general programme for the day has been so arranged that the delegants in the convention could attend at the closing exercises on Friday afternoon, and the objection to the Friday excursion has been pressed. But the people of Venice have made elaborate preparations to entertain the visitors. A fund of $2500 or more is to be expended in giving them pleasure, and a representative at the meeting today objected strongly to any change in the arrangements. On the part of the educators, the request is made that, while the attention at the convention appreciate the kindness of the local people in planning to entertain them, the object of the National Educational Association is to afford instruction and high class entertainment for its members, and anything that will interfere with this object should not be permitted. It is suggested further that those who have the long journey hither and consequently devote their time to the educational programme will have no opportunity to take part in the entertainment programme so generously provided.

MAY FIND WAY OUT.

It is to adjust these matters that the committee was appointed yesterday. It is believed they will find a way out of the difficulty, even if it is necessary to extending the entertainment features into the week following the convention.

Ample accommodation in the big auditorium for the throng that will be certain to be on hand for at the closing session on Friday, July 12, is a matter that is bothering the local committees. In fact, it is asserted that the 4000 persons who can be seated in that handsome playhouse at the evening sessions will represent a small proportion of those who would like to be present. Many local people say they will remain away from these general sessions, so that those out of town can attend in force.

As for the numerous sessions of the various sections during the week, it is believed that the accommodations will be ample.

Upon the arrival of General Secretary Shepard yesterday from Imperial Valley, to the final arrangements for the big convention, Mr. Shepard was met in the morning with his wife and son, Elmer I. Shepard. They have been at the Alexandria, which has been selected as the headquarters of the Executive Committee, the board of trustees and the department officers of the N.E.A. during the convention.

VETERAN SECRETARY.

Mr. Shepard is a veteran in the association work. He has been its secretary for 18 years. He has pleasant recollections of the last visit of the Association to Los Angeles, in 1899, and he was busy yesterday greeting many of the friends he made here at that time. "I am extremely happy to be once more in Los Angeles," said Mr. Shepard, "but in a maze of correspondence and business that awaited him upon my arrival. "We were treated so generously by the people here on our last visit that I have looked forward with much pleasure to this time. Indications are that we shall have a very large and a delightful meeting. The activity as to the railroad rates is unfortunate, but it was not so that as many persons seem to have feared. I only hope that the situation is thoroughly understood and that the attendance will not be decreased by the fear that higher rates than we will prevail. As every one should understand by this time, the increase rate with the $2 additional membership in the association is in effect this year, as it has been in past, the only difference being that the membership fee is paid here to the organization, instead of to the railroad agent selling the ticket. But this seems little like the Los Angeles we saw on our last visit," remarked Mr. Shepard, glancing from a window of the Alexandria and taking in the pleasing view of the skyline formed by the handsome buildings that did not exist eight years ago. "It is wonderful what progress has been made. I am sure we all shall be delighted with our stay here."

MANY NOW ON ROAD.

Mr. Shepard and his party were on the second Santa Fé train to leave Chicago after the excursion rates went into effect, on the 22nd inst. On the train preceding him and on others following were many other excursionists. A goodly number of them made stops by the way, some taking in the Grand Cañon and other points of interest. The big rush this way will not begin much before the first of next week, as many schools in the Eastern states are still in session, and the trains will require a few days to make for the journey.

Elmer I. Shepard, son of the general secretary, will have charge of the baggage of the travelers, which is to be made at quarters now being prepared in the basement of the Auditorium with the entrance through the doors of the big building on Fifth street.

The basement room is 58x150 feet in size, is well lighted, and affords excellent facilities for the purposes to which it is to be put. Carpenters are to work yesterday putting railings, counters, tables and partitions in place.

In this room are to be the registration bureau, the branch postoffice for the accommodation of the visitors, telegraph and telephone offices, booths for the use of representatives of the Chamber of Commerce of various cities throughout the State, and other devices for the care of the visitors. This big room, it is expected, will be ready for use by July 1.

ADD WEEK.

(Continued from First Page.)

now scheduled for Friday of week, will have to [illegible] until Monday of the following week.

[illegible] not any changes in the [illegible] are to be made rests [illegible] committee consisting of F. Q. [illegible] man of the General Committee, chairman of the [illegible] Committee, and General Secretary Shepard. They will call [illegible] consultation and may decide upon a course of action. [illegible] has been a bone of contention several weeks between the [illegible] and General Secretary [illegible] When the entertainment programme was submitted to Mr. Shepard [illegible] he said it wouldn't do; [illegible] proposed to divert too many [illegible] from the educational sessions.

[illegible] committees suggested that [illegible] be many each day who [illegible] care for the indoor programme that they would rather get [illegible] mountains or down by the [illegible].

[illegible] deal of correspondence, [illegible] time narrowed down to [illegible] is "Venice Day" on the [illegible] programme, and the [illegible] of the general session of [illegible].

[illegible] WANT TO DIM "BLAZE."

[illegible] the fiftieth anniversary [illegible] of the N.E.A., and it is the [illegible] to find it up in a "blaze of [illegible] the leading men of the association [illegible] that it would be wrong to [illegible] counter attractions on the [illegible].

The general programme [illegible] has been so arranged that [illegible] in the convention could [illegible] at the closing exercises on [illegible], and the objection to [illegible] excursion has been pressed. [illegible] people of Venice have made [illegible] to entertain the [illegible] fund of $2500 or more is to [illegible] in giving them pleasure, [illegible] representative at the meeting objected strongly to any [illegible] the arrangements.

[illegible] part of the educators, the [illegible] is made that, while the attitude [illegible] the convention appreciate [illegible] of the local people in planning [illegible] them, the object of [illegible] Educational Association, [illegible] instruction and high class [illegible] for its members, and anything [illegible] will interfere with this object [illegible] not be permitted. It is [illegible] further that those who [illegible] long journey hither and contemplate devote their time to the [illegible] programme will have no [illegible] to take part in the entertainment [illegible] programme so generously provided.

[illegible] you is made that the entertainers [illegible] their programme to fit [illegible], and, if necessary, to put [illegible] the outings until the conclusion [illegible].

[illegible] TO FIND WAY OUT.

[illegible] is hoped these matters that [illegible] was appointed yesterday [illegible] believed they will find a [illegible] out of the difficulty, even if it [illegible] mar the entertainment [illegible] the week following the [illegible].

[illegible] accommodation in the big [illegible] for the throng that will [illegible] on hand for at the closing [illegible] Friday, July 12, is a matter [illegible] concerning the local committee. [illegible], it is asserted that [illegible] who can be seated [illegible] the Shrine playhouse at the [illegible] sessions will represent [illegible] proportion of those who [illegible] be present. Many local [illegible] they will remain away [illegible] general sessions, so that [illegible] out of town can attend in [illegible].

[illegible] the numerous sessions of [illegible] during the week. It [illegible] that the accommodations [illegible].

[illegible] arrival of General Secretary [illegible] yesterday fresh impetus [illegible] to the final arrangements [illegible] convention. Mr. Shepard [illegible] the morning with his wife [illegible] Elmer I. Shepard. They have [illegible] the Alexandria, which has [illegible] as the headquarters of [illegible] Committee, the board of [illegible] and the department officers of [illegible] during the convention.

[illegible] SECRETARY.

[illegible] Shepard is a veteran in the association. He has been its secretary [illegible]. He has pleasant recollections of the last visit of the association to Los Angeles, in 1899, and he [illegible] yesterday greeting many of [illegible] he made here at that time. [illegible] extremely happy to be once [illegible] Los Angeles," said Mr. Shepard [illegible] a mass of correspondence and [illegible] that awaited him upon [illegible]. "We were treated so generously by the people here on our last [illegible] and I have looked forward with [illegible] pleasure to this time. Indications [illegible] that we shall have a very [illegible] and a delightful meeting. [illegible] as to the railroad rates [illegible] unfortunate, but it was not so [illegible] as many persons seem to have [illegible]. I only hope that the situation [illegible] thoroughly understood and that [illegible] attendance will not be decreased [illegible] fear that higher rates than [illegible] will prevail. As every one [illegible] understand by this time, the [illegible] rate with the $2 additional [illegible] membership in the association is [illegible] this year, as it has been in [illegible] the only difference being that [illegible] membership fee is paid here to [illegible] station, instead of to the railroad [illegible] selling the ticket.

[illegible] It seems little like the Los [illegible] we saw on our last visit," remarked Mr. Shepard, glancing from a [illegible] of the Alexandria and taking [illegible] view of the skyline formed [illegible] buildings that did not [illegible] years ago. "It is wonderful [illegible] progress has been made. I am [illegible] all shall be delighted with [illegible] here."

[illegible] HASTY NOW ON ROAD.

[illegible] Shepard and his party were on the [illegible] Santa Fé train to leave [illegible] after the excursion rates [illegible] effect, on the 22nd inst. On [illegible] preceding him and on others [illegible] were many other excursionists, [illegible] goodly number of them made [illegible] of the way, some taking in [illegible] Cañon and other points of [illegible]. The big rush this way will [illegible] about the first of next [illegible] as many schools in the Eastern [illegible] are still in session, and the [illegible] will require a few days to [illegible] for the journey.

[illegible] J. Shepard, son of the general [illegible], will have charge of the [illegible] of the travelers, which is [illegible] at quarters now being pre[illegible] in the basement of the Auditorium, the entrance through the [illegible] of the big building on Fifth [illegible].

[illegible] basement room is 58x150 feet in [illegible], well lighted, and affords excellent facilities for the purposes to [illegible] to be put. Carpenters [illegible] yesterday putting railings, tables and partitions in [illegible].

[illegible] rooms are to be the registration [illegible], the branch postoffice for [illegible] information of the visitors, [illegible] and telephone offices, booths [illegible] of representatives of the [illegible] of Commerce of various [illegible] throughout the State, and [illegible] devices for the care of the [illegible]. The big room, it is expected, [illegible] ready for use by July 1.

[illegible] IN ATTENDANCE.

[illegible] to the number of persons who will attend the coming convention range from 15,000 to 25,000. Frank H. Posta, manager of the joint agency of the Transcontinental Passenger Association, with offices at No. 217 West Second street, is of the opinion that there will be at least 15,000 persons from outside the State of California, not to speak of the thousands from the hundreds of cities and the fifty-seven counties of this State.

Figures given out at the time for the convention held here eight years ago showed that there were upward of 12,000 visitors. This was the largest attendance at any N.E.A. convention up to that time. Since then there has been an estimated attendance of 25,000 at Boston and 23,000 at Asbury Park, these cities entertaining enormous crowds because of the fact that the territory surrounding them is densely populated.

F. W. Blanchard, chairman of the Decorations Committee, reported to the committee yesterday that he has about completed his plans. In a way, the decorations will be similar to those used for the Shriner celebration, though not quite so elaborate nor covering so extensive a territory. As announced yesterday by Mr. Blanchard, Main, Spring and Hill streets, and Broadway will be festooned with electric lamps, the wires bearing them being formed into canopies at street intersections, while 1000 lamps will be used for the night illumination of Central Park, the lamps being inclosed in Japanese lanterns and strung in the trees in an artistic and truly festive manner. Palm fronds will be used in decorating the lamp posts at the borders of the park, while immense American flags will swing gloriously over the main streets.

Private decoration of business houses will add to the effect of the downtown section. Band concerts are to be given nightly in Central Park.

BEILSTEIN BODY SHIPPED EAST.

WRANGLING MARKS FINAL DISPOSITION OF REMAINS.

Unusual Care Taken of Corpse by a Pittsburgh Trust Company, Which Will Send Representative to Chicago to Receive It—Disgusting Request Climax to Odd Case.

After six weeks' delay, during which time the body was identified and repudiated time after time, the remains of the woman known here as Olga Miller, but now known as Bertha Beilstein, the notorious matricide, was shipped East yesterday to its last resting place, in Pittsburgh.

The final disposition of the body came only after extended wrangling in which two factions, heirs to the estate of the late Fredrick Beilstein, sought by turns to repudiate the body and to identify it.

Yesterday morning, Pierce Brothers received by mail a copy of an order issued in Common Pleas Court No. 2 of Allegheny county, whereby the Equitable Trust Company of Pittsburgh, trustee of the girl's estate, was empowered to appropriate $500 from the estate to be used in identifying the body and to defray the funeral expenses. The custody of the girl's body was also turned over to the company. This set at rest the controversy that had existed between Fredrick W. Beilstein, Jr., a brother of the girl, and the Equitable Trust Company of Pittsburgh. The authorization from Pittsburgh appointed Albert A. Reineman of Pasadena, formerly of Pittsburgh, custodian with power to ship the body East.

The body had been lying in the receiving vault at Evergreen Cemetery since May 25, or four days after the girl's death from convulsions in the County Hospital. Yesterday morning, Mr. Reineman and Mr. Pierce went to the vault and opened the casket. The body was in an excellent state of preservation and Mr. Reineman immediately identified it as that of Bertha Beilstein. The body was prepared for shipment and was turned over to Wells, Fargo & Co., and an insurance was taken out on its safe delivery.

The care with which the Equitable Trust Company has surrounded the removal of the body can be gauged when it is known that they wired yesterday for the exact hour the train would arrive in Chicago and stated that they would have a duly accredited official of the company in Chicago to meet the remains. They urged that a custodian be sent with the body, which was done.

The Beilstein case has been an oddity in Los Angeles since the woman's death. The clashing factions of the family have kept the undertakers and police authorities in a muddle with conflicting orders. To cap the climax, Fred Beilstein, the girl's brother, who has been industrious in letter writing to officials in this city, sent a request to Mr. Pierce, asking him to please tack on $50 extra to his bill of expenses when presented to the Equitable Trust Company and to kindly turn over that same $50 to one Fred Beilstein. Then he entered a strong plea that all of the dead girl's effects be sent to him, as he believed that he had a prior claim to them. The letter was so disgusting that Mr. Pierce mailed it back to the fellow.

INVESTIGATING AUNT'S CHARGE.

Murder Warrant Will Be Issued If Evidence Indicates Starving of Grandmother by Guardian.

Because of the sensational allegation of Sister Minnie Bowman that her mother was starved to death, an investigation was begun by the District Attorney's office yesterday. Sister Bowman accuses her nephew, Fred D. Samuels, of having caused the death of Mrs. Bowman in order that he might inherit her estate. Mrs. Bowman died on Saturday at No. 1266 East Adams street.

Deputy Dist.-Atty. McCormack stated yesterday that, in the event of the accusation being substantiated, a warrant charging murder, or manslaughter will be issued.

To a Times reporter, yesterday, Samuels declared that he can clear himself of the charge made by his aunt and he repeated his former statement that he is being persecuted. He declared he had treated his grandmother with every consideration and cited, as proof of this, the fact that the court had allowed her to remain in his charge.

Attorney Jeff Chandler has been retained by Mr. Samuels to defend him in the event of legal proceedings being instituted against him. The attorney is disposed to regard the present trouble as an outgrowth of the recent legal proceedings before Judge Rives. Others who are taking an interest in the case declare that the real fight is between the Catholic and Protestant factions of the family.

Sister Bowman, in a few days, will return to her home in Frontenac, Wis. This, however, it is understood, will not interfere with the legal proceedings which may be begun when the will of Mrs. Bowman is offered for probate.

Sister Bowman has declared that her life is in danger from members of her family if she remains in Los Angeles.

The will of Mrs. Bowman is in the hands of a local trust company and members of the family declare they do not know its contents. It may be opened today. Sister Bowman declares it is made in favor of her nephew, Fred D. Samuels, and she charges that he exerted undue influence upon her mother.

Mrs. Bowman is said to have been mentally incompetent.

$1.25 Long Kimonos 75c

Long kimonos, made of cotton challies, in neat Persian patterns; trimmed with plain bands of batiste; this garment is cut very full and is an excellent value at the price marked, $1.25. A special attarction, third floor, Thursday, at 75c.

See window.

Why Sunset Magazine

Is Entitled to Your Consideration.

First, for its intrinsic value. As a magazine it is the equal, or superior, of any popular publication today. Virile and keen in its treatment of news, story and picture. Then too, it is distinctively a Western Magazine for Western People—Published solely to exploit this magnificent "Empire of the Pacific;" Encourage its industrial development and help in the upbuilding of a vast population throughout these Pacific states. It is reaching out as no other agency of the coast is today in effective publicity of the enticements of this wonderful west.

Of Course You Read It Every Month

Young Women

And Young Men, Boys and Girls Can Make Big Money Or Earn a Magnificent Vacation Trip

By doing a little work For this Magazine of The West — Sunset.

School is practically over, and the vacation time can be made a highly profitable season for many an energetic young man or woman, boy or girl. Sunset Magazine will enlist you in its campaign for subscriptions, and willingly pay you a handsome cash commission or give you free railway transportation to many of the historical and show places of the coast, besides free hotel and board for a week at most of them, for your reasonable service. You can thus begin to earn something for yourself, besides giving you the benefit of a business training, which meeting people and selling them something of value always brings. We want to talk with you about this splendid vacation privilege, tell you all about it.

EVENTS IN LOCAL SOCIETY.

BEFORE a high altar gleaming with lighted tapers, and starred with hundreds of Shasta daisies, with the solemn intoning of the Catholic nuptial mass, with the glorious singing of Millard's Ave Maria, with kneeling bridesmaids shrouded in their misty veils, with music and the incense of flowers, one of the beautiful weddings of the spring time was celebrated at St. Vincent's Church yesterday morning, when Miss May Myers, daughter of Mr. and Mrs. John Rodman Richards, and Dr. George Carlos Sabichi were married.

The church was decked with palms and ferns, great butterfly bows of tulle, and the family pews were marked with tulle and the feathery gypsiphilia. Mendelssohn's Spring Song was played by De Nubila's Orchestra, and merged into the wedding march as the church bells proclaimed the approach of the bridal party.

The procession was headed by the ushers, Dr. Harry Putnam, John Cellver, Walter Koebig, and Jerry Mund. Misses Innocent and Marie Wolfskill and Rose and Beatrice Sabichi, the four bridesmaids followed in frocks of white marquisette, with short English veils fastened with wreaths of pink sweet peas. They carried showers of pink sweet peas tied with fluffy pink gauze. Miss Agatha Sabichi, maid of honor, entered alone. She was garbed in a princess robe of white chiffon cloth with wreath of Cecil Bruner roses fastening the veil to her dark hair. She carried a bouquet of bridesmaids roses.

The bride entered with her father, her girlish beauty enhanced by the princess robe of shimmering messaline silk and rare lace. Her long veil of illusion was caught with lillies of the valley and her bouquet was made of the same delicate flowers. Dr. Sabichi was attended by his brother, Dr. Rodney Sabichi. Rev. Father Reardon officiated at the ceremonial, and Miss Lillan Scanlon sang the Ave Maria during the reading of the ritual.

After the marriage, a number of guests repaired to the Sabichi residence on South Figueroa street where a wedding breakfast was served, the house being bowered in asparagus fern and Shasta daisies. Pink sweet peas and pink tulle decked the room where the bridal fable was set.

The young couple left about noon, going in an automobile to Pasadena, where they took the train for an unknown destination. They were sped on their way as far as Pasadena by a merry company of maids and bachelors who went per automobile, scattering rice by the way, the bridesmaids' veils fluttering gaily in the wind like airy banners.

MR. AND MRS. A. E. GILHOUSEN, whose romantic elopement has just been made public.

Romantic Marriage.

Cupid has been working overtime of late and has been suggesting the propriety of elopement to certain young people of this city. In consequence, the friends, and even the immediate members of the family of A. E. Gilhousen, will learn from this announcement that he is no longer a bachelor, but that he has lately joined the ancient order of benedicts.

His wife was Miss Edna May Sutton, a member of the D.O.T. Sorority of Occidental College, though she has not been in college for about eighteen months. Mr. Gilhousen had been attentive to the young lady for some time, but no one expected a speedy denouement. When the two departed Saturday morning, the unsuspecting friends supposed they were going for a day at the beach. Instead they went to Riverside and were married there, staying at the Glenwood Hotel Saturday and Sunday, only the mother of the bride being in the secret.

The young people returned and are quartered with Mrs. Sutton at No. 539 West Temple street, but the members of the family and intimate friends will learn from this that they are married.

Entertains Press Club.

Mrs. W. H. Townsend, assisted by the Hollywood Board of Trade, entertained the members of the Women's Press Club yesterday with a visit to the De Longpré galleries, automobile and tallyho rides and a luncheon and programme at Fay Villa, Mrs. Townsend's beautiful country home on the outskirts of the city. There were about forty in attendance. Mrs. Townsend was assisted at her home by a group of Hollywood's society girls. The afternoon's programme was given by: Mrs. Bessie Belle Thew, an original monologue; Mrs. Harmon D. Ryus, piano selections; Miss Carol McComas, whistling solo, and Miss Jessie Morgan, contralto solo.

Mrs. Wilson Entertains.

A charmingly-appointed luncheon was given by Mrs. Philip Wilson at her new home, No. 1940 Union avenue, last Monday, in honor of Mrs. William Riddle, a prominent club woman from Colorado. The table was a symphony in green and white, asparagus fern, and Marguerites, broidered the lace-covered board, while the place cards were gauzy butterflies, hand-painted by the hostess, who is an accompanied artist. As a precious souvenir, each guest was presented with a landscape painted by Mrs. Wilson. The guests were: Mrs. William Riddle, Mrs. Franc Ogilvie Wood, Mrs. John Lawton, Mrs. Herbert Dow and Mrs. Thomas Box.

U.S.C. Class of '06.

Last year's graduating class of the University of Southern California held a reunion Tuesday evening at the residence of J. Ferguson, No. 905 West Thirtieth street. Class colors of black and gold ruled in the decorations, and the school colors of red and gold were also cleverly carried out. A musical and literary programme was rendered.

Sudden Marriage.

Another surprise that yesterday held in store for the families and friends of romantic young couples was the marriage of Miss Lela Forde and Edward T. Wheeler, traveling salesman for Haas, Baruch Company. The young people have been much together of late, and yesterday they took matters in their own hands, and were married at the Holy Cross Church, by Rev. Father Fahey. Last evening, at the residence of the groom's father, H. S. Wheeler, No. 201 West Thirty-seventh street, a jollification was held in honor of the event, friends and relatives being notified by 'phone of the astonishing news. Mr. and Mrs. Wheeler departed for a honeymoon tour.

MRS. EDWARD T. WHEELER, whose marriage yesterday was a great surprise to friends.

Miss John's Recital.

Monday evening the pupils of Miss Lulu C. Johns gave an interesting piano recital at the Gamut Club. The pupils all played with a precision and artistic finish that showed much thorough and conscientious study. Among those who assisted was Miss Mattie Forquer, who played the Adagio from Mendelssohn's concerto for violin, Op. 64. Miss Letitia Williams sang "Oh, That We Two Were Maying," by Nevin, "Slumber Sea," by Chisholm. Later on the programme she sang "The Quest," by Eleanor Smith. Mendelssohn's Spring Song and Denza's "May Morning" were whistled by Miss Enid Behymer. Mae Shumway Enderly of Riverside gave several readings. The following pupils played Edris March: Everett Simpson, Elizabeth Carpenter, Sophia Krause, Helen Abbott, Helen Pettey, Fern Farnham, Mary Hook, Anna Hook, Bertha McGuire, Otto Knoll, Gertrude Allison, Lena Kennedy, Josephine Hampson, Jessie Hooker, Mrs. Anna Brackett.

At Venice.

Mrs. J. H. Marcoux entertained Monday evening at the Art Cottage in honor of Gustav. Mechtler, who has just returned from Honolul. Mrs. Low Davis gave a Holland dinner at the Art Cottage last evening, covers being laid for twelve.

Return from Abroad.

Mr. and Mrs. J. Nauerth and daughter, Miss Winnie, returned last week from a year's trip abroad. They are located at No. 1032 Grand View street, and Mrs. Nauerth and Miss Nauerth will be at home to their friends on Thursdays.

Los Angeles Girl Engaged.

The engagement of Miss Blanche L. Dorgan of Los Angeles, and Frank A. Ashley of Oroville, Cal., is announced, the marriage to take place early in September. Mr. Ashley is manager of the Alexander Company of Oroville, and is well known in business circles.

Hessel-Relf.

Mr. and Mrs. Charles M. Hough announce the marriage of their daughter, Miss Frances M. Hessel to Herbert K. Relf. They were married on Thursday, June 20, by Rev. Robert McIntyre. Immediately after the ceremony they departed for Santa Barbara. After a short visit there they will go direct to Tacoma, where they will make their home.

Engagement Announced.

Mr. and Mrs. Victor Ponet announce the engagement of their daughter, Gertrude, to Francis S. Montgomery of Washington, D. C. The wedding will take place next Wednesday at 9:30 o'clock at St. Victor's Church, Sherman. No invitations will be issued on account of a recent death in the family.

Stanford Couple Wedded.

Like a Gainsborough or Sir Joshua Reynolds pageant was the beautiful wedding last evening at the residence of Mr. and Mrs. E. L. Hopper, No. 441 West Thirty-third street, which united in marriage Miss Florence Hopper, a Stanford graduate, and Kelley Rees of Brooklyn, who took his degree of Ph.D. at Stanford University, and has been for the past year connected with the

SAYS CITY IS WASTING CASH.

ARMY OF USELESS INSPECTORS MEANS GRAFT.

Letter to "The Times" Urges Mayor and Councilmen to Compare Results With "Noise"—Annual "Fireworks" by Municipal Employees Alleged to Be Bid for More Pay.

LOS ANGELES, June 21.—[To the Editor of The Times:] During the next few years this city will spend a million money on gigantic improvements, and the citizens are to be congratulated on having a good business Mayor, Council and Board of Public Works, [to] realising the magnitude of the financial burdens incident to such developments as are immediately before us. It is to be sincerely hoped that our worthy officials will early see the necessity of running every department on strictest business lines.

The waste and extravagance usual in all government and municipal affairs is deplorable, but under present conditions, with the prospective duplication of a Presidential campaign upon us, waste would be bankruptcy in effect.

The fact that public utilities, which under business management produce large profits, when controlled by municipal officials show large deficiencies is proof conclusive that municipal methods everywhere are wasteful, and are loaded with too many political favorites and too much graft.

There seems to be a struggle in each city department to create more places for friends, or for political hustlers, and we regret to observe that, up to this time, the new administration, instead of reducing the city pay roll, is actually swelling the army of useless inspectors and attaches, to maintain which, primarily, business enterprises are made to pay special fees, ultimately the consumers have to pay this added toll.

Councilmen seem to act on the theory that it is proper to create any office which will be sustained by fees collected from the business to which it is attached; but all such appointments, even if they continue to be self-sustaining, are a new burden, direct on the people.

Without any reflection on any individual officer, let us examine the results believed by some of these "pets of fortune," or so-called inspectors.

The local oil industry was [burdened] by the office of oil inspector, with [a] salary, was self-sustaining, [for] the collection of stiff fees for [each] tower, tank, derrick and other [part] of the business; but it early [developed] special quarters, expansion [into] various assistants and [clerks], and soon became a special [office] requiring a levy of $5000, [or] $6000 a year.

It is difficult to see where this office has ever done any good worth [mentioning]. A very few men have been [arrested] and fined $5, for conditions [which] had existed for years, and,

Marvel's Factory-end Sale

Lucky Buying in New York Brings Biggest Millinery Bargains Ever Known in Los Angeles

OUR buyer took a bold step---he bought up the remaining stocks of several New York millinery factories at prices never before heard of in the history of the millinery business. The chance he got was too good to pass up---it's the biggest venture ever attempted by any millinery house in the Southwest. But at the prices we paid, we intend to literally flood the country for miles around Los Angeles with new, high-grade millinery, at prices which will set the public tongue wagging.

How Flowers Will Go

The entire purchase of flowers has been divided into five different lots. Here's the way they will be sold:

15 boxes flowers, consisting of lily of the valley, forget-me-nots, lilacs, Marguerites, and grasses—25c and 50c flowers. Factory end price..... 5c

53 boxes of corn flowers, roses, chrysanthemums, violets, daisies, poppies—75c to $1.25 flowers. Factory end price..... 23c

78 boxes large Marguerites; fancy foliage; black flowers, cherries, grapes; flowers worth from $1.00 to $2.00. Factory end price..... 48c

47 boxes handsome lilacs, roses, field flowers, black and white Marguerites; flowers worth $2.25 to $2.98. Factory end price..... 73c

59 boxes fancy wreaths—poppy wreaths, Marguerite wreaths, rose wreaths, crysanthemum wreaths, and beautiful imported roses. Values $3.00 to $4.00. Factory end price..... 98c

How Untrimmed Hats Will Go

95 dozen untrimmed hats—all styles, colors and shapes. Sailors, flats, hoods and turbans—worth $1.00, $1.25 and $1.50. Factory end price..... 19c

DAYS CITY IS WASTING CASH.

...Y OF USELESS INSPECTORS MEANS GRAFT.

...r to "The Times" Urges Mayor ...Councilmen to Compare Re... With "Noise"—Annual "Fire-...t" by Municipal Employees Al...ld to Be Bid for More Pay.

LOS ANGELES, June 22.—[To the Editor of The Times:] During the next year this city will spend a mint of money on gigantic improvements, and the citizens are to be congratulated on having a good business Mayor, Council and Board of Public Works. Knowing the magnitude of the financial problems incident to such development, we are immediately before us, it is to be sincerely hoped that our city officials will early see the necessity of running every department on strictest business lines.

Waste and extravagance usual in government and municipal affairs is deplorable, but under present conditions, with the prospective dullness of a Presidential campaign upon us, it would be bankruptcy in effect.

It is not that public utilities, which under business management produce profits, when controlled by municipal officials show large deficiencies. It is indeed conclusive that municipal ownership everywhere are wasteful, and generally with too many political favors and too much graft.

There seems to be a struggle in each department to create more places and offices for political hustlers, and it is a regret to observe that, up to date, the new administration, instead of reducing the city pay roll, is actually swelling the army of useless clerks and attachés, to maintain, primarily, business enterprises made to pay special fees, which the consumers have to pay added toll.

Does it seem to act on the theory that it is proper to create any office which will be sustained by fees derived from the business to which it is attached; but all such appointees, even if they continue to draw pay, are a new burden, and add to the people.

Without any reflection on any individual, let us examine the record of the office of oil inspector, with which, by the way, was self-sustaining, by the collection of stiff fees for the use of tank, derrick and other paraphernalia of the business; but it early developed special quarters, expansion into various assistants and deputies, and soon became a special burden, requiring a levy of $5000, this year.

It is time to see where this office is needed, done any good worth while. A very few men have been employed and fined $5, for conditions existed for years, and, in some cases, the same conditions still exist.

As to the inspection of kerosene oil, there is so little of it used for lights that it is only a nominal matter, and if those who do use it should clean up their modern lamps and substitute gasoline there probably would not be a lamp explosion once a year in the city. There is no danger of gasoline being substituted for or mixed with kerosene oil, because gasoline costs almost double.

As to the inspection of oil for street use, this is of little consequence, because, oil, wherever used on sand or natural soil streets, has not lasted long enough to more than change the color of the dust; and when used with gravel under present street specifications, there is no reason why present requirements of inspection and approval should not safeguard the public.

Steam boiler, insurance and inspection companies have policies on every boiler of any account in this city, and are liable for all loss of property or of lives by explosion of such boilers; their inspectors are so skilled that the United States government insures all its boilers for this inspection and for the safety of the public. The office of boiler inspector in this city, with an inspector of very limited experience, is a farce, a burden to boiler owners, and superfluous.

It would require a series of letters running through the year to show up this army of inspectors, but it is to be hoped that our Councilmen will watch for all the year results of inspectors, and not be carried off their feet by the biennial fireworks of the inspectors of some departments when trying to show their usefulness, and at same time make a bid for more pay or an increase of inspectors.

The restaurant inspectors are just now in the limelight, and it is an outrage on the city that their reports were published to the world. Objectionable insects do not thrive in this climate, and there was no reason for this offensive publicity, except to make a biennial grand-stand play of inspectors, followed, as you will notice, by a request for more inspectors in that department. In the better class of lodging-houses in Chicago there are a hundred objectionable insects to one that can be found in the poorest houses of this city.

There is little need of any of the regular inspectors that have been multiplying for years. Our police force does not need to be enlarged in order to cover all subjects needing inspection. A proper number of policemen, mounted on horses or motorcycles, would make more efficient inspectors, and, if required, could in two days report every shade tree in the city needing trimming.

Scale and weight inspectors and others intended to protect the public against dishonest practices are absurd and burdensome. A scale inspector collected about $12 on Temple street in an hour, the other day. Such charges are excessive, even if the city gets the money.

Men who make money by dishonesty and by violating city ordinances are willing to pay a small fine semi-annually, and, as most inspectors are not even semi-annual. It is doubtful whether our army of inspectors change any of the objectionable conditions which are occasionally given such great publicity, to the city's discredit.

Let our worthy officials inquire why it is that certain inspectors, and other officials, about once a year, discover such jungles of corruption, and scores of lawbreakers, and in the same whirl ask for more pay and men. What were they doing the other 364 days of the year?

There is no doubt, as to the integrity of our present business men's administration, and we urge officials to analyze cost and results, to carefully separate results, if any, from the semi-annual or biennial noise, and we believe that they will find plenty of occasion to shorten the city pay roll before many moons.

Most respectfully yours,
ERNEST C. JOHNSON.

STUDENTS HOLD BELASCO STAGE

"Innings" of High School Senior B's Much Enjoyed—Programme Includes Original Features.

The senior B's of the Los Angeles High School had their "innings" yesterday afternoon at the Belasco Theater. The afternoon passed with enjoyable smoothness, the behavior of the students being the pink of propriety. Even the jolly crew in the gallery sedately kept silence.

The president of Star and Crescent, Donald Goodwin, presided and Alda Danziger read the minutes of the previous meeting. All business was then put aside and the stage given over to the senior B's. They made good use of it. The little farce, "The Dressing Gown," was the good old-fashioned kind that gave the cast ample opportunity.

Howard Potter surprised his schoolmates with his display of vicious temper, as Peter Peabody, the man with an ill-fitting dressing gown and a disposition to match. Miss Kuback gave a much appreciated portrayal of the long-suffering better half and Miss Brown was a decidedly winsome Marion Peabody. Miss Biehl delighted the audience with her airs and graces as Sarah, the maid. Albert Schweissinger, as Cumber the butler, and Jack Beman, as Angus Kirk, also did well, with the roles assigned them.

The number on the programme that effectively broke the ice, however, was a mock funeral oration delivered in the dark over the departing summer class of '07. It was spoken in heart-broken tones by Arthur Weber, surrounded by a crowd of weeping, black-cowled individuals. Nothing more original had been "sprung" on a senior A class before. At the close, a supposed will was read in which several well-known members of the out-going class signed away their pet weaknesses as legacies.

Other popular features were a violin solo by Miss Anita Vennum and the singing of the combined glee clubs of the school. The Star and Crescent pins were tendered the '07 class, the presidents of both classes delivering appropriate speeches.

As a finale, the senior B's, arrayed in all the bravery of their pretty green and white class colors, sang their collection of class songs, in which anybody in general and their rivals, the senior A's, in particular were "bawled out" much to their confusion.

BOY LIFE SAVER ON HIGH TRAIL.

WOMAN DESCENDING MT. WILSON HAS CLOSE CALL.

One Horse of Pack Train in Charge of Marc Ordway Plunges Into Canyon and Is Killed—Animal's Rider Faints, but Youth Prevents Her Following Mount.

A possible fatality was narrowly averted Saturday as the result of an accident which occurred to a party of mountain climbers who were descending the Mt. Wilson trail.

Presence of mind on the part of one of the women, whose horse slipped on the very edge of the trail, and a quick-witted boy, saved her life. The horse plunged into the cañon a hundred feet below and was killed.

The party engaged animals of Rich & Baird. The pack train was in charge of Marc Ordway, a brave 14-year-old boy, who is said to have kept his head at a critical time. He succeeded in bringing the party in safety to the foot of the trail, and the only loss was the horse.

While the Mt. Wilson trail is unusually good for a mountain path, it skirts precipices that appear terrifying to one not versed in mountain climbing.

Ordway lives at a ranch house at Sierra Madre and frequently helps the men drive the pack train to the summit. His family live in San Francisco, but spend a part of the summer near the beautiful cañon where is located Carter's camp. For the sheer love of adventure, young Ordway spends much of his time in the mountains, and is said to be an experienced guide and packer.

When asked about his experience at the time of the accident, young Ordway said it wasn't really worth mentioning, only he didn't enjoy seeing the women faint. "A kid doesn't know what to do," he remarked, "when a lady faints away. I have read what fellers do in story books, but I guess it is all made up. I just waited until the ladies got over being scairt and then came down the trail."

SOCIETY.

(Continued from Eighth Page.)

Greek department of the University of Pennsylvania.

Under the direction of Miss Waite the home had been converted into a flowery setting for the marriage. Bamboo and Shasta daisies banked the stairway. In the bow window of the parlor, where the young couple stood during the reading of the service, was a canopy of asparagus plumosa and pink gauze, the lights being shaded in roses. Kentia palms and pink hyrangeas formed a background.

Dr. Hugh K. Walker performed the ceremony, and Stamm's Orchestra played the "Berceuse," from "Jocelyn," the four pretty bridesmaids who preceded the bride were Misses Nann Barrett, Ruth Storry, Lora Winn and Lucile Walton. They were gowned alike in unique picture frocks of white organdy, with pink sashes and breteiles. Pink roses were in their hair, and they carried garlands of sweet peas. The two matrons of honor were Mrs. Edward Dean Lyman and Mrs. William Morrison. They were garbed in pink, and carried muff bouquets of Cecil Bruner roses.

The bride wore a gown of satin finish crepe de chine and lace. She carried a shower bouquet of bride's gladioli and fragrant lilies of the valley. Charles Hopper, the bride's brother, was best man, and the ushers were Messrs. Arthur McFarland, Frank Woodbury, Edward Lyman and William Morrison.

A supper was served to the guests at the conclusion of the service, the bride's table being shaded with a huge umbrella of pink sweet peas and gauze, the centerpiece of the festal board being a big basket of pink sweet peas and gladioli.

At the conclusion of the wedding trip, the couple will be at home in Brooklyn, N. Y., where the groom has been given a chair in Adelphi College.

—o—

To San Diego to Wed.

Here is a wedding announcement which will cause surprise among a host of friends of the contracting parties. The surprise will not be that the wedding took place, for it has been known for some time that the couple was to wed, but that they should go to San Diego and there have the ceremony performed instead of having a conventional home or church wedding is the feature of the affair which was unexpected. Mrs. E. M. Shnford of this city and Arthur Howard Ten Broek of San Francisco went to San Diego yesterday and were married at the Presbyterian parsonage, Rev. Dr. Gordon officiating. Both are well known in Los Angeles, the bride being a sister of the wife of Dr. J. W. Trueworthy. They will go north on a honeymoon trip and upon their return will make their home in this city.

—o—

Peschke-Lambourne.

Of interest to the older residents of Los Angeles was the marriage last evening of Miss Julia Peschke and William F. Lambourne, the bride being the daughter of Mr. and Mrs. T. W. Peschke of No. 306 West Fortieth street, who have been residents in Los Angeles for forty-one years. The home had been decked throughout with white and green, in ferns and many white flowers. The ceremony took place in the living-room under a canopy of white roses and white sweet peas, from which depended a wedding bell of white peas. Mrs. Olive Redman rendered the Lohengrin wedding music with "Oh, Promise Me," softly played during the service and Mendelssohn's "Spring Song" at the conclusion, Rev. C. T. Scholz officiating. Orange blossoms fastened the bride's filmy veil, and she carried a shower of lilies of the valley. Her gown was of white marquisette with lace and medallions.

Miss Florence Winter was maid of honor, attired in pale pink silk and carrying a bouquet of baby gladioli. Miss Barbara Vogt and Miss Georgie Lambourne, the maids, were garbed in pale blue with bouquets of white carnations. The ring-bearer, Dorothea Fisher, carried the ring in a white rose, and Viola Burkhardt scattered white rose petals from her flower basket.

The groom was attended by Mr. Curtis as best man, and the ushers were Dick Zerneman and Oscar Peschke. After a wedding trip the couple will be at home at No. 306 West Fortieth street.

—o—

Notes and Personals.

Mrs. L. J. Christopher and niece, Miss Marie Roos, are enjoying a three-weeks' outing at Arrowhead Hot Springs.

The proposed picnic at Eastlake Park for former residents of Pana, Ill., has been postponed from July 4 to July 10, owing to the crowded conditions of the parks on holidays.

Mr. and Mrs. W. S. Pleas and son have gone for a three months' outing in the Siskiyou Mountains.

An apron and candy sale will be held at the residence of Mrs. P. G. Hubert, No. 2144 Hobart boulevard, next Saturday at from 2 to 5 o'clock for the benefit of St. Matthew's Chapel.

Miss Winifred Fifield, daughter of Millard Fifield of No. 3217 Pasadena avenue, has finished her course at the State Library School, and after completing her course at Pomona College, has accepted a temporary position at Watertown, N. Y.

Mrs. Arthur W. Kisher and little son, Everett, have returned from a two months' visit in the East.

Miss Kate Brousseau, who has occupied the chair of psychology at Stanley Hall, Minneapolis during the past year, is in the city staying at Hotel Antlers. Miss Brousseau goes to Mills College in August at the opening of the school year, where she takes a similar position to that held by her in Minneapolis.

MRS. WILLIAMS'S DEATH.

Wife of One of the Founders of the Great Mining Town of Bisbee, Arizona.

Mrs. Harriet Williams, wife of Lewis Williams, died in this city on Tuesday. The funeral will take place this afternoon at 3 o'clock from the late residence, No. 1938 Harvard boulevard. The husband of the deceased was, with his brother, Ben Williams, the founders of the town of Bisbee, Ariz., and one of the organizers of the famous Copper Queen Company. She was the mother of James S. Douglas, manager of the Phelps-Dodge properties at Douglas and Nacozari.

PERSONAL.

M. B. O'Farrell, a prominent mining man from Goldfield, is a guest at the Angelus.

W. J. Alexander, a well-known business man of San José, is registered at the Angelus.

D. B. Gillies, a mining man from Tonopah, is in the city. He is a guest at the Alexandria.

A. C. Almy of the United States Navy is a guest at the Alexandria. The officer is on the Coast for the purpose of superintending the construction of coaling stations at San Diego and other points.

PROTECTED BY INCOME?

The Simmons Water Softening Machine

A Wonderful Invention and What the Machine Will Do

The Simmons Water Softening Machine softens water and precipitates all incrusting sediment.

It prevents scale, pitting and incrustations in steam boilers and condensers.

It treats the water by precipitating all chemicals contained in it having an affinity for iron.

It preserves the life of the boiler by preventing incrustations, thus increasing power and efficiency. It saves fuel and conserves heat.

All of which is accomplished without the use of chemical compounds.

There is little need to explain that scaling and incrustations in steam boilers present one of the most expensive and difficult problems to be met in the manufacturing business—there are many concerns right in Los Angeles that have been spending as much as $5000 per year for labor and compounds in keeping their boilers and condensers clear, that are now saving money besides the loss of time on account of shut-downs, by using the Simmons Water Softening Machines.

TELEGRAPHIC ORDERS

Simmons Mfg. Company, Los Angeles, Cal.

Ship by Express to

Geyser Ice Co., Waco, Texas, (4-inch Machine) Contract	$800	June 17th
New State Brewing Ass'n, Oklahoma City, 3-inch . "	$500	June 17th
Weatherford Ice Co., Weatherford, Texas, 3-inch . . "	$500	June 18th
People's Ice Co., Oklahoma City, 2-inch . . . . . "	$300	June 19th
Telegraphic Orders for 3 Days, June 17, 18, 19 . . .	$2,100	

The above orders demonstrate the manner in which the business of the Simmons Manufacturing Company is growing outside of California.

The company was not prepared to furnish machines for outside of California territory until about ninety days ago. You can judge for yourself what the growth of the business will be within the next three months, with orders for machines in Southern California that are being installed every day, the aggregate rental of which is over $37,500 and only about twenty per cent. of the steam power plants approached or solicited.

J. Herman Aagaard Company

EDWARD J. MORAN, Manager

526-527 Stock Exchange Building, 411 S. Main St., Los Angeles, Cal.

An An INCOME Producer

THE SIMMONS WATER SOFTENING MACHINES that are now leased to the manufacturing establishments in Los Angeles are producing an income of more than $7500 per year, with orders for machines to be installed in Southern California that will produce a further income of over $37,500, equivalent to 50 per cent on the total capitalization of $75,000.

With thirty States greater in manufacturing enterprises than California, as a field of operation, we appeal to your own judgment for calculation as to what can be accomplished within the next year.

The Simmons Manufacturing Company was organized less than one year ago and has a record of continuous progress. The business is of the big, broad and standard gauge type, and will make big money for every shareholder who secures the stock before price becomes prohibitive.

THE SIMMONS WATER SOFTENING MACHINE is never sold. It is rented by the year, producing a large and lasting income.

For instance, a 1-inch machine rents for $100 a year, a 1½-inch machine for from $150 to $200; a 2-inch machine for $300; 3-inch, $500; 4-inch and larger sizes according to the volume and efficiency of the service required, the rental price ranging from $1000 per year and upwards.

The Price of the Stock Is Now $5.00 Per Share

Less than 4000 shares for sale at this price. The company is renting more machines every day and you can depend that the price of stock will increase with the growth of the income.

We are not authorized to sell less than fifty shares to a customer. Terms can be arranged upon application for time on part of the purchase price. We are not soliciting the gambling quick class of investors—but we will extend every business courtesy within our command to help out the careful and conservative investor who is seeking to establish an income.

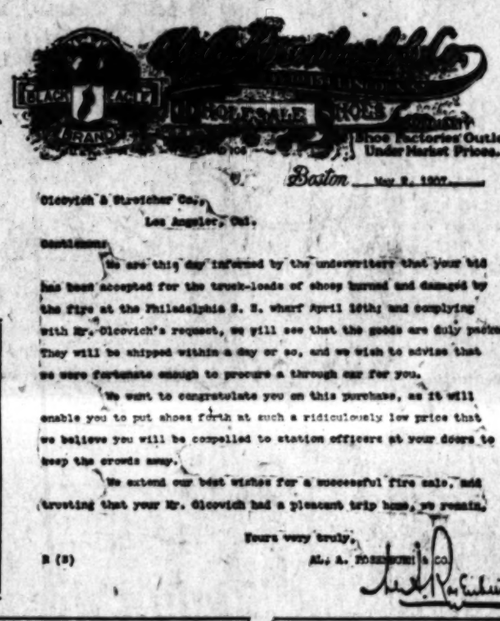
FIRE SALE OF SHOES

The Underwriters Accept Our Bid

This important news, coming as it did right on top of the big $50,000 shoe purchase, almost took our breath away. Our Mr. Olcovich was requested by the insurance adjusters to make a bid for this stock in Boston. He did so, but never dreamed of its being accepted. The following letter of acceptance came like a thunderbolt. With a store already filled from cellar to garret comes this big stock. The goods were but very little damaged by fire; three-quarters of them were not damaged at all. Those that were will be almost given away.

Notice!

The Mammoth Never Misrepresents. Every advertised Bargain Will Be Found at the Big Store Exactly as represented



Boston, May 2, 1907.

Olcovich & Stretcher Co.,
Los Angeles, Cal.

Gentlemen:

We are this day informed by the underwriters that your bid has been accepted for the truck-loads of shoes burned and damaged by the fire at the Philadelphia S. S. wharf April 18th; and complying with Mr. Olcovich's request, we will see that the goods are duly packed. They will be shipped within a day or so, and we wish to advise that we were fortunate enough to procure a through car for you.

We want to congratulate you on this purchase, as it will enable you to put shoes forth at such a ridiculously low price that we believe you will be compelled to station officers at your doors to keep the crowds away.

We extend our best wishes for a successful fire sale, and trusting that your Mr. Olcovich had a pleasant trip home, we remain,

Yours very truly,
M. A. HOSKINS & CO.

Office of The Times, No. 36 South Raymond ave.

PASADENA, June 27.—Just because he wanted to celebrate Fourth of July long before his neighbors, Jimmie Bartlett of North Pasadena, will go through life minus a finger and his chum, Joe Underwood, is suffering from a severe contusion on his leg. These youths stripped some "cannon crackers" of their wrappings, got out the dynamite charges and then packed them into a plugged gas pipe, with the certain knowledge that they would awake the neighborhood. Jimmie Bartlett touched off the infernal machine with a match and luckily lost only one finger.

In connection with Fourth of July celebrations, Chief of Police Favor and Fire Marshal Clifford are preparing for a campaign to enforce the city ordinances, save property and prevent such distressing accidents as befell Jimmie Bartlett. Orders have gone forth that every vacant lot in the city shall be cleared of rubbish and dried vegetation. No exception is made to this rule. The authorities propose that every patch of dry grass and undergrowth that might catch fire and communicate to buildings shall either be burned off in strict compliance with the city ordinances or otherwise removed, so that this city shall be immune to fire from crackers or skyrockets during the time permitted for such displays.

Chief Favor is also strenuously enforcing other neglected city laws. Yesterday he rounded up Harry Bean, Lea Gler, Sumner Freeman, J. C. Gaylord, W. G. Bumpus, Earnest Langstaff and Harry Flournoy, who enriched the city $1 each because they had no bells on their bicycles.

Such little things as this are preliminary to an unrelenting campaign against speeding automobiles within the city limits. Two motorcycles, equipped with accurate speed meters will be delivered to the department in a day or so and then auto drivers will be kept under strict watch. All chauffeurs can take notice that undue haste will land them in the clutches of justice as was John V. Eliot today when he was fined $25 for overspeeding, but the fine was suspended because possible doubt existed as to the exact facts.

PROHIBITIONISTS AROUSED.

As a result of the case against Mrs. Elizabeth Farr, of the Capitola Hotel, South Pasadena, prohibitionists are discussing with bated breath the actions of Alexander R. Graham, recent candidate for State Senator on the Prohibition ticket. Mrs. Farr last Monday was fined $200, but the stock of intoxicants seized and confiscated were subsequently returned on the plea that the offender was not guilty of intentional defiance of the law.

Prohibitionists say that Alexander R. Graham was forceful in securing this leniency and it is alleged that he was moved to make this compromise with the "Demon Rum" because he is the landlord of the Capitola and another "booze foundry" in South Pasadena. At the latter place they assert that automobile parties stop after preliminary horn tooting, and secure cargoes of beer, wine and whisky and are off on their merry whirls with little delay.

At the last meeting of the Young Women's Christian Temperance Union Miss Margaret J. Ellis of Michigan, gave an earnest talk exposing patent nostrums in which alcohol is the prime ingredient. She divided them into four classes, tonics for chronic diseases; cough medicines, whose active principles are "booze, plus morphine," catarrhal remedies based on cocaine, and headache cures made of whisky and acetanilid. The union perfected plans for its Fourth of July picnic.

SHAKESPEARE AND TEA.

The Japanese Tea Garden will be the scene of a unique gathering this afternoon. Sunday-school teachers from all the churches will gather to hear Mrs. Coman, president of the Shakespeare Club, teach the lesson for children from 6 to 13 years of age. The Beginners' lesson will be taught by Mrs. Fuessle and several children will repeat Children's Day exercises. The hour is 2:30 p.m., and the small admission fee of 15 cents includes a cup of tea served by the little Japanese waitresses.

MUST BE COMPLETE.

Because certain minor details of the Garfield School are not in accordance with specifications the School Board has refused to accept the building. Architect F. S. Allen and the contractors, Ellsworth & Co., will be required to replace several broken tiles, to sweep the roof, put corrugated rubber and brass nosing on the stairs, add a hand rail to the stairs, place hinges on the ventilation scuttle and add screens and iron frames to the basement windows.

PASADENA NEWS NOTES.

Lake Avenue Congregational school will picnic at Long Beach on Friday.

John F. Godfrey Post, G.A.R., will hold a camp fire at their hall tonight to which the affiliated patriotic organizations are invited.

The Empire State Association will give a basket picnic at Eastlake Park next Saturday.

Mumps are slightly epidemic and show a tendency to attack grown persons.

Eaton T. Sams and his sisters gave their fourth annual dinner to the officers of the Y.M.C.A. camp organization, the guests including W. B. Gard, chairman of the Work Committee; George Braden, manager of the camp; C. M. Richardson, religious instructor; Clifford Dickson, musical, and David T. Gilmor, camp directors; Harold Ryerson, inspector; Edward P. Murphy and Graham Moody, athletics; Warner Hollister Camp, storekeeper and Fred Jung, coach.

As a solution of the problem of double tracking Colorado street a number of influential citizens propose a loop.

In order to provide for increases of the teachers' salaries the Board of Education has determined to ask an increase of the tax assessment from fifteen cents on the hundred dollars to twenty-five cents which is the limit permitted by law.

AGED WOMAN IS KILLED.

Mrs. Osuna, an Exile from Mexico, Struck by Fast Electric Car.

WILMINGTON, June 26.—After passing through the perils of a revolution in Mexico over a quarter of a century ago with her husband, Mrs. Elogia Osuna, 70 years old, was struck by San Pedro car No. 876, at the First-street crossing in this city, at 6 o'clock this evening and instantly killed.

The unfortunate woman started to cross the street in front of the car, which appeared some distance down the track, but it is stated that the car was running at such a high rate of speed that it was close to her before she was aware of her danger. Her head was crushed and one arm and one leg broken. The body was carried upon the fender for some distance and then thrown to one side.

Mrs. Osuna was the wife of Alberto Osuna, who was a leader in one of the revolutions which distracted Mexico a generation ago. Unsuccessful, he was forced to flee for his life, and, accompanied by his wife, he reached the United States, after many adventures, and settled in Wilmington, where the couple resided for twenty-five years, and were well known in this vicinity. The inquest will be held tomorrow.

PETITION SIGNED.

Ocean Park Electors Demand Special Election to Fight for Disincorporation at Polls.

VENICE, June 26.—There was more excitement at Venice tonight over the registration of voters for the prospective disincorporation election than is usual at a city election. Automobiles were whizzing from house to house, gathering in the unregistered electors who will want to vote when election day comes. All taxpayers who are voters were urged to visit the registration clerk. After having registered, the petition to the City Trustees praying that an election be called was submitted to the electors, and with few exceptions it received their signatures.

At the last municipal election 194 votes were cast, and at an early hour this evening the petition to the Trustees had been signed by over 200 qualified electors of Ocean Park city. Signers will continue to be secured throughout the week, and when the City Trustees meet next Monday evening the additional petition will be submitted to them.

The fight for disincorporation is indorsed by the Chamber of Commerce. Opposing it are the present City Trustees, as leaders, and there promises to develop a fight at the polls that will be memorable in beach contests. According to the open talk of the dissatisfied ones, there is no prospect for a compromise along any line, and a speedy election will be forced, if possible. Should the Trustees act promptly on the petition now before them and referred to the City Attorney, the election could be held after notice of thirty days had been given. Less than six weeks' time would be required to bring the beach settlement from municipal to the county form of government.

Coronado climate is the best.

SANTA MONICA.

SANTA MONICA, June 26.—The British steamer Strathnairn has arrived at Port Los Angeles, after an uneventful voyage of seventy-five days. She comes from London and is under command of Capt. Edgar. She brings a full cargo of cement. The British bark Socotra has also put in an appearance. She is commanded by Capt. Westphal and left Rotterdam 194 days ago. She brings a cargo of pig iron and coke. Among other deep-water vessels on the way to this port is the British ship Dumfriesshire, seventy-eight days from London; the British bark Procyon, from Newcastle; and the German bark Furst Bulow, from Newcastle.

Beginning July 1, the Los Angeles-Pacific electric line will extend its 5 cent car fare to any point within the city limits. On and after that date it will be possible to ride from the extreme western limits of Sawtelle to Playa del Rey for 5 cents. The railroad company declined to let the cheap fare follow the city limits, and an action at law was brought and the matter was pending in the Supreme Court. The Board of Trade and the City Council asked for the lower fare and when the railroad officials promised to grant the request it was decided to withdraw the litigation.

The Board of Education has made the following additional choice of teachers for the next year: Miss Agnes Walcott of Long Beach, teacher of mathematics in the High School; Miss Carrie V. Truslow of Santa Barbara, supervisor of music; and Miss Mabel Adams of Pomona, grade teacher.

Tomorrow the members of the Methodist Sunday-school, together with their friends, will journey to Topango Cañon and spend the day in the shade. All departments will be represented and a field day programme will be enacted.

Coronado Tent City now open.

OCEAN PARK.

OCEAN PARK, June 26.—Carpenters are rapidly converting the auditorium of the Pier-avenue pavilion into a dance hall. A fine hardwood floor is being put in and the interior of the building is undergoing several other changes that are for the betterment of the structure and the accommodation of the crowds that are expected to come. There will be cosy corners and lounging and refreshment-rooms where light drinks will be served. Several thousand dollars will be expended in transforming the roller skating rink into a dance hall.

The silver cups to be awarded at the July tennis tournament on the courts of the Country Club have been placed on exhibition in the show window of Montgomery Brothers in Los Angeles.

Coronado Tent City pleases all.

PREPARE FOR AN INVASION.

PROGRAMME READY FOR STATE ENDEAVORERS.

Long Beach Will Welcome Delegates from All Parts of Commonwealth Tomorrow—Convention Will Last for Six Days—W.C.T.U. State Institute in Session.

LONG BEACH, June 26.—The twentieth annual convention of the California Christian Endeavor convention will hold its opening session on Friday, closing Wednesday evening, July 3. The local societies of Epworth League, Christian Endeavor and Baptist Young People have united to look after the welfare of the 1500 to 2500 delegates who will be present from all parts of the state. An orchestra under direction of Paul W. Riley will furnish the music, aided by a chorus choir of 250 voices under direction of Dr. A. T. Covert. State headquarters have been opened in the Lewis block on Pacific avenue where all delegates will be registered.

All sessions of the convention will be held in the Auditorium which has been decorated in Christian Endeavor colors. A temporary stage has been erected on the south side of the building, which, it is thought, will remedy existing acoustic defects. Delegates from the North will begin arriving Thursday night, and they will be met at Santa Barbara by a committee from Long Beach. The opening programme will begin Friday evening, and is as follows:

Overture, "Grand Knight," convention orchestra.

Praise service, led by Dr. A. T. Covert.

Opening of convention by State President Paul C. Brown of Los Angeles.

Announcements.

Chorus, "Send Out Thy Light."

Address of welcome; for the city, Mayor F. H. Downs; for the churches, Rev. E. W. Thornton.

Response, Dr. L. A. McAfee of Berkeley.

Double octette, "Seek Ye the Lord."

Address, Dr. John Willis Baer, president of Occidental College, and secretary of World's Union. Subject, "An Old-fashioned Declaration."

Solo, "All for Jesus," Abraham Miller of South Pasadena.

Devotional service, "Our Purpose," Rev. Will A. Bette, Long Beach.

Saturday morning will be devoted to the business of the convention, including roll call and the appointment of committees, and addresses by Rev. R. A. Hadden, field secretary; W. Clyde Smith of Berkeley and Leon V. Shaw of Los Angeles.

W.C.T.U. WORK.

The State Institute of the W.C.T.U. is proving a great success, with constantly increasing audiences. Mrs. Hester Griffith was awarded the medal last night in the impromptu contest, the subject given her being "Influence of the Home in Character Development." This morning Mrs. Dorothy Spencer, one of the northern officers, spoke of work among the Indian children and drew on her own fund of experiences among them.

Mrs. Mary Cowan, editor of the California White Ribbon, gave an interesting address on the subject of children's reading. Tonight Mrs. Carrie L. Grout, gave an account of her sociological investigations along the line of woman as a factor in social evolution.

Thursday's programme will include an executive session, a parliamentary drill and addresses by Miss Mary A. Stewart and Mrs. Stella B. Irvine.

LONG BEACH NOTES.

J. J. Hennessey, arrested yesterday for violation of the liquor ordinance appeared before the Recorder today and on a plea of guilty was fined $200. Charges are still pending against J. R. Pickerill, W. J. Wolf, James Roddick, F. L. Holmes and Ector Levereau, and some of these will fight the case to show up the men who secured the evidence against them.

The condition of Mrs. Walter T. Lloyd, burned yesterday in a gasoline explosion, was reported as much more favorable today, though her injuries will probably leave permanent scars.

Citizens have petitioned the City Trustees to appoint a night patrol on the beach. Immoral conditions exist, they say, which is positively shocking.

Everett Watts, a private of the Pomona cadets in camp here, went down the slide in the plunge on his hands and knees this morning and dived into the shallow water, striking the concrete bottom, badly disfiguring his face.

S. H. Haggerty of West Long Beach was sent to the County Jail for sixty days by Recorder Hart for using vile and indecent language before women and children.

A slot machine was stolen from the bath-house last night, taken to the beach and smashed open. The collector had emptied the cash box during the day and the thieves got but a solitary nickle for their crime.

Best music at Coronado.

SENIORS IN COMEDY.

HOLLYWOOD, June 26.—The senior class play was given at the Union High School this evening before a highly appreciative audience. The auditorium was packed. The play, "The Cool Collegians," a farce in two acts, was skillfully rendered by Harold Melville, Ernest Stevenson, Rena DeLorie, Ethel Burke, Minnie Wilbur, As Taft and Bessie Hudson. The plot had to do with the deception of their aunt by two college boys and was full enough of the gentle art of love making to please even a class which it is rumored numbers nearly as many engagements as it does students. Harold Melville as Harry Merredith was especially good. He has a fine voice and sings well. The first of the programme consisted of vocal solos by Walter Hoppe and Addie Sandison, both of whom have excellent voices, and a piano solo by Harriett Lander. A large string orchestra was in attendance. Tomorrow night is commencement.

NEWS REPORTS FROM CO

LADY DENTIST NOT POPULA

SUFFERING VICTIMS ASK POLIC TO ARREST HER.

She Disappears After Many Operations and Collection of Some Cash. Santa Barbara Faces Serious Water Problem—Money Needed for Tunnel—Oil Land Decision.

SANTA BARBARA, June 26.—A lady dentist with an energetic "pull" and the requisite amount of "push," who has been operating here for some days, is now sought by the police. She described herself to her victims as "Mrs. Dr. Burnett," and engaged to "fill teeth for 50 cents; ulcerated teeth treated free." Also, she was to be absolutely painless, but her patients allege suffering.

Mrs. McHenry of No. 105 Floral avenue was one of those who bit at the "ulcerated teeth" bait. The alleged dentist removed offending fillings and inserted some of her own preparation. The latter, seven in number, had an annoying habit of escaping from captivity.

Miss Josie Snow of Summerland was another victim. Her experience cost her $5.10 in cash and much loss of sleep, she says.

The police now desire to find the lady dentist to ascertain something about her right to practice and about her methods.

FACE WATER PROBLEM.

The Water Commissioners of Santa Barbara and the engineers in charge of the waterworks tunnel, which is in course of construction through the Santa Ynez Mountains and is designed to tap the Santa Ynez River, have put the matter of expense strongly before the city fathers. Now the latter have their choice between issuing bonds or ending the work pay for itself. Originally the Santa Barbara Water Company furnished the water supply. It was insufficient, so the city set about getting a supply of its own. A hole was bored through the mountains to the east, and a plentiful supply of water coaxed through the rocks into the tunnel. The city piped its supply to the town, and the municipality has been a competitor for some years of the water company. Parallel lines were laid, and the house owners divided their patronage.

But the city, out of the goodness of its heart, furnished water free to the schools, fire department and hospitals, and charged only a moderate rate to individuals. Now the Water Commissioners are trying to make the city see the necessity for charging the institutions on the free list or else order a bond issue.

It is urged that the tunnel is going to cost much more than the original estimate. The commissioners state that about $200,000 will be required to complete the undertaking.

DEATH OF OLD RESIDENT.

George H. Rice, a prominent resident here for the past seven years, died yesterday after a long illness. He was born in Webster, Mass., and came to California when a young man. He was for a long time traffic manager of the Pacific Mail Steamship Company. He was a sufferer from rheumatism and in later years was crippled by his malady. He leaves a daughter, Miss Bertha Rice.

OIL LAND AFFECTED.

A decision of the Supreme Court, affirming a valuable piece of oil land of about 320 acres, was handed down yesterday. It was in the case of Joseta Arrellenes vs. Juan B. Arrellenes. The land was deeded by gift to Juan, in 1891, before the discovery of oil. The property is near Orcutt. With the discovery of oil other heirs of the donor induced her to sue for the setting of the deed on the ground of fraud. She was 80 years old then and promptly attempted to repudiate the deed. A jury in the Superior Court set aside the verdict on the ground that there was not sufficient evidence to sustain it. Then the matter appealed to the Supreme Court, which yesterday affirmed the decision of Justice Taggart. The case has been in the courts since 1904.

SANTA BARBARA NOTES.

Vernon Bettin, a boy soprano, came up from Los Angeles, today, and sang several numbers at a recital given by Donald Martin, organist of Trinity Church, at Unity Hall.

Rural Carrier Melville Snow, while delivering mail on his route with a horse and buggy, yesterday, had a narrow escape from serious injury when the horse ran away.

Thirty-five members of the local naval militia will take a cruise on the naval militia ship Alert, to Venice, which is here on July 2. They will take part in the maneuvers at the southern resort on July 6.

Coronado and back, only $1.

GRAIN CROP NORMAL.

Barley and Wheat in Moreno Valley Being Harvested—Kicking Over Tax Raise.

RIVERSIDE, June 26.—Grain harvesting in the Moreno Valley is in full swing, with prospects of a good average crop. The traction engines which were purchased by E. E. Hanson last winter for use in plowing have been attached to two combined harvesters, and each machine is harvesting and sacking the grain from 60 acres a day. The yield is about forty or ten sacks of barley to the acre. Mr. Hanson, the land owned by Mr. Hendrick consists of 1000 acres of barley and 500 acres of wheat.

Mr. Hendrick believes that the Moreno Valley has the making of one of the best orange growing sections in the world, second only to Riverside, and is making extensive plans for developing some of his large holdings to orange culture. He has forty acres in nursery, and next year will plant 200 and 400 acres of orange trees, and immense groves on the high foothills. Following that, he expects to plant citrus groves at the rate of 1000 acres a year for the next ten years.

PROTEST AGAINST RAISE.

Numerous and united protests against the arbitrary action of County Assessor Montague in increasing the assessments on city property this year have been made by representative business men, who are prepared to make a strong appeal to the County Board of Equalization at its meeting next week. Although Riverside property is increasing in value steadily, the protest that there has been a doubling of values in the past year, and the Assessor's figures would seem to indicate, has caused indignation meeting has been held, and some of the large property owners have been appointed a committee to prepare a chart and secure statistics to present to the Board of Equalization. This committee comprises George Frost, president of the First National Bank and a large stockholder in the River-

"South of the Tehachepi."

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

LADY DENTIST NOT POPULAR.

SUFFERING VICTIMS ASK POLICE TO ARREST HER.

She Disappears After Many Operations and Collection of Some Cash. Santa Barbara Faces Serious Water Problem—Money Needed for Tunnel—Oil Land Decision.

SANTA BARBARA, June 26.—A lady dentist with an energetic "pull" and a negligible amount of "push," who has been operating here for some days, is now sought by the police. She describes herself to her victims as "Mrs. Dr. Burnett," and engaged to "fill teeth for 50 cents; ulcerated teeth filled free." Also, she was to be absolutely painless, but her patients all suffering.

Mrs. McHenry of No. 105 Floral avenue was one of those who bit at the "painless teeth" bait. The alleged dentist removed offending fillings and replaced some of her own preparation. The latter, seven in number, had an annoying habit of escaping from capture.

Mrs. Josie Snow of Summerland was another victim. Her experience cost her $10 in cash and much loss of sleep, as well.

The police now desire to find the lady dentist to ascertain something about her right to practice and about her methods.

FACE WATER PROBLEM.

The Water Commissioners of Santa Barbara and the engineers in charge of the waterworks tunnel, which is in process of construction through the Santa Ynez Mountains and is designed to tap the Santa Ynez River, have put a matter of expense strongly before the city fathers. Now the latter have a choice between issuing bonds or making the work pay for itself. Originally the Santa Barbara Water Company furnished the water supply. It was insufficient, so the city set about securing a supply of its own. A hole was bored through the mountains to the east, and a plentiful supply of water found through the rocks into the tunnel. The city piped its supply to town, and the municipality has been a competitor for some years of the water company. Parallel lines were laid, and the house owners divided their patronage.

In the city, out of the goodness of its heart, furnished water free to the fire department and hospitals, and charged only a moderate rate to others. Now the Water Commissioners are trying to make the city see the necessity for charging the institutions on the free list or else order a new pipe line.

It is said that the tunnel is going to cost much more than the original estimate. The commissioners state that $200,000 will be required to finish the undertaking.

DEATH OF OLD RESIDENT.

Daniel Rice, a prominent resident here for the past seven years, died yesterday after a long illness. He was born in Boston, Mass., and came to California when a young man. He was for a time traffic manager of the Pacific Mail Steamship Company. He had been a sufferer from rheumatism and for years was crippled by his disease. He leaves a daughter, Miss Grace Rice.

OIL LAND AFFECTED.

A decision of the Supreme Court, affecting a valuable piece of oil land of 160 acres, was handed down yesterday. It was in the case of Josefa Arrellenes vs. Juan B. Arrellenes. The land was deeded by gift to Juan, and before the discovery of oil. The property is near Orcutt. With the discovery of oil other heirs of the family induced her to sue for the cancellation of the deed on the ground of fraud. She was 80 years old then and unsuccessfully attempted to repudiate the deed. A jury in the Superior Court gave the mother the benefit of the doubt and Juan appealed. Justice Shaw set aside the verdict on the ground that there was not sufficient evidence to sustain it. Then the case was appealed to the Supreme Court, which yesterday affirmed the decision of Judge Taggart. The case has been in the courts since 1904.

SANTA BARBARA NOTES.

Master Bettin, a boy soprano, came down from Los Angeles, today, and sang several numbers at a recital given by Mrs. Martin, organist of Trinity Church, at Unity Hall.

Carrier Melville Snow, while delivering mail on his route with a horse and buggy, yesterday, had a narrow escape from serious injury when the horse ran away.

Forty-five members of the local naval militia will take a cruise on the militia ship Alert, to Venice, leaving here on July 2. They will take part in the maneuvers at the southern end on July 6.

Round trip to Coronado and back, only $4.

GRAIN CROP NORMAL.

Barley and Wheat in Moreno Valley Being Harvested—Kicking Over Tax Raise.

RIVERSIDE, June 26.—Grain harvesting in the Moreno Valley is in full swing, with prospects of a good average crop. The traction engines which were purchased by E. E. Henshaw last winter for use in plowing have been attached to two combined harvesters, and each machine is harvesting and sacking the grain from forty acres a day. The yield is about forty sacks of barley to the acre. The land owned by Mr. Hendrick is 500 acres of barley and 500 acres of wheat.

Mr. Hendrick believes that the Moreno Valley has the making of one of the finest orange growing sections in the state, second only to Riverside, and is making extensive plans for development of his large holdings to orange culture. He has forty acres in orchard, and next year will plant another 300 and 400 acres of orange and lemon groves on the high foothill land. Following that, he expects to plant citrus groves at the rate of 1000 acres per year for the next ten years.

PROTEST AGAINST RAISE.

Vigorous and united protests against the arbitrary action of County Assessor Montague in increasing the assessment on city property this year have been made by representative business men, who are prepared to make a strong appeal to the County Board of Equalization at its meeting next week. Although Riverside property is increasing in value steadily, they protest that there has been a shrinkage of values in the past year, and the assessor's figures would seem to indicate.

An organization meeting has been held, some of the large property owners having been appointed a committee to prepare a chart and secure data to present to the Board of Equalization, and if necessary to the Board of Equalization. This committee comprises George Frost, president of the First National Bank and a stockholder in the Riverside Water Company; George N. Reynolds, owner of the Reynolds Department Store, Reynolds Hotel and other business blocks; P. T. Evans of the Riverside Land and Irrigation Company; F. F. Chase, representing the large orange enterprises of the Chase Nursery Company, and W. G. Fraser, representing the interests of the Riverside Trust Company in Arlington Heights.

A meeting of this committee, in consultation with Assessor Montague, will be held Thursday. It is claimed by these men, who represent several millions of invested capital, that orange groves, residence and business property in this county are assessed out of all proportion to the same class of property in surrounding counties, and that the Riverside taxpayers are shouldering more than their just share of the State taxes in consequence.

GETS HER DECREE.

Mrs. Hattie B. Branch has been granted an interlocutory decree of divorce from Horace E. Branch, and has been given the custody of the five minor children. The beautiful home on Walnut and Eleventh streets has been awarded to Mrs. Branch, who has also been awarded $25 a month for the maintenance of the children during their minority, and $10 a month for her own support.

WELCOMES ENTERPRISE.

Santa Ana Business Men Take Stock in Soda Factory Rejected by Los Angeles County Town.

SANTA ANA, June 26.—The Pacific Coast Soda Company has decided to abandon its factory site at Inglewood and locate at Aliso station just outside the southeast corner of Santa Ana's city limits. This decision was reached last night at a conference held between the Merchants' and Manufacturers' Association of Santa Ana and officials of the company. Today Sterling Klotts, one of the soda factory promoters, in company with James Irvine, owner of the great Irvine ranch of this county, and a number of Santa Ana men, made a tour of the ranch and practically settled upon a site.

The reason for the change of the big factory from Inglewood to Santa Ana is that the company has met with difficulty at Inglewood in the disposal of its waste water, which carries much alkali. Work on the excavations for the first factory building was under way when citizens of Inglewood told the company that they would enjoin the company from allowing its waste water to flow down the creek.

At that time the soda works people had already let the contracts for the building and for the machinery. Klots became interested in Santa Ana through the Pacific Strawboard and Paper Company, which company expects to place its factory here. Ten days ago he came here and last night he held the final conference with the Santa Ana Business Men's Association.

The company agrees to put up its first building without the use of a dollar from Santa Ana. It will purchase its own site. Santa Ana people agree to take $50,000 in stock, and a committee from the Merchants' Association is to see that all money raised by the sale of stock in Santa Ana goes into actual construction of buildings and machinery. The total investment of the company when complete will be about $300,000.

The Pacific Coast Soda Company owns the great sources of soda in the West, including what is known as Soda Lake. Its plan is to bring the raw material from the desert deposits to its factory here. The factory will have no trouble in the disposal of its waste water. A pipe-line will be built directly into an arm of Newport Bay.

The company proposes to employ seventy-five men in its first building, which will probably be built and the factory in operation by December 1 of this year.

During the last year Miss Nellie R. Hewitt had only an average of four pupils in her school at Silverado Cañon, the largest school district in point of area there is in the county, and today County Superintendent of Schools Carpenter filed a notice that under the State law the district had lapsed. When the average attendance goes below five the school district must be joined to another. It is likely that the Silverado district will be attached to the El Modena district.

Marriage licenses have been issued to Alexander K. Hasson, aged 30, and Ella Rorick, aged 40, both of Los Angeles; Edward H. McKillip, aged 18, and Martha Mae Gibson, aged 19, both of Los Angeles; Lucius Allen, aged 24, and Vira McMullin, aged 20, both of Tustin; Arthur G. Rogers, aged 27, of Los Angeles, and Mabel A. Freeman, aged 24, of Santa Ana; Thomas J. Strum, aged 30, of Pomona, and Grace E. Dale, aged 19, of Anaheim; Joel B. Crites, aged 25, and Marguerite E. Scholes, aged 25, both of Santa Ana; James H. Currie, aged 23, and Nellie Barlett, aged 26, both of Los Angeles.

SAN DIEGO DOTS.

SAN DIEGO, June 26.—A company, capitalized at $100,000, is being formed for the purpose of building homes on Hillcrest, a newly opened tract of land at the head of Fifth street. The Southern Trust and Savings Bank is interested in the proposition.

Thomas Jobbitt, a veteran contractor, was seriously injured by being thrown from his carriage in a runaway yesterday afternoon at the corner of Third and Hawthorne streets.

Dr. T. C. Stockton nearly lost his life from suffocation while fighting a brush fire yesterday. He was overcome by the smoke and had a close call from being burned to death. The fire was near his premises on Quince street.

Under the new law City Treasurer Woolman has loaned to one of the local savings bank $30,000 of the June collection of city taxes and has received $25,000 in municipal bonds as security. The city will receive 2 per cent. interest.

Over 150 Christian Endeavor members will attend the State convention at Long Beach next Friday.

The Southern Trust and Savings Bank has elected E. O. Hodge, cashier, G. A. Davidson, president; Phillip Morse, vice-president.

Dr. Joseph R. Gillen, for many years a veterinary surgeon in this city, died yesterday after a short illness. He was a native of Canada.

Society centers at Hotel del Coronado.

FULLERTON FACTS.

FULLERTON, June 26.—A newly-completed oil well, No. 26, on the Union Oil Company's lease in Brea Cañon, is now producing over 500 barrels a day and it is believed this will increase to 1000 barrels daily when it is worked up to its full capacity.

One of the head employes of the Santa Fé made the statement this week that the Santa Fé would build the cut-off between Fullerton and Richfield, but that the work would not be done before next year. This will cut the running time between Riverside and Los Angeles about thirty minutes. The right of way through Placentia will cost a large sum, but it is said the company is determined to build before the Pacific Electric completes its road to Riverside via La Habra Valley.

C. Paulsen of Placentia has sold his twenty-acre highly improved home place, set to fruit trees, to L. H. Treadwell of Los Angeles for $22,500, and will improve his other Placentia place.

A. C. Bertram of Placentia has sold his ten-acre improved place to William Clemmons, formerly of Canada, for $10,000. Evans & Co. of Anaheim made both sales.

WILL BE ISLAND QUAIL.

Anacapa Rock May Be Stocked With Game Birds—Bean Growers Favor Forming Combination.

VENTURA, June 26.—Capt. Ray Webster, lessee of Anacapa Island, will stock that little rock off in the Pacific with Coast quail, if the authorities will give him permission. He has made application to the State game commissioners. If permission is granted, which is expected, Capt. Webster will immediately proceed to trap a number of pairs of the little birds and take them to his preserve, twenty miles off shore. Anacapa would be a prime place for the raising of quail.

There are no wild animals whatever on the island, such as foxes, wild cats, skunks, weasels or the like, nor are there any snakes, or other living things, outside of rats, and it is not thought these latter would bother the birds, preferring to live in the fish leavings and about the houses of the inland fishermen. The rats were left on the island by the wreck of the old steamer Winfield Scott in 1849. At one time there were hordes of them, but they are getting scarce now. The quails put on the island would have a free run and would, it is thought, increase rapidly.

Announcement of the engagement of Miss Mary Selby and Ira Gosnell, well-known young people of this city, has been made. The date of the marriage has not yet been set, but it is whispered it will take place before the winter is here.

BEAN COMBINATION.

At a meeting of the Farmers' Institute in this city Monday evening, J. A. Reid, secretary and manager of the Semi-Tropic Citrus Fruit Union of Los Angeles, gave an interesting address on the cooperative plan of marketing citrus fruits, and urged the bean growers of Ventura county to get together, form a combination and proceed to handle their own product and save the profits which now go to speculators and middlemen, saying that, because of the non-perishable character of the crop, it would be much easier for the bean growers to handle their product than it is for the citrus fruit growers to do. But he urged them to, at the same time, steer clear of the Cartwright bill, and not involve themselves by fixing the price, as the walnut growers have done. The bean men received the suggestions of Mr. Reid with favor, and it is thought will turn their early attention to a combination of their interests.

DEATH OF PIONEER.

SANTA ANA, June 26.—Robert Dibble, for thirty-three years a resident of Santa Ana, died this evening at 6:20 o'clock. He was a pioneer hardware merchant of this city. In 1868 he settled at Santa Clara and later moved here. Death came to Dibble in his rooms at the corner of Fourth and Main streets, where he owned a building.

OCEANSIDE.

OCEANSIDE, June 26.—Plans are completed and work will soon begin upon a wing for the southeast corner of Oceanside High School. Later the grounds will be improved by planting trees and shrubbery.

Miss Carrie Sharp gave a beach party to her friends last evening. A picnic feast was served at 7 o'clock around a camp fire. Those present were Mr. and Mrs. G. A. Lane, Dr. and Mrs. Reid, Mrs. M. A. Ward, Miss Carrie Sharp and Miss Lydia Whitehead.

Dr. Emmerson of Colorado arrived Monday to accept the pastorate of the Baptist Church here.

Mr. and Mrs. G. A. Lane had as their guests part of the week Miss Frances and Miss Edna Douthit of Los Angeles.

Miss Luella Palmer, one of Redlands' school teachers, came this week to occupy her tenthouse for a few weeks.

Los Angeles to Coronado by auto.

SAVES HIS BROTHER.

YUMA, June 26.—With his clothing in flames from matches with which he had been playing, Jimmy Dunne, aged 3 years, was saved from incineration this afternoon by his brother Jack, aged 12, who turned the hose on the blazing youngster and played it until the fire was extinguished.

BACK TO NATURE FOR A CURE

Nature is the greatest doctor on earth. When she can't cure it is because she needs aid. Now, most people have an idea that this aid is drugs, and when they get sick or suffer from pain of any kind they proceed to dope their stomachs with the stuff that is sold for medicine. That doesn't help any; in fact, it does a great deal of harm. The dope that you put into your stomach is poison, and poison weakens the organs and nerves of your body. What Nature needs is electricity.
When your stomach, kidneys, liver or digestive organs get out of order it is because they lack the necessary electricity to enable them to perform their regular functions. The breaking down of one of these organs nearly always causes other trouble. Nature can't cure them, because your body hasn't enough electricity to do the work, so you must assist Nature by restoring the electricity where it is needed.
Our Electric Belt does this while you sleep. It saturates the nerves with its glowing power, and these conduct the force to every organ and tissue of your body, restoring health and giving strength to every part that is weak.
Our Electric Belt is a relief from the old system of drugging. It does by natural means what you expect drugs to do by unnatural means. It removes the cause of disease, and after the cause has been removed Nature will do the rest.
Two weeks' use of your Electric Belt cured me of rheumatism. I used the treatment in all for about three months, but you know there were other symptoms to cure. For years my bowels had given me trouble, I was constipated and generally run down, but not a trace of these ailments remained at the end of three months, which I think is wonderful, as medical treatment failed to help me.
I found it easy to follow your instructions; they are as plain a child could understand them.
H. L. SMITH.

Don't Be a Weak Man

Dr. Taylor
The Leading Specialist
I want to impress it upon every weak man that I can make him strong, vigorous, healthy, alert and free from every taint of disease and weakness. I have limited my Specialty in practice to only a few of the more important disorders, so that I could KNOW these thoroughly. My experience along this one path for twenty-five years qualifies me to say positively that such troubles as Lost Vigor, Varicocele, Hydrocele, Contracted Disorders, Contagious Blood Poison, Stricture and "Weakness" can be cured perfectly—so as to stay cured. Of course I use different methods than the ordinary physician. Most of these are original with me and were devised for just such cases as the ordinary courses of treatment fail to reach.
The Scientific Treatment of Weakness
Dosing the system with powerful stimulants and tonics in an effort to restore functional vigor can have but one final result: The condition is rendered worse than before. "Weakness" is merely an indication of a low form of inflammation in the prostate gland, and this inflammation is but aggravated by stimulating remedies that excite temporary activity. I employ the only scientific and fully effective treatment for "weakness," which effects a permanent cure by restoring the prostate gland to a sound and healthy state. I obtain complete results in every case I treat. Interesting literature and a beautifully engraved chart free if you will call.
Examination Free
I offer not only FREE consultation and advice, but of every case that comes to me I will make a careful Examination and Diagnosis without charge. No ailing man should neglect this opportunity to get expert opinion about his trouble.
If you cannot call, write for Diagnosis Chart. My offices are open all day from 9 a. m. to 9 p. m. and Sundays from 10 to 1 only.

We cure Nerve-Sexual Debility, Blood Poison, Contracted Ailments, Varicocele, Genito-Urinary Disorders, Private Diseases, Chronic Ailments, Inflammatory Cases, Proctatitis, Urethritis, Neurasthenia, Stricture, Etc.
Sick Men Weak Men
Healed, Restored, Rejuvenated
CURED TO STAY CURED
Contracted Ailments
Peculiar to men, whether new, acute or neglected, cured by methods which speedily check inflammation and clear the system of poison. DON'T NEGLECT THE FIRST SYMPTOMS—Itching, burning, frequency of urinating, pain, inflammation, discharges. The sooner we begin to treat you the quicker we can effect a cure. Don't expect the trouble to wear away. THE INFECTION WILL NOT CURE ITSELF. It is a specific poison which must be neutralized, and it is a serious matter—serious enough to call for the advice of a specialist. Do not take any formula or injection which may be recommended to you. Drastic medicines are often worse than the disease.
Be careful that this trouble does not get fixed on you, but if you have tried other doctors who have not cured you, come to us. OUR METHODS AVAIL WHERE OTHERS FAIL. If you are so situated that you cannot call, write, describing your case fully.

THE WEATHER.

U. S. WEATHER BUREAU, Los Angeles, June 26.—[Reported by A. H. Wollaber, Local Forecaster.] At 5 o'clock a.m. the barometer registered 29.94; at 5 p.m., 29.84. Thermometer for the corresponding hours showed 54 deg. and 70 deg. Relative humidity, 5 a.m., 39 per cent.; 5 p.m., 64 per cent. Wind, 5 a.m., west, velocity 3 miles; 5 p.m., west, velocity 13 miles. Maximum temperature, 79 deg.; minimum, 52 deg. Barometer reduced to sea level.

SAN FRANCISCO, June 26.—There has been a slight fall in pressure along the northern coast during the past twenty-four hours. With the exception of a thunderstorm at Kalispel, there has been no rain west of the 120th meridian. The weather continues warm in Oregon and in the interior of California. In the San Joaquin Valley, afternoon temperatures are about 100 deg. There will not probably be much change Thursday. Forecast: San Francisco and vicinity: Fair Thursday, with fog in the morning and at night; light south winds, changing to brisk westerly.

Santa Clara Valley: Fair Thursday; not quite so warm; fresh south wind.

San Joaquin Valley: Fair Thursday; continued warm; light north wind.

Los Angeles and vicinity: Fair Thursday; light west wind.

Sacramento Valley: Fair Thursday; not quite so warm; fresh south wind.

Arizona: Fair tonight and Thursday.

NEEDLES, June 26.—[Exclusive Dispatch.] The Colorado River has fallen two inches since Monday. Today has been the hottest day of the season, with the mercury at 109 deg. in the shade.

LOCAL PRODUCE MARKET.

The demand for fruit was lighter yesterday than anticipated. Fluctuations in values were narrow. Apricots were scarce. Cantaloupes were easy at prevailing prices. Casaba melons made their appearance on the market yesterday at 2.00 a crate. Strawberries showed the weakness noted from day to day under continued heavy supplies and light demand. Other varieties of berries are in short supply. Watermelons were easy under free supplies and listless trade. Warm weather is needed to increase the sale of watermelons.

Potatoes were steady at previous prices. Concessions were reported in some quarters, but the majority of dealers were holding to full quotations. Onions are scarce and firm.

Yesterday's market for butter was not marked by any special change in conditions. Cheese has advanced in the East.

The egg market was easier, and predictions were made that there would be a decline in prices today.

Peas continued scarce. Tomatoes dropped to 2.00 a crate.

Sales on 'Change: Five sacks of fancy sundried chilis, 100 pounds of fancy evaporated chilis, 25 cases of local ranch case-count eggs, 6 cases of extracted water white new honey.

The receipts of produce as reported for yesterday's exchange were as follows: Eggs, 412 cases; butter, 11,317 lbs.; cheese, 15,6-8 lbs.; potatoes, 1,000 sacks; onions, none; beans, none; sweet potatoes, none.

NEW YORK LOS ANGELES BOSTON

234 HUNTINGTON BUILDING

CHICAGO CORRESPONDENT HARRIS TRUST & SAVINGS BANK

FUN WITH JOHNNIE ON STOCK EXCHANGE.

ASIDE from a little interest in the oil stocks, the session of the Los Angeles Stock Exchange yesterday morning was not noteworthy. Trading in the oil amounted to 1000 shares of Reed Crude Oil at 12; 1000 shares of Mexican Petroleum at 1.27, and 1000 shares of Central Oil at 1.13. Associated Oil closed at 31.50@32.75, each quotation showing a distinct loss.

There was little change in bank stock quotations. The bonds were absolutely stagnant, while in the miscellaneous stocks there was a change only in Edison Electric common, which closed at 65@70, the bid being up 1 point.

On the mining call there was some little excitement. Johnnie Consolidated was played with for a little while and run up about 1 point, on both quotations and selling price. Trading amounted to 15,000 shares, which were sold at 11¼@11½ each. Four thousand shares additional were tied up on 30-day calls at 11¼@11¾. The stock closed at 11¼@11½. Clark Copper was handled at 15½ cash, and at 16¼, buyer thirty days. Two thousand shares only being traded in. The close was at 15@15¾.

NEW YORK MARKETS.

SHARES AND MONEY.

[BY THE ASSOCIATED PRESS—P.M.]

NEW YORK, June 26.—The principal interest in today's stock market centered in the technical position of the market and the inferences that might be derived as to the origin and character of the demand which sprang up yesterday and started the upward movement of prices. The effect was to confirm pretty confidently the supposition of the professional character of the movements. The early dealings today showed the market in skillful hands and the appearance of activity and strength was well maintained during the period of profit-taking sales. Later the appearance was not so favorable and the organized support of prices was not pursued, presumably because the process of realizing profits had been successfully concluded. The result was a disappointment to a following that had looked for a prolongation of the movement for the end of the month. It was expected that the reinvestment of profits to be disbursed next month might be the objective in view of the operators. The quick profits proved the greater attraction in view of possible contingencies over the end of the month. The money market showed no immediate indication of becoming stronger and the reaction in foreign exchanges, which promises to put a stop to the outward movement of gold, went further today. This movement was made much of yesterday as a reliance for avoiding the threatened strain on the local money market. The day's statement of the 38 sub-treasury operations in fact showed a loss by the banks to that institution since last Friday of $9,000,000; which is a sufficiently threatening prospects for the heavy credit requirements of the half year in view of the surplus of loss than $6,000,000 held by the banks last Saturday. The forthcoming sale on Friday of $29,000,000 of New York City 4-per-cent. bonds promises to relieve considerable today. The encouraging success of Monday's Philadelphia bond sale on the prospect of the success of the New York offerings has passed away to some extent and there was renewed anxiety over the sentimental effect on the investment situation of a failure to place these bonds. A feature in the money situation was the further easing of discount rates in London and the continued offering in the exchange market here of bankers' bills of exchange for the purpose of drawing foreign funds for lending in this market. This movement is much relied on to ease the situation in the local money market over the end of the half year. Beyond that period account is beginning to be taken of the effects of the withdrawal of government deposits from the national banks to the amount of $20,000,000, which is set for July 10. The closing tone was easy, with net losses more numerous than gains. Total sales (par value,) $1,648,000. United States bonds were unchanged.

SAN FRANCISCO MARKETS. STOCK, GRAIN AND PRODUCE.

SPECIAL TO THE ASSOCIATED PRESS—P.M.]

SAN FRANCISCO, June 26.—Excessive rains in the ... south of the state, and a strengthening effect today ... in the wheat market. At the close, wheat for September delivery was up 1@1½. Corn was up ½@¾; oats were unchanged, and provisions were 2½@10 lower. The wheat market opened easier because of a moderate decline of Liverpool. Reports of additional rains in Kansas brought out an active demand from commission houses, resulting in a quick rally. It was the opinion that the continued wet weather will delay harvesting. News from the Northwest was also bullish. It was claimed that the crop in North Dakota is suffering from lack of rain. Foreign advices were also favorable to the bulls. It being reported that wheat in France, Germany and Russia has been damaged by cold weather. Throughout the day, long food profits freely, causing several reactions. Late in the day the market again became stronger on revised estimates on the Kansas crop, placing the total yield at 40,000,000 to 50,000,000 bushels. The close was strong at the high point of the day. September opened a shade to 1@1¼ lower, at 91½ to 94¾, sold between 94¾@93¼ and 93¼, and closed at 93¾. The corn market was firm all day, the strength being chiefly due to a lack of offerings. The market closed firm. September opened a shade higher at 53, sold between 53¾@53⅞ and 53⅝, and closed at 53¼. Trading in oats was quiet and the market was steady for the greater part of the day. September opened ¼ to ½ lower, at 36¾ to 37, ranged between 36¾ and 37¼@37¾, and closed at 37¼. Provisions were weak because of liberal receipts of hog products at western packing centers. At the close, pork was off 7½, lard was down 10 and ribs were 7½ lower.

Wheat—	Closing.

New York Cotton Market.

[BY PRIVATE WIRE TO FRED DORR.]

NEW YORK, June 26.—Market was irregular today. Liverpool just about met our advance of yesterday, but there was a disposition to take profits, and the leading outside operators are said to have sold rather freely of late months. There was a rumor in circulation that Liverpool would ship considerable cotton here that had passed on contract in that market. This caused some liquidation of July and August. The latter option was probably the steadiest of all the months and at times sold even with July.

The Journal of Commerce reported an improvement in the Carolinas, but the plant is said to be too small. Our own advices state that the crop has not shown the improvement it should when one considers the good weather. Selling carried prices off about 15 to 20 points from the high level of yesterday, but the undertone was good and the presence of scale buying orders imparted steadiness.

Southern spot markets were steady and unchanged to ¼ higher.

Port receipts 600, compared with year's 6549.

OIL! OIL! OIL!

Newport Bay Oil Company

GEO. HUNTINGTON, President. W. H. BEMAN, Vice-President. ARTHUR E. POOLE, Secretary & Treasurer.

The Newport Bay Oil Company are now operating on a very large tract of land situated about three miles north of the town of Newport Beach, Orange county, California.

The promoters of this enterprise have furnished all the capital necessary to demonstrate that oil existed in paying quantities. Well No. 1 is now down 2230 feet, and in over 400 feet of oil producing formations, and in its present unfinished condition the oil has been within 300 feet of the surface. Well No. 2 is now drilling, and derrick and rig are ordered for Well No. 3.

The directors are now satisfied that the Company will open the richest oil field that has ever been developed in Southern California. It has now progressed beyond the doubtful stage. In order to push the development work faster and take advantage of the present bright prospect of the oil business, the directors have decided to offer 100,000 shares only of its capital stock to the public at 10c per share. It will probably be the only stock of this company ever placed on the market. The Company is now in good financial condition, discounts all bills and has a good treasury balance on hand and expects to be producing and marketing oil this year.

The territory of the Newport Bay Oil Company is the most favorably situated in regard to transportation of any oil field in the state. Its present wells are within three miles of tide water, surrounded on all sides by railroads, giving it every facility for transportation, both by land and sea, which in itself is of great advantage over most other fields, making the company practically independent in marketing its product.

This 1000 shares of stock is offered at a very low price, much less than its present intrinsic value, as the directors propose to give all those joining with them a chance to make very sure and large profits. The Company pays no commission and every dollar goes into the development and production of oil.

Conservative people who are looking for an investment, where the chances for great profit are good, with a minimum chance for loss, are requested to call at the Company's office, where full information will be furnished, and as the field is so near Los Angeles, a few hours' ride will demonstrate to any would-be investor the truth of all statements made.

Good News For Policy Holders

The election for Trustees in the Mutual Life Insurance Company closed in December last. The canvass of votes which was conducted according to the new laws of the State of New York, lasted four months. The result has recently been announced. The most important fact for the public is that by an overwhelming majority—about three to one—the Trustees named by the Company have been elected. This means that

The Mutual Life Insurance Company

will be managed by the men who corrected the abuses of the past and installed the economies that have accomplished so much, and which will accomplish so much more. It is most reasonable to expect greater benefits as time goes on. Get the latest report of the Company. Get the recent address of the Trustees to policy holders; it is most interesting. Get acquainted with the Mutual Life; it is better to-day than ever. Get its protection while possible.

The Time to Act is NOW.

For the new forms of policies write to The Mutual Life Insurance Company of New York, N. Y.

SCHOOL TOTS IN "MIKADO."

JAPANESE PLAY IS GIVEN AT NORWOOD STREET.

Little Maids and Boys Make Happy Hit—Olive, Polytechnic, Cumnock, Westlake Kindergarten and Hollywood Hold Separate Exercises Marking Close of School Year.

There was no cessation yesterday in the round of festivities marking the close of the school year. In public and private schools alike there were numerous exercises of an appropriate nature, scores of pupils took part in plays or were heard in recitations and songs, and the attendance of parents and friends was large.

The Norwood-street School had many delightful features in the graduating exercises in the afternoon, conducted under the direction of the principal, Miss Lodge. The second part of the programme was a bit of old Japan, or the Mikado, up to date, even the programmes gotten up by the pupils being adorned with Japanese ladies.

The orchestra led off with a stirring selection, and the class prophecy was read by Loyal Underwood, telling of strange and splendid things to come. Evelyn Harris read the class poem, and a beautiful feature was "The Broken Pitcher," recited by seven girls in classic costumes.

The class will was a clever document, read by Andrew Baldwin, and the class history followed, by Elinor Richards, after which the certificates of promotion to the High School were presented by the principal, and the first part of the programme was completed with a piano solo by Eva Sumner.

Flirting and coquetting with their huge fans came three little maids of Japan in a fan drill. They were Imogen Furlong, Emily Hutton and Irene Benson. Evalyn Harris followed with a Japanese song. The Mikado chorus, sung by nineteen boys, made a great hit, Andrew Baldwin taking the solo part of the Lord High Executioner. A beautiful parasol drill by sixteen girls in Japanese array was the last number, and with the school flag out the boys gave a rousing yell for the Norwood-street school.

The finishing class included Charlotte Bell, Anna Benton, Dorothy Dean, Helen Delany, Marjorie Fisher, Imogene Furlong, Rose Hamer, Evelyn Harris, Martha Hunt, Emily Hutton, Ruth Kellogg, Viola McCoy, Helen McKelvey, Gladys Phelps, Elinor Richards, Phillis Richardson, Clara Tag, Cyril Aiken, Andrew Baldwin, Edward Dohenys, Preston Hotchkiss, Fred Isaacs, Robert McMasters, Donald Nicholson, Paul Phillips, Barker Tyler, Loyal Underwood, Allen Waldo, Albert Walmsely and Benjamin Weston.

Artistic programmes in conventional designs in purple and gold held the programme of the Olive-street School graduation, in the afternoon. The exercises began with a selection by the school orchestra. The class salutatory was given Raymond Seymour, followed by a piano solo, "Convent Fire," by Lillian Althouse. The class history was read by Freeda Ericsson; and the class prophecy by Minnie Gewertz. Abbie Barnett gave a reading, "Rivermouth Rocks," and another excellent reading, "The Valley," by Margaret Carney, followed with music called "The Naughty Seven."

Presentation of the class was made by Blanche Clark, with response by Glen Loeger of '08. The Mantle oration was delivered by Olive Davis, with response by Vane McKee, '08. Anna Hall read the class poem, and Robert Sepulveda, the class will.

The principal, Miss McFadden conferred the diplomas, and the valedictory was delivered by Arthur Judy, the school closing with the spirited singing of the class song and a farewell number by the orchestra.

"POLY'S" WIND-UP.

Owing to the length of the class play, the graduating class at Polytechnic High School postponed the rest of their class-day exercises until last night, when a programme was given comprising the class history, class prophecy, presentation of Ionian pins and class songs. "Poly" students turned out full force as usual, and made the auditorium ring with their cheers. Occasionally caustic remarks would go hurtling onto the heads of the mighty seniors as they sat or stood around on the stage, and the remarks would be received with the same good nature.

The atmosphere was fairly thick with school spirit and every effort made by any performer was heartily applauded. The class history, written by Gladys Lewis, and given by the president, Orville Howland, was a clever bit of verse, following the fortunes of the '07 class from the time of their infant scrubdom up to date. The class prophecy was given by Gladys Lewis in the guise of a gypsy queen who professed to see future greatness in each senior's palm as it was presented.

The class then sang "The Merry Makers" by Von Suppe. The Ionian pins, the much-coveted emblem of the graduate, were presented by Mame Cliff and accepted in behalf of the outgoing class by Ernest Ganahl. The class songs finished off the programme and although not much as to numbers, nevertheless were very effective and to the point.

The class play, "She Stoops to Conquer," was repeated in the auditorium for the benefit of the school at large and proved quite as much of a success as the first performance.

"A MIDSUMMER EVE."

It was a truly fairy-like performance that the graduates of Dobinson school gave as the first part of their commencement programme last night. The stage was set as a forest scene, with the front banked with flowers, and with hanging branches of green on the sides and in the background. The little play was called "A Midsummer Eve," adapted and arranged by Mrs. Dobinson and Miss Amanda Mathews. This formed a framework for a collection of delightful readings from various poets. The graduates were gowned in flowing antique garments, and made a charming picture as they sat or danced amidst the woodland surroundings. Their several selections were remarkably well given.

Mendelssohn music was furnished, and a very pretty feature of the number was an array of little children supplied with gossamer wings to represent fairies.

Part two of the programme was taken up with the regular commencement exercises. Rev. Baker P. Lee pronounced the invocation, Mr. Dobinson gave advice to the graduates, and Mrs. Dobinson followed with the presentation of diplomas. The graduates are the Misses Nettie Kirkham, Eleanor Crane, Ruth Shepard, Evelyn Foshia and Elizabeth Dehmlow.

WESTLAKE KINDERGARTEN.

The little folks of the Westlake kindergarten and primary school, Seventh street and Westlake avenue, participater in the morning in a programme of music and recitations arranged by the teachers of the school, Misses Lillian and Corinne Gough. About forty children who have attended the classes during the year were present. There were orchestral numbers given by the children, several of whom also gave solos. The songs on the programme were "Good Morning," "Mothers, Knives and Forks," "Two Bright Eyes," "Swing Song," "Norma and Gertrude." There were games between the musical numbers, and a chorus concluded the morning's exercises. Many of the parents of the little people were present with friends at the closing exercises of the school term.

HOLLYWOOD GRADUATES.

The commencement exercises of the Hollywood grammar schools were held last evening in Wilcox Hall in that city, and were attended by nearly 400 people. The floral pieces numbered nearly 200, and formed a perfect bank of bloom at the base of the platform. An interesting programme of essays, songs and recitations was given. The class poem was read by Harriet Dunbar of the Fremont school, and the class will by Irene M. Gray of the Grant school. Rev. J. Arthur Evans pronounced the invocation, and the diplomas were presented by County Superintendent Mark Keppel. At the close of the programme the classes each presented their respective teachers with a handsome present. The classes numbered twenty-three each.

AFRAID TO GO HOME.

Honolulu Man Anticipates Ridicule Because Exasperatingly Misquoted by Eastern Newspapers.

Edward C. Brown of Honolulu, Hawaiian representative of a large Chicago drug and chemical firm, says he fears to return to his home city because of interviews printed in some eastern papers, which misquote him in an exasperating manner. One paper in Indiana called him a "wealthy sugar planter." Another made him say the islands were in a bad way because of the influx of Japanese. A southern paper quoted him as saying that "plantations were flourishing on one of the islands where vegetation is very sparce."

"When I get home I expect all kinds of jokes at my expense," said Brown. "Some of the easterners seemed to think that any one from the Hawaiian Islands ought to be copper-colored and talk some kind of a South Sea dialect."

MOTHER DIES OF AWFUL BURNS.

GASOLINE CLAIMS ANOTHER HUMAN VICTIM.

Mrs. Louise Rohan Uses Jar of the Deadly Fluid, Thinking It Was Coffee, and Explosion Follows, Covering Her With Flames—Dies in Agony in Hospital.

Mrs. Louis Rohan, victim of a gasoline explosion at No. 825 Tennessee street, died yesterday afternoon at the California Hospital. From the time of the accident early yesterday morning until her death, Mrs. Rohan was conscious, and while suffering terrible pain begged pitifully that her four children might be cared for after her death.

The tragedy of yesterday morning came as a fearful interruption of a pretty romance which had resulted in the marriage of F. G. Rohan, only two months ago. Rohan arrived in Los Angeles, from Norway, in March. It was a case of love at first sight, and the couple, together with four little children by the woman's former marriage, went to live in a pretty little cottage at No. 825 Tennessee street.

Rohan worked at San Pedro, and early yesterday morning his wife arose to prepare breakfast so that he could reach his place of employment by 6 o'clock. She went to the kitchen, lit the fire in the gas stove, and took down a glass jar of what she supposed was coffee. Before gas had been put in the house the Rohans had used a little gasoline stove, and the gasoline had been kept in a jar sitting on a shelf in the kitchen. In some way the jar containing gasoline and a similar one containing coffee had been transposed, and Mrs. Rohan took the wrong one.

She poured the liquid into the coffee pot, and as she did so the gasoline exploded, and in a flash the woman was on fire. Shrieking with pain, Mrs. Rohan dashed into the bedroom where her husband was just arising. He seized her and rolled her in blankets until the flames had been extinguished, but too late.

Mrs. Rohan was treated at the Receiving Hospital and then hurried to the California Hospital. There a consultation was held in an effort to save her life. It was found the flames had burned off more than half the skin of the body. Besides she had inhaled flames, and the case was hopeless. All during the afternoon Mrs. Rohan begged that her children be cared for after her death.

"I do not fear to die," she whispered to her husband, "but take care of the children and furnish them a good home."

LEFT WIFE AS HOSTAGE.

Harry Oldfield, a laundry-wagon driver, residing at No. 139 East Fourth street, left his wife and six-months-old baby as security with Jailer McAuliey yesterday, while he went out to borrow $5 with which to pay his fine. Arrested on a charge of drunkenness, Oldfield appeared in Police Court and was fined $5 or given an alternative of serving five days on the chain gang. Mrs. Oldfield with her child applied for a pass to see her husband. Once within the jail the woman suggested to her husband that he go out and secure bail, as she had no money. She volunteered to stay. The husband returned in a half hour with the money.

NORMAL IS TWENTY-FIVE.

Anniversary Celebrated in Appropriate Manner—Graduating Exercises and Reception Today.

The twenty-fifth anniversary of the State Normal School was celebrated in the assembly hall last night, where a large audience, mainly of graduates of the institution, was assembled. They all wore large yellow badges in the form of a Maltese cross, upon which was written the name of the wearer and date of class.

On the platform were President Millspaugh, the board of trustees, representatives of the city Board of Education, some of the former presidents and early professors of the school, and a few other persons.

The school was opened on August 29, 1882, and there were twenty-two graduates in the first class. The class of eighty, which will be graduated today, swells the alumni to about 2000.

President Millspaugh said last night that this school has blazed the way in many directions, and has never taken a backward step. At the time of its birth, normal schools were ridiculed by the universities, and even looked down on by the high schools, and it was customary for normal graduates to enter a high school to complete their course. The president predicted the locating of a great university here at no very distant day.

After the programme in the assembly hall, a reception was held in the gymnasium and library, and refreshments were served. The yellow badge wearers looked each other up, and there was a cheerful reunion of graduates.

The graduation exercises will be held at 10 o'clock this morning, when an address will be delivered by Rev. Burt Estes Howard. The president's reception will be held this evening, from 8 o'clock to 11, at No. 1423 Bonnie Brae street. The alumni will banquet tomorrow evening in the Normal gymnasium.

Where the Coal Comes From.

Luzerne county produced nearly 40 per cent. of the total production of anthracite coal in the United States during the year 1906. Its output was 26,268,978 tons, as compared with 24,635,315 tons in 1905, and while there is a decrease of 388,337 tons it does not detract from Luzerne's position as the most fertile anthracite field in the country. The decrease can be accounted for principally by reason of the suspension last April and May, when the miners were idle for six weeks while negotiations were going on between the miners and operators which ended in a continuation of the award of the strike commission. The other 60 per cent. was mined in the counties of Carbon, Columbia, Dauphin, Lackawanna, Northumberland and Schuylkill.—[Philadelphia Record.

Cawston's Plumes Are Best

Feathers from the male birds are stronger, have longer fibre, more luster, remain curled longer, and are in every way superior. This is one of the reasons Cawston's plumes are better than other feather goods offered for sale elsewhere. Cawston's plumes are made from feathers from male birds only. The Cawston trade-mark attached to a plume guarantees its quality.

Prize medals at Paris, St. Louis, Omaha, Buffalo, Portland.

Your old feather goods are valuable. Have them repaired, cleaned, recurled, and made to look like new by our expert workers in our factory at the farm.
